Mengembangkan Infrastruktur BPDPKS, Mendukung Sawit Indonesia yang Berkelanjutan Developing BPDPKS Infrastructure, Supporting Sustainable Indonesian Palm Oil

Melewati tahun 2018 yang penuh dinamika dan tantangan dalam industri kelapa sawit, Badan Pengelola Dana Kelapa Sawit yang selanjutnya disebut BPDPKS berkomitmen untuk terus mengoptimalkan kinerja agar mampu mencapai visi dan misi yang telah ditetapkan.

Komoditas kelapa sawit yang merupakan salah satu komoditas andalan Indonesia dan penyumbang devisa terbesar, menghadapi tekanan yang cukup besar, yakni fluktuasi harga yang menurun, produksi yang melimpah dan berbagai tekanan negatif terhadap keberadaan industri kelapa sawit. Di tengah berbagai kesulitan yang dihadapi, BPDPKS bersama dengan dukungan *stakeholders*, berkeyakinan akan mampu mengoptimalkan kinerja ditahun-tahun mendatang. Upaya yang dilakukan adalah mempersiapkan langkah strategis, didukung akurasi perencanaan dan *action plan*. Selain melakukan penghimpunan dana, BPDPKS juga menjalankan fungsinya mengembangkan sawit berkelanjutan, seperti melakukan peremajaan (*replanting*) perkebunan kelapa sawit rakyat.

Passing through 2018 with full dynamics and challenges in the palm oil industry, the Oil Palm Plantation Fund Management Agency, hereinafter referred to as OPPFMA, is committed to optimizing performance to be able to achieve the predetermined vision and mission.

Palm oil commodity, which is one of Indonesia's flagship commodities and the biggest foreign exchange earner, faces considerable pressure, i.e. price fluctuations, abundant production, and various negative pressures on the existence of the palm oil industry. In the midst of various difficulties encountered, OPPFMA, together with the support of stakeholders, believes that the Company will be able to optimize performance in the coming years. OPPFMA prepares strategic steps, supported by accurate planning and action plans. In addition to funding, OPPFMA also carries out its function of developing sustainable palm oil, such as replanting smallholder palm oil plantations.

BPDPKS juga melakukan pengembangan sumber daya manusia perkebunan kelapa sawit dengan memberikan pelatihan kepada sejumlah petani, anak petani, guru SMK perkebunan, anggota koperasi serta menyalurkan beasiswa afirmasi bagi para anak pekebun rakyat untuk mengikuti pendidikan diploma perkelaspasawitan. Hal ini diharapkan untuk menghasilkan tenaga perkebunan yang kompeten dalam penerapan tata kelola pertanian.

Untuk meningkatkan efektivitas program peremajaan, BPDPKS bersama Kementerian Pertanian, Kementerian Keuangan, dan Kemenko Perekonomian juga melakukan penyempurnaan aturan agar penyaluran dana bisa dilakukan dengan lebih cepat tanpa mengurangi akuntabilitas. BPDPKS kian mantap menatap ke depan dan secara dinamis melihat peluang-peluang baru bagi penguatan kinerja dengan mengembangkan infrastruktur BPDPKS, guna mendukung Sawit Indonesia yang berkelanjutan.

OPPFMA also develops human resources for palm oil plantations by providing training to several farmers, farmers' children, plantation vocational school teachers, members of cooperatives, and provides affirmation scholarships for the children of smallholders to take part in the diploma palm oil education program. This is expected to produce plantation workers who are competent in agricultural governance.

OPPFMA, together with the Ministry of Agriculture, the Ministry of Finance, and the Coordinating Ministry for Economic Affairs refine the rules to improve the effectiveness of the replantation program. Thus, the funds could be disbursed faster without reducing accountability. OPPFMA strongly looks forward and dynamically foresees new opportunities for strengthening performance by developing OPPFMA's infrastructure to support sustainable Indonesian Palm Oil.

"Badan Pengelola Dana Perkebunan Kelapa Sawit (BPDPKS) perlu memperhatikan faktor eksternalitas dalam mendukung riset di sektor sawit. BPDPKS perlu cermat memilih riset mana yang perlu didukung. alam kondisi yang penuh unsur eksternalitas, dibutuhkan kejelian BPDPKS dalam memilih bagian mana yang harus dilakukan riset dan hasilnya harus bisa mendatangkan manfaat yang besar bagi masyarakat. Riset sebaiknya dilakukan terfokus meskipun jumlahnya sedikit namun mendatangkan banyak manfaat, ketimbang banyak riset namun sedikit manfaat. Jangan sampai hasil riset itu mengisi lemari saja, tetapi harus mengisi khazanah kita".

"The Oil Palm Plantation Fund Management Agency (OPPFMA) needs to take into account the external factors in supporting research in the palm oil sector. OPPFMA needs to carefully choose which research needs to be supported. In conditions with many external factors, OPPFMA must be thorough in choosing which part of the research should be conducted, with results that must be able to provide great benefits to the community. Research should be focused, even with small amount, it must provide great benefits. Do not do many researches with little to no benefit. Do not let the results of the research be just a target. It must also achieve the objectives".

"Kami berharap Musi Banyuasin bisa mengembangkan industri hilir kelapa sawit, untuk itu kami sangat fokus pada komoditas perkebunan kelapa sawit. Saat ini kami tengah menyusun rencana untuk memulai hilirisasi. Kami akan bergerak ke depan untuk mencapai target 5.000 hektare areal lahan yang akan diremajakan di Kabupaten Musi Banyuasin."

"We hope that Musi Banyuasin can develop the downstream palm oil industry. Thus, we are very focused on the palm oil plantations as the commodity. Currently, we are planning to start the downstreaming. We will move forward to reach 5,000 hectares target land to be replanted in Musi Banyuasin Regency."

BPDPKS Bersama 8 Kementerian dan Lembaga Perkuat Sosialisasi B20. BPDPKS bersama delapan kementerian dan lembaga terkait berkomitmen untuk memperluas sosialisasi penerapan program perluasan mandatori B20 agar masyarakat lebih mengetahui secara lebih mendalam mengenai bahan bakar campuran 80% solar dengan 20% biodiesel. Langkah sosialisasi ini juga diperlukan untuk menghindari kesalahan persepsi yang mungkin muncul di publik terkait penggunaan bahan bakar.

Hadir dalam pertemuan tersebut perwakilan Humas dari Kementerian Koordinator Perekonomian, Kementerian Energi dan Sumber Daya Mineral, Kementerian Perdagangan, Kementerian Perhubungan, Kementerian BUMN, Kementerian Pertanian, Kementerian Keuangan, Kementerian Perindustrian, Asosiasi Produsen Biofuel Indonesia, dan sejumlah kalangan lain. Pertemuan tersebut menghasilkan kesepakatan mengenai perlunya tindakan bersama untuk mensosialisasikan B20 secara lebih intensif.

OPPFMA, in Collaboration with 8 Ministries and Institutions, Strengthens B20 Socialization. OPPFMA, in collaboration with 8 ministries and institutions are committed to expand the socialization of the B20 mandatory expansion program to ensure that the public knows better about 80% diesel fuel mix with 20% biodiesel. This socialization is necessary to avoid misperceptions that might arise in the public's perception regarding fuel utilization. The event was attended by PR representatives from the Coordinating Ministry for the Economy, the Ministry of Energy and Mineral Resources, the Ministry of Trade, the Ministry of Transportation, the Ministry of SOEs, the Ministry of Agriculture, the Ministry of Finance, the Ministry of Industry, the Association of Indonesian Biofuel Producers, and various other communities. The meeting resulted in an agreement on joint action for a more intensive B20 socialization.

Laporan Kepada Regulator dan Pemangku Kepentingan Report to Regulators and Stakeholders

Sampai dengan 31 Desember 2018 BPDPKS mencatat Aset sebesar Rp20.971 triliun, meningkat 76,74% dibandingkan tahun 2017 sebesar Rp11.865 triliun. Peningkatan tersebut terutama disebabkan oleh surplus tahun 2018 yang lebih besar. Adapun Liabilitas sebesar Rp879.71 miliar meningkat 2,38% dibandingkan tahun 2017 sebesar Rp859.19 miliar yang disebabkan oleh pengakuan beban pembayaran selisih harga biodiesel yang telah diverifikasi oleh Kementerian ESDM.

As of 31 December 2018, OPPFMA recorded assets of Rp20,971 trillion, an increase of 76.74% compared to 2017, which was Rp11,865 trillion. This increase was mainly due to a larger surplus in 2018. Liabilities amounted to Rp879.71 billion, increased by 2.38% compared to 2017, which was Rp859.19 billion, due to the recognition of the biodiesel price variance verified by the Ministry of Energy and Mineral Resources.

Message from the Supervisory Board

Rusman Heriawan
Ketua **Chairman**

Dewan Pengawas mencermati bahwa capaian kinerja BPDPKS tahun 2018 merupakan hasil dari sinergi Direksi dan Dewan Pengawas, dukungan kebijakan pemerintah dan dampak perkembangan industri sawit Indonesia.

Supervisory Board noted that OPPFMA's performance in 2018 was the result of the synergy of the Board of Directors and the Supervisory Board, the support of government policies, and the impact of the palm oil industry development.

Puji syukur kehadirat Tuhan Yang Maha Esa, atas limpahan rahmat dan karunia-Nya, sehingga BPDPKS berhasil melewati tahun buku 2018 dengan pencapaian sangat baik. Dewan Pengawas secara kolektif mempunyai tugas dan tanggung jawab atas pengelolaan BPDPKS dalam mengawasi dan memberikan arahan kepada Direksi. Izinkan saya mewakili Dewan Pengawas menyampaikan laporan pengawasan terhadap hasil kinerja BPDPKS untuk Tahun Buku 2018. Laporan disampaikan untuk memenuhi pelaksanaan tugas pengawasan sebagaimana diatur dalam Peraturan Menteri Keuangan Nomor: 95/PMK.05/2016 tentang Dewan Pengawas Badan Layanan Umum.

Selama tahun 2018, Dewan Pengawas BPDPKS secara proaktif melakukan pengawasan dan memberikan masukan kepada Direksi. Pengawasan dilakukan secara langsung termasuk memantau tindak lanjut atas rekomendasi Dewan Pengawas kepada Direksi agar terus menjalankan komitmennya untuk selalu meningkatkan kinerja BPDPKS dengan tetap menjunjung tinggi prinsip-prinsip Tata Kelola yang Baik (GG) dalam kegiatan sehari-hari.

We give praise to the Almighty God, for it is with His abundant grace and blessings that BPDPKS succeeded in passing the fiscal year 2018 with very good achievement. The Supervisory Board collectively has the duties and responsibilities for OPPFMA's management by supervising and providing direction to the Board of Directors. I, on behalf of the Supervisory Board, submit a supervisory report on OPPFMA's performance results for the Fiscal Year 2018. This report is submitted to fulfill the supervisory duties as regulated in Minister of Finance Regulation No. 95/PMK.05/2016 on the Supervisory Board of Public Service Agency.

During 2018, OPPFMA's Supervisory Board proactively supervises and provides advice to the Board of Directors. Supervision is carried out directly, including monitoring the follow-up on the recommendations of the Supervisory Board to the Board of Directors to improve OPPFMA's performance by upholding the Good Governance (GG) principles in daily activities.

Laporan Dewan Pengawas Message from the Supervisory Board

Penilaian atas Kinerja Direksi Assessment on the Board of Directors' Performance

Dewan Pengawas memberikan apresiasi kepada manajemen BPDPKS atas pencapaian kinerja di tahun 2018 yang meningkat signifikan melampaui target yang ditetapkan. Dewan Pengawas mencermati bahwa capaian kinerja BPDPKS tahun 2018 merupakan hasil dari sinergi Direksi dan Dewan Pengawas, dukungan kebijakan pemerintah dan dampak perkembangan industri sawit Indonesia. Capaian kinerja BPDPKS tahun 2018 juga merefleksikan peningkatan proses berbasis *good governance*.

Sampai dengan 31 Desember 2018 BPDPKS mencatat Aset sebesar Rp20.971 triliun, meningkat 76,74% dibandingkan tahun 2017 sebesar Rp11.865 triliun. Peningkatan tersebut terutama disebabkan oleh surplus tahun 2018 yang lebih besar. Adapun Liabilitas sebesar Rp879.71 miliar meningkat 2,38% dibandingkan tahun 2017 sebesar Rp859.19 miliar yang disebabkan oleh pengakuan beban pembayaran selisih harga biodiesel yang telah diverifikasi oleh Kementerian ESDM. Sementara itu, adanya surplus tahun 2018 dan pengembalian setoran dari kas negara sebesar Rp2.000.000.000.000, berdampak pada kenaikan Ekuitas BPDPKS menjadi 20.091 triliun atau mengalami peningkatan sebesar 82,52% dibandingkan tahun 2017 sebesar Rp11.007 triliun.

Dari sisi operasional, BPDPKS membukukan pendapatan Rp15.42 triliun dan penyaluran dana sebesar Rp4.824 triliun yang telah dialokasikan untuk program replanting, pendidikan dan pelatihan petani kelapa sawit, mendanai riset pada sejumlah universitas/lembaga riset, dan telah menghasilkan berbagai publikasi ilmiah dan hak paten serta promosi dan diplomasi sawit. Sementara itu, Pendapatan atas pengelolaan dana sebesar Rp1.047 triliun.

Dewan Pengawas juga senantiasa mendukung Program Mandatori Biodiesel 20% (B-20) pada setiap minyak diesel (solar) yang berhasil meyerap 2,288 juta KL. Dimana program ini telah memberikan manfaat besar dalam bentuk pengurangan gas emisi.

The Supervisory Board appreciates OPPFMA management for the achievement of 2018 performance, which increased significantly beyond the predetermined targets. Supervisory Board noted that OPPFMA's performance in 2018 was the result of the synergy of the Board of Directors and the Supervisory Board, the support of government policies, and the impact of the palm oil industry development. OPPFMA's performance in 2018 reflects an improvement in the process of good governance.

As of 31 December 2018, OPPFMA recorded assets of Rp20,971 trillion, an increase of 76.74% compared to 2017, which was Rp11,865 trillion. This increase was mainly due to a larger surplus in 2018. Liabilities amounted to Rp879.71 billion, increased by 2.38% compared to 2017, which was Rp859.19 billion, due to the recognition of the biodiesel price variance verified by the Ministry of Energy and Mineral Resources. Meanwhile, the 2018 surplus and return of deposits from the state treasury of Rp2,000,000,000,000 have an impact on the increase in OPPFMA's Equity to Rp20,091 trillion, or increased by 82.52% compared to 2017, which was Rp11,007 trillion.

In terms of operations, OPPFMA recorded revenues of Rp15.42 trillion and disbursed funds of Rp4,824 trillion, which had been allocated for replanting, education and training programs for palm oil farmers, funded research at several universities/research institutions, and produced various scientific publications and patents, and palm oil promotion and diplomacy. Income from fund management amounted to Rp1,047 trillion.

The Supervisory Board supports the Mandatory Biodiesel 20% Program (B-20) on each diesel oil, which successfully absorbs 2.288 million KL. This program has provided great benefits in reducing gas emissions.

Pandangan Atas Prospek Usaha View on Business Prospects

Prospek perekonomian domestik 2019 akan tetap kuat ditandai dengan pertumbuhan ekonomi yang lebih baik dan stabilitas yang terjaga ditengah kondisi perekonomian global yang belum kondusif,. Pertumbuhan ekonomi Indonesia pada 2019 diprakirakan tetap solid pada kisaran 5,0% - 5,4% ditunjang oleh permintaan domestik yang tetap kuat, baik konsumsi maupun investasi. Sementara itu, kinerja ekspor neto belum banyak dapat menopang peningkatan pertumbuhan ekonomi 2019 sejalan dengan pertumbuhan perekonomian dunia yang melanda.

Konsumsi swasta diperkirakan tumbuh kuat, sehingga dapat menopang pertumbuhan ekonomi 2019. Konsumsi swasta diprakirakan tumbuh dalam kisaran 5,2% - 5,6% pada 2019 dipengaruhi tingginya konsumsi rumah tangga dan konsumsi lembaga nonprofit yang melayani rumah tangga (LNPRT). Pertumbuhan konsumsi rumah tangga diperkirakan tetap kuat didukung daya beli masyarakat yang terjaga, seiring dengan pendapatan yang membaik disertai inflasi yang rendah, serta dampak positif dari penyelenggaraan pemilihan umum (Pemilu).

Peran stimulus fiskal pemerintah baik melalui bantuan sosial maupun instrumen fiskal lainnya juga berperan menopang kinerja konsumsi rumah tangga. Kinerja konsumsi swasta juga bersumber dari peningkatan kinerja konsumsi LNPRT sebagai dampak positif dari pengeluaran terkait penyelenggaraan Pemilu 2019.

In 2019, the domestic economy is projected to remain strong, which shall be marked by better and more stable economic growth amidst the not conducive global economic conditions. Indonesia's economic growth in 2019 is predicted to remain solid at 5.0% - 5.4%, supported by strong domestic demand, both consumption and investment. Meanwhile, the net export performance was unable to sustain an increase in economic growth in 2019, in line with sluggish world economic growth.

Private consumption is expected to grow strongly, to sustain economic growth in 2019. Private consumption is predicted to grow by 5.2% - 5.6% in 2019 due to high household consumption and consumption of nonprofit institutions serving households (LNPRT). Growth in household consumption is expected to remain strong, supported by maintained public' purchasing power, in line with improved income accompanied by low inflation, as well as the positive impact of General Election (Pemilu).

The government fiscal stimulus through social assistance and other fiscal instruments plays a role in sustaining the performance of household consumption. The private consumption performance is also influenced by an increase in LNPRT consumption performance as a positive impact of expenditure related to the 2019 General Election.

Pandangan Atas Penerapan Tata Kelola BPDPKS View on Business Prospects

Dalam rangka meningkatkan kualitas penerapan prinsip-prinsip tata kelola yang baik BPDPKS selalu berupaya untuk dapat menerapkan implementasi *Good Governance* pada setiap lini bisnisnya dengan berlandaskan pada prinsip-prinsip *Good Governance* (transparansi, akuntabilitas, kewajaran, independensi dan tanggung jawab) guna mempertahankan eksistensi BPDPKS dalam menghadapi tantangan dan persaingan usaha di masa-masa mendatang, Dewan Pengawas menilai BPDPKS telah melakukan berbagai upaya untuk memastikan pelaksanaan tata kelola organisasi dapat dilaksanakan secara konsisten.

In terms of improving the OPPFMA's Good Governance in every business line based on the Good Governance principles (transparency, accountability, fairness, independence, and responsibility) to maintain the OPPFMA in facing challenges and business competition in the future, the Supervisory Board considers that OPPFMA has made various efforts to ensure that the organizational governance is carried out consistently.

Laporan Dewan Pengawas Message from the Supervisory Board

Organ tata kelola BPDPKS dibangun untuk menjamin pelaksanaan prinsip-prinsip tata kelola BPDPKS dapat berjalan dengan efektif dengan peran dan tanggung jawab yang jelas sehingga tercipta mekanisme kontrol check and balance. Pengelolaan BPDPKS senantiasa dilandasi dengan pelaksanaan prinsip tata kelola yang baik (*good governance*) sesuai ketentuan yang berlaku. Dewan Pengawas senantiasa mendorong komitmen BPDPKS untuk menerapkan tata kelola perusahaan di seluruh tingkatan organisasi. BPDPKS secara bertahap melakukan penyempurnaan atas kelengkapan kebijakan dan prosedur di seluruh organisasi BPDPKS dalam rangka mendukung berjalannya sistem operasional mampu sejalan dengan prinsip *good governance*.

Sistem pengendalian internal BPDPKS dilakukan melalui penerapan kebijakan dan prosedur secara konsisten, baik terkait dengan kegiatan usaha BPDPKS, manajemen risiko, perencanaan strategis yang akurat, pembagian tugas dan pendeklegasian wewenang yang jelas, serta kebijakan akuntansi yang memadai. Konsep Sistem Pengendalian Internal sejalan dengan kerangka Sistem Pengendalian Internal dari *Committee of Sponsoring Organization of The Treadway Commission* (COSO). Dewan Pengawas senantiasa mengawasi kecukupan dan kewajaran dalam penyusunan laporan keuangan, pengelolaan risiko dengan memperhatikan prinsip kehati-hatian yang dibantu oleh Komite Audit.

Dewan Pengawas menyadari bahwa BPDPKS tidak terlepas dari beberapa risiko usaha yang dapat mempengaruhi kegiatan usahanya, karena itu kami mendorong peningkatan kemampuan di bidang manajemen risiko agar mampu mengidentifikasi dan memitigasi risiko-risiko yang akan dihadapi. Kami meyakini bahwa dengan tata kelola yang semakin baik, maka BPDPKS akan mampu mencapai pertumbuhan yang berkesinambungan dan memberikan nilai tambah bagi seluruh *stakeholder*.

The OPPFMA's corporate governance is formed to ensure that the implementation of OPPFMA's governance principles shall be done effectively with clear roles and responsibilities to create check and balance control mechanism. BPDPKS's management is always performed based on good governance principles in accordance with prevailing regulations. The Supervisory Board always encourages BPDPKS's commitment to implementing integrated corporate governance at all levels of the organization. In addition, OPPFMA has gradually refined the policies and procedures within the organization to be more comprehensive, in order to be able to support the operational system in line with the principles of good governance.

The OPPFMA's internal control system is applied through consistent implementation of policy and procedures, in relation to OPPFMA's business activity, risk management, strategic planning, segregation of duties, and clear authority delegation, as well as adequate accounting policy. The concept of the Internal Control System is in line with the Internal Control System of the Committee of Sponsoring Organizations of the Treadway Commission (COSO). The Supervisory Board, assisted by the Audit Committee, monitors the adequacy and fairness in the preparation of financial statements, risk management, by taking into account the prudential principles.

The Supervisory Board realizes that OPPFMA is inseparable from business risks that may affect its business activities. Therefore, We encourage capacity building in risk management in order to be able to identify and mitigate the risks that will be faced. We believe that with better governance, OPPFMA will be able to achieve sustainable growth and provide added value for all stakeholders.

Board of Directors' Report

Dono Boestami
Direktur Utama **President Director**

Jumlah Aset BPDPKS tahun 2018 adalah sebesar Rp20.971.433.886.205 meningkat 76,74% dibandingkan tahun 2017 sebesar Rp11.865.868.411.275. Peningkatan tersebut terutama disebabkan oleh tingginya pendapatan pungutan dan pengelolaan dana, serta berkurangnya selisih harga biodiesel yang menyebabkan beban biodiesel yang lebih kecil dari periode sebelumnya sehingga terjadi peningkatan aset yang signifikan.

In 2018, OPPFMA's Total Assets amounted to Rp20,971,433,886,205, increased by 76.74% compared to 2017, which was Rp11,865,868,411,275. The increase was mainly due to high collection fees and fund management, as well as reduced biodiesel price differences which led to a smaller biodiesel liabilities compared to the previous period, resulting in a significant increase in assets.

Para Pemangku Kepentingan yang Terhormat, Dear Distinguished Stakeholders,

Dengan mengucapkan puji syukur kehadiran Tuhan Yang Maha Esa, pada kesempatan ini kami atas nama Direksi menyampaikan laporan pengelolaan dan pencapaian BPDPKS di tahun keempat berdiri. Hal ini sebagai bukti eksistensi BPDPKS sekaligus kebanggaan atas kepercayaan negara kepada kami dalam mengelola dana perkebunan kelapa sawit yang berperan dalam pengembangan sawit berkelanjutan sebagai salah satu komoditas strategis Indonesia. Merupakan kehormatan bagi saya mewakili seluruh anggota Direksi yang lain, untuk menyampaikan bahwa tahun 2018 merupakan tahun yang mengesankan dimana BBPDPKS mampu menjaga kinerja yang berkelanjutan dan berhasil menciptakan nilai yang optimal bagi segenap pemangku kepentingan. Pada kesempatan yang baik ini perkenankan kami melaporkan pengelolaan dan kinerja BPDPKS selama tahun buku 2018 melalui Laporan Tahunan Tahun 2018.

We give thanks to the God Almighty, on this occasion, We, on behalf of the Board of Directors, submit management reports and OPPFMA's achievements in the fourth year since its establishment. This is the evidence of OPPFMA's existence and our pride in the country's confidence in managing the funds of palm oil plantations that play a role in the development of sustainable palm oil as one of Indonesia's strategic commodities. It is my honor to represent all the other members of the Board of Directors, to convey that 2018 was an impressive year, in which OPPFMA was able to maintain sustainable performance and thrive in creating optimal value for the stakeholders. On this opportunity, let us submit the management and performance report of OPPFMA throughout 2018 fiscal year, in this 2018 Annual Report.

Laporan Direksi Board of Directors' Report

Perbaikan Kondisi Ekonomi Global Berdampak Pada Peningkatan Nilai Industri Kelapa Sawit Improvement in Global Economic Conditions Impacts on Value Increase of the Palm Oil Industry

Di tengah berbagai kesulitan yang dihadapi di Tahun 2018, industri sawit Indonesia tetap berjuang dan mengokohkan kuda-kudanya untuk bertahan serta berkembang. Industri yang menjadi mesin penghasil devisa terbesar Indonesia ini, menghadapi fluktuasi harga yang menurun, produksi yang melimpah dan berbagai tekanan negatif terhadap keberadaan industri kelapa sawit.

Eksport minyak sawit Indonesia secara keseluruhan (CPO dan produk turunannya, biodiesel dan oleochemical) membukukan kenaikan sebesar 8% atau dari 32,18 juta ton pada 2017 meningkat menjadi 34,71 juta ton di tahun 2018. Peningkatan yang paling signifikan secara persentase dicatatkan oleh biodiesel Indonesia yaitu sebesar 851% atau dari 164 ribu ton pada 2017 meroket menjadi 1,56 juta ton di tahun 2018. Peningkatan ekspor biodiesel tersebut disebabkan Indonesia memenangkan kasus tuduhan anti-dumping biodiesel oleh Uni Eropa di WTO.

Peningkatan ekspor juga diikuti oleh produk turunan CPO (*refine CPO* dan *laurif oil*) sebesar 7% atau dari 23,89 juta ton pada 2017 meningkat menjadi 25,46 juta ton di tahun 2018. Ekspor Olechmical juga mencatatkan kenaikan 16% atau dari 970 ribu ton pada 2017 meningkat menjadi 1,12 juta ton di tahun 2018. Sebaliknya, untuk produk CPO membukukan penurunan sebesar 8% atau dari 7,16 juta ton pada 2017 menurun menjadi 6,56 juta ton di 2018. Penurunan ekspor CPO menunjukkan bahwa Industri hilir sawit Indonesia terus berkembang, sehingga produk dengan nilai tambah/produk turunan lebih tinggi ekspor dibandingkan dengan minyak mentah sawit (CPO).

Sementara itu harga rata-rata CPO tahun 2018 tercatat US\$595,5/metric ton atau menurun 17% dibandingkan dengan harga rata-rata tahun 2017 yaitu US\$714,3/metric ton. Penurunan harga yang cukup signifikan ini disebabkan oleh beberapa faktor antara lain melimpahnya stok minyak nabati dunia termasuk minyak sawit di Indonesia dan Malaysia, perang dagang antara China dan Amerika Serikat, daya beli yang lemah karena perlambatan pertumbuhan ekonomi di beberapa negara tujuan ekspor dan beberapa regulasi negara tujuan ekspor juga turut andil dalam penurunan harga.

In the midst of the difficulties encountered throughout 2018, the Indonesian palm oil industry continues to struggle and strengthen itself to survive and thrive. The industry, as the largest foreign exchange earner in Indonesia, faces declining price fluctuations, abundant production, and various negative pressures on the existence of palm oil industry.

Overall, Indonesia's palm oil exports (CPO and its derivatives, biodiesel, and oleochemicals) recorded an increase of 8%, from 32.18 million tons in 2017 to 34.71 million tons in 2018. The most significant increase in percentage is recorded by Indonesian biodiesel, i.e. 851%, from 164 thousand tons in 2017 and skyrocketed to 1.56 million tons in 2018. The increase in biodiesel exports was because Indonesia won the case against European Union's anti-dumping biodiesel at the WTO.

The increase in exports was also followed by CPO derivative products (*refine CPO* and *laurif oil*) by 7%, from 23.89 million tons in 2017 to 25.46 million tons in 2018. Oleochemical exports also increased by 16%, from 970 thousand tons in 2017 to 1.12 million tons in 2018. On the contrary, CPO products decreased by 8%, from 7.16 million tons in 2017 to 6.56 million tons in 2018. The decline in CPO exports shows that Indonesia's downstream palm oil industry continues to grow, thus the products with added value (derivative products) attracted more exports than the crude palm oil (CPO).

Meanwhile, the average CPO price in 2018 was recorded at US\$595.5/metric ton, decreased by 17% compared to the average price in 2017, which was US\$714.3/metric ton. This significant price decline was caused by several factors, including the abundance of world vegetable oil stocks, which include palm oil in Indonesia and Malaysia, trade wars between China and the United States, weak purchasing power due to slowing economic growth in several export destination countries, and several state regulations from export destinations.

Rendahnya harga minyak sawit global ikut menggerus nilai devisa yang dihasilkan meskipun secara volume ekspor meningkat. Nilai sumbangan devisa minyak sawit Indonesia pada tahun 2018 diperkirakan mencapai US\$20,54 miliar atau menurun 11% dibandingkan dengan nilai devisa tahun 2017 yang mencapai US\$22,97 miliar.

Beralih kepada ekspor minyak sawit khusus CPO dan produk turunannya ke beberapa negara tujuan utama secara *year on year* (*yoY*) terjadi peningkatan khususnya China, Bangladesh, Pakistan, negara-negara Afrika dan Amerika Serikat. Tahun 2018, China membukukan peningkatan impor mencapai 4,41 juta ton atau naik 18% dibandingkan dengan tahun 2017 sebesar 3,73 juta ton. Peningkatan impor diikuti Bangladesh 16%, negara-negara Afrika 13%, Pakistan 12% dan Amerika Serikat 3%. Di sisi berlawanan, penurunan impor minyak sawit Indonesia dibukukan oleh India 12% (2018 - 7,63 juta ton ; 2017 - 6,71 juta ton), negara-negara Timur Tengah 9% (2018 - 1,94 juta ton ; 2017 - 2,12 juta ton) dan Uni Eropa 5% (2018 - 4,78 juta ton ; 5,03 juta ton).

Penyebab turunnya impor India di 2018 sebagai akibat dari kebijakan pemerintah India yang menaikkan bea masuk impor CPO 44% dan refined products 54% yang mulai berlaku sejak 1 Maret 2018. Pemberlakuan regulasi ini telah menyebabkan impor minyak Sawit India menurun tajam, khususnya di bulan April dan Mei. Keadaan mulai membaik setelah India mengalami perselisihan dagang dengan Amerika Serikat yang berujung pada India melaporkan kasus perselisihan dagang ke WTO dan menaikkan tarif bea masuk kedelai.

Beralih ke program biodiesel *mandatory* B20, kami mengapresiasi pemerintah yang mengambil langkah tepat dengan memberlakukan perluasan *mandatory* B20 kepada Non - PSO. Program ini cukup mendukung dalam penyerapan biodiesel di dalam negeri melalui program mandatori B20 mencapai 3,8 juta ton atau naik 72% dibandingkan dengan tahun lalu yang hanya mampu mencapai 2,22 juta ton. Kinerja penyerapan biodiesel ini menunjukkan bahwa program *mandatory* B20 berjalan dengan konsisten.

Sepanjang tahun 2018, perusahaan perkebunan sawit terus berbenah diri dan bersiaga dalam menjaga terjadinya kebakaran lahan. Hampir tidak ada kasus kebakaran di perkebunan kelapa sawit.

The low price of global palm oil has eroded the value of foreign exchange even though the volume of exports increased. In 2018, Indonesia's palm oil foreign exchange contributed to US\$20.54 billion, decreased by 11% compared to the value of foreign exchange in 2017, which reached US\$22.97 billion.

In terms of export of palm oil, specifically CPO and its derivatives, there has been an increase to several major destination countries, especially in China, Bangladesh, Pakistan, African countries, and the United States on the year on year (*yoY*). In 2018, China's imports increased by 18%, or 4.41 million tons, compared to 2017, which amounted to 3.73 million tons. The increase in imports was followed by Bangladesh of 16%, African countries of 13%, Pakistan of 12%, and the United States of 3%. On the contrary, the decline in Indonesia's palm oil imports was recorded by India of 12% (2018 - 7.63 million tons; 2017 - 6.71 million tons), Middle Eastern countries of 9% (2018 - 1.94 million tons; 2017 - 2.12 million tons), and the European Union of 5% (2018 - 4.78 million tons; 2017 - 5.03 million tons).

The decline in Indian imports in 2018 was a result of the Indian government's policy of increasing import duties on CPO by 44% and refined products by 54%, which was enacted on 1 March 2018. The enactment of this regulation has caused India's palm oil imports to decline sharply, especially in April and May. The situation improved after India experienced a trade dispute with the United States, that led to India reporting a case of trade disputes to the WTO and raising soybean import tariffs.

In terms of the mandatory B20 biodiesel program, we appreciate that government took the right step by implementing the expansion of mandatory B20 to Non-PSO. This program supports the absorption of biodiesel in the country through the mandatory B20 program, which achieved 3.8 million tons, increased by 72% compared to last year, which was 2.22 million tons. The biodiesel absorption performance shows that the mandatory B20 program is running consistently.

Throughout 2018, oil palm plantation companies continue to improve themselves and be prepared to prevent land fires. There are almost no cases of fire in oil palm plantations.

GAPKI dan perusahaan anggotanya terus meningkatkan upaya mencegah terjadinya kebakaran lahan dan hutan (karlahut) di sekitar konsesi dengan pembentukan Desa Siaga Api di berbagai daerah dengan berbagai nama. Pelatihan antisipasi dan mitigasi karlahut juga dilaksanakan di berbagai daerah. Kegiatan ini akan terus ditingkatkan dan dilanjutkan untuk ke depannya.

Di tahun 2018 sejumlah tantangan baik dalam dan luar negeri yang dihadapi industri sawit nasional adalah sebagai berikut:

1. Masih terdapat ketidakpastian hukum dalam keberlanjutan perkembangan industri sawit, antara lain karena regulasi yang kurang berpihak maupun "*conflicting regulation*";
2. Kondisi pasar global komoditi;
3. Hambatan perdagangan di sejumlah kawasan/negara tujuan ekspor;
4. Tekanan kampanye negatif yang makin gencar dan mengancam citra industri sawit;
5. Penguatan pasar domestik dan implementasi kebijakan biodiesel yang belum memuaskan.

IPOA and its member companies strive to increase efforts to prevent land and forest fires around the concession by establishing Desa Siaga Api (Fire Ready Village) in various regions under various names. Anticipatory training and mitigation of land and forest fires are also carried out in various regions. This activity will continue to be improved and continued in the future.

In 2018, the following are national and foreign challenges faced by the national palm oil industry:

1. There are still legal uncertainties in the sustainability of the palm oil industry development, partly because of lack of impartiality of regulations and "conflicting regulation";
2. Global commodity market conditions;
3. Trade barriers in various regions/export destination countries;
4. Negative campaign pressure that is increasingly intense and threatens the image of the palm oil industry;
5. Domestic market strengthening and unsatisfactory biodiesel policies implementation.

Kinerja Perusahaan Company's Performance

Aspek Keuangan

Jumlah Aset BPDPKS tahun 2018 adalah sebesar Rp20.971.433.886.205 meningkat 76,74% dibandingkan tahun 2017 sebesar Rp11.865.868.411.275. Peningkatan tersebut terutama disebabkan oleh tingginya pendapatan pungutan dan pengelolaan dana, serta berkurangnya selisih harga biodiesel yang menyebabkan beban biodiesel yang lebih kecil dari periode sebelumnya sehingga terjadi peningkatan aset yang signifikan.

Realisasi beban usaha BPDPKS tahun 2018 sebesar Rp6.337.213.701.284 menurun 42,11% dibandingkan tahun 2017 sebesar Rp(10.946.738.536.497). Penurunan tersebut terutama disebabkan oleh penurunan selisih harga biodiesel yang menyebabkan penurunan beban pembayaran selisih harga biodiesel. Sebagai badan pengelola dana, mekanisme pengelolaan dana pendapatan BPDPKS berasal dari Pendapatan operasional jasa layanan yang terdiri dari Pendapatan pungutan dana perkebunan kelapa sawit dan Pendapatan atas pengelolaan dana.

Financial Aspect

In 2018, OPPFMA's Total Assets amounted to Rp20,971,433,886,205, increased by 76.74% compared to 2017, which was Rp11,865,868,411,275. The increase was mainly due to high collection fees and fund management, as well as reduced biodiesel price differences which led to a smaller biodiesel liabilities compared to the previous period, resulting in a significant increase in assets.

Operating expenses of OPPFMA in 2018 amounted to Rp6,337,213,701,284, decreased by 42.11% compared to 2017, which was Rp(10,946,738,536,497). The decline was mainly due to a decrease in the price difference of biodiesel, which caused a decrease in the payment for biodiesel liabilities. As a fund management agency, the mechanism for fund management of OPPFMA's income is derived from Operating Income of services consisting of Income from fund collection of oil palm plantations and Income from fund management.

Pada tahun 2018 BPDPKS membukukan pendapatan sebesar Rp15.422.257.275.263 meningkat 4,33% dibandingkan tahun 2017 sebesar Rp14.782.736.571.602. Peningkatan pendapatan tersebut disebabkan oleh tingginya volume eksport yang menyebabkan kenaikan pendapatan pungutan dan serta dana pengelolaan yang semakin besar yang mengakibatkan meningkatnya pendapatan pengelolaan dana.

Strategi Usaha

Strategi Usaha

- BPDPKS melakukan analisis kondisi internal dan eksternal sebagai upaya mengidentifikasi tantangan yang dihadapi dalam melaksanakan pengelolaan Dana Perkebunan Kelapa Sawit (DPKS) dalam 5 tahun ke depan. Tantangan-tantangan tersebut terdiri dari:
- a) Memastikan terbitnya peraturan-peraturan sebagai landasan untuk memberikan layanan yang prima dalam rangka pencapaian visi dan misi;
 - b) Membangun komitmen dengan para pihak yang memiliki hubungan (termasuk semua pemangku kepentingan) dalam pemungutan biaya, pengalokasian, dan pengelolaan DPKS;
 - c) Menerapkan standar pelayanan yang terukur dengan memperhatikan profesionalisme pelaksanaan tugas dan fungsi;
 - d) Meningkatkan kualitas dan kuantitas sumber daya manusia serta mempersiapkan sistem pemberian *reward* dan *punishment* yang kewenangan dalam pengelolaan DPKS;
 - e) Mengembangkan kebijakan-kebijakan untuk memperkuat dan memperluas kewenangan dalam pengelolaan DPKS;
 - f) Meningkatkan koordinasi sinergi dan membangun kemitraan jangka panjang dengan para pemangku kepentingan dan badan pengelolaan dana sejenis; dan
 - g) Membangun sistem pelaksanaan tugas dan fungsi berbasiskan teknologi.

Strategi usaha BPDPKS dalam rangka menghadapi tantangan dan menangkap peluang pada industri kelapa sawit mengacu pada Rencana Strategis Kementerian Keuangan, Rencana Strategis Kementerian pertanian dan Rencana Strategis Kementerian Perindustrian yang disusun dalam Rencana Strategis Bisnis BPDPKS Tahun 2015-2019. Rencana Strategis BPPDPKS Tahun 2019 yaitu:

In 2018, OPPFMA recorded revenues of Rp15,422,257,275,263, an increase of 4.33% compared to 2017, which was Rp14,782,736,571,602. The increase in revenue was due to the high export volume which caused an increase in fund collection and fund management, resulting in increased fund management revenues.

OPPFMA analyzes the internal and external conditions as an effort to identify challenges faced in managing the Oil Palm Plantation Fund (DPKS) in the next 5 years. These challenges consist of:

- a) Ensuring the issuance of regulations as a basis for providing excellent service to achieve the vision and mission;
- b) Building commitments with parties involved (including all stakeholders) in the collection, allocation, and management of DPKS;
- c) Implementing measurable service standards by taking into account the professionalism in carrying out their duties and functions;
- d) Improving the quality and quantity of human resources and preparing a reward and punishment system under the authority of DPKS management;
- e) Developing policies to strengthen and expand authority in managing DPKS;
- f) Improving synergies and building long-term partnerships with stakeholders and similar fund management bodies; and
- g) Establishing systems for implementing tasks and functions based on technology.

In order to face challenges and seize opportunities in the palm oil industry, OPPFMA's business strategy refers to the Ministry of Finance's Strategic Plan, the Ministry of Agriculture's Strategic Plan, and the Ministry of Industry's Strategic Plan, formulated in the 2015-2019 OPPFMA's Strategic Business Plan. OPPFMA's 2019 Strategic Business Plans are:

Analisis Prospek Usaha

Analysis on Business Prospects

Prospek perekonomian domestik 2019 akan tetap kuat ditandai dengan pertumbuhan ekonomi yang lebih baik dan stabilitas yang terjaga ditengah kondisi perekonomian global yang belum kondusif,. Pertumbuhan ekonomi Indonesia pada 2019 diprakirakan tetap solid pada kisaran 5,0% - 5,4% ditunjang oleh permintaan domestik yang tetap kuat, baik konsumsi maupun investasi. Sementara itu, kinerja ekspor neto belum banyak dapat menopang peningkatan pertumbuhan ekonomi 2019 sejalan dengan pertumbuhan perekonomian dunia yang melandai.

Konsumsi swasta diperkirakan tumbuh kuat, sehingga dapat menopang pertumbuhan ekonomi 2019. Konsumsi swasta diprakirakan tumbuh dalam kisaran 5,2% - 5,6% pada 2019 dipengaruhi tingginya konsumsi rumah tangga dan konsumsi lembaga nonprofit yang melayani rumah tangga (LNPRT).

In 2019, the domestic economy is projected to remain strong, which shall be marked by better and more stable economic growth amidst the not conducive global economy conditions. Indonesia's economic growth in 2019 is predicted to remain solid at 5.0% - 5.4%, supported by strong domestic demand, both consumption and investment. Meanwhile, the net export performance was unable to sustain an increase in economic growth in 2019, in line with sluggish world economic growth.

Private consumption is expected to grow strongly, to sustain economic growth in 2019. Private consumption is predicted to grow 5.2% - 5.6% in 2019 due to high household consumption and consumption of nonprofit institutions serving households (LNPRT).

Pertumbuhan konsumsi rumah tangga diperkirakan tetap kuat didukung daya beli masyarakat yang terjaga, seiring dengan pendapatan yang membaik disertai inflasi yang rendah, serta dampak positif dari penyelenggaraan pemilihan umum (Pemilu).

Peran stimulus fiskal pemerintah baik melalui bantuan sosial maupun instrumen fiskal lainnya juga berperan menopang kinerja konsumsi rumah tangga. Kinerja konsumsi swasta juga bersumber dari peningkatan kinerja konsumsi LNPRT sebagai dampak positif dari pengeluaran terkait penyelenggaraan Pemilu 2019.

Growth in household consumption is expected to remain strong, supported by maintained public' purchasing power, in line with improved income accompanied by low inflation, as well as the positive impact of General Election (Pemilu).

The government fiscal stimulus through social assistance and other fiscal instruments plays a role in sustaining the performance of household consumption. The private consumption performance is also influenced by an increase in LNPRT consumption performance as a positive impact of expenditure related to the 2019 General Election.

Perkembangan Penerapan GG Good Governance Improvement

Dalam rangka memperkuat implementasi Tata Kelola Organisasi yang Baik (GG), kami senantiasa melaksanakan perencanaan yang terukur dan tertuang dalam dokumen Pola Tata Kelola serta melakukan kegiatan evaluasi untuk menilai sejauh mana efektivitas penyelenggaraan GCG di lingkungan BLU BPDPKS serta hal-hal yang menjadi perhatian utama. Di sepanjang tahun 2018, BLU BPDPKS telah menunjukkan perkembangan implementasi GCG ke arah yang membanggakan dibandingkan dengan tahun 2017. Kami telah melakukan perbaikan di beberapa *critical area* berdasarkan hasil evaluasi kinerja tahun 2017 yang ditetapkan oleh Direktorat Jenderal Perbendaharaan Kementerian Keuangan. Perbaikan atas beberapa area penting dilakukan dengan meningkatkan kualitas kebijakan dan prosedur kerja, tingkat kepatuhan SDM terhadap prosedur kerja, serta pengawasan yang dilakukan secara berjenjang.

In order to strengthen the Good Corporate Governance (GCG), we always carry out plans that are assessed and stipulated in the Governance Pattern document, and conduct evaluation to assess the effectiveness of GCG implementation within the OPPFMA Public Service Agency and other key matters. Throughout 2018, OPPFMA Public Service Agency has shown improvement in the progress of GCG implementation compared to 2017. We have made improvements in several critical areas based on the results of the 2017 performance evaluation, determined by the Directorate General of Treasury, Ministry of Finance. Several important areas were developed by improving the quality of work policies and procedures, the level of HR compliance with work procedures, as well as gradual monitoring.

Perubahan Komposisi Direksi Change in Board of Directors' Composition

Komposisi Direksi BPDPKS mengalami perubahan mengalami perubahan, semula jumlah Direksi berjumlah 6 (enam) orang, namun pada Juli 2018 Sdr. Agustinus Antonius yang menjabat Direktur Perencanaan dan Pengelolaan Dana mengundurkan diri. Sehingga komposisi Direksi sampai 31 Desember 2018 adalah sebagai berikut:

Jajaran Direksi tersebut diharapkan dapat terus meningkatkan kinerja BPDPKS secara berkelanjutan terutama dalam mendukung program pemerintah. Kami terus berkomitmen untuk melaksanaan peran, tugas dan tanggung jawab secara independen, akuntabel serta meningkatkan soliditas internal agar dapat meningkatkan capaian kinerja yang lebih besar dan lebih bernilai. Lebih dari itu, memberikan yang terbaik adalah komitmen kami kepada segenap pemangku kepentingan.

The Board of Directors is expected to improve the OPPFMA's performance continuously, especially in supporting government programs. We continue to be committed to carrying out roles, duties, and responsibilities in an independent, accountable manner, and to increasing internal solidity to improve the achievement of greater and more valuable performance. Further, we are committed to providing the best to all stakeholders.

Apresiasi Appreciation

Kami mewakili seluruh anggota Direksi, menyampaikan apresiasi sebesar besarnya dan ucapan terima kasih kepada Komite Pengarah selaku pemberi kebijakan atas operasional pelaksanaan pengelolaan dana perkebunan kelapa sawit, atas kepercayaan, arahan, dan saran dalam rangka peningkatan kualitas kinerja kami baik di tahun anggaran 2018 maupun untuk tahun-tahun yang akan datang. Ucapan terima kasih juga kami sampaikan kepada seluruh jajaran Dewan Pengawas atas arahan dan nasehat yang diberikan sehingga Direksi mampu mengelola dan mencapai target sesuai strategi bisnis yang telah ditetapkan.

We, on behalf of all members of the Board of Directors, express our appreciation and gratitude to the Steering Committee as the policy provider for the operational implementation of the management of palm oil plantations, for their trust, direction, and advice to improve the quality of our performance in the 2018 fiscal year and future years. We would also like to express our gratitude to the entire Supervisory Board for the direction and advice provided. Hence, the Board of Directors is able to manage and achieve targets in accordance with the established business strategy.

6. Peraturan Presiden Nomor 66 Tahun 2018 tanggal 15 Agustus 2018 Tentang Perubahan Atas Peraturan Presiden Nomor 61 Tahun 2015 Tentang Penghimpunan dan Penggunaan Dana Perkebunan Kelapa Sawit.

Pendapatan BPDPKS akan dicatat dalam APBN melalui prosedur pengesahan pada akhir periode pelaporan. Dengan demikian pendapatan BPDPKS diakui sebagai pendapatan negara pada saat pengesahan pendapatan tersebut. Sementara untuk pendapatan yang digunakan untuk biaya operasional BPDPKS akan masuk ke realisasi APBN pada saat yang sama dengan pengesahan pendapatan. BPDPKS hanya melaporkan pendapatan tersebut ke Direktorat Jenderal Perbendaharaan dan Biro Perencanaan Keuangan Kementerian Keuangan.

On 10 June 2015, OPPFMA was established as a government agency that implements BLU financial pattern through Minister of Finance's Decree No. 113/PMK.01/2015 on the Establishment of OPPFMA at the Ministry of Finance as a Government Agency Implementing Public Service Agency Financial Management.

The legal basis of the establishment of OPPFMA is as follow:

1. Law No. 17 of 2003 dated 5 April 2003 on the State Finance;
2. Law No. 39 of 2014 dated 17 October 2014 on Plantation;
3. Law No. 24 of 2015 dated 25 May 2015 on Plantation Fund Collection;
4. Presidential Regulation No. 61 of 2015 dated 25 May 2015 on Palm Oil Fund Collection and Utilization;
5. Presidential Regulation No. 24 of 2016 dated 15 March 2016 on the Amendment to the Presidential Regulation No. 61 of 2015 on the Palm Oil Fund Collection and Utilization.
6. Presidential Regulation No. 66 of 2018 dated 15 August 2018 on the Amendment to the Presidential Regulation No. 61 of 2015 on the Palm Oil Fund Collection and Utilization.

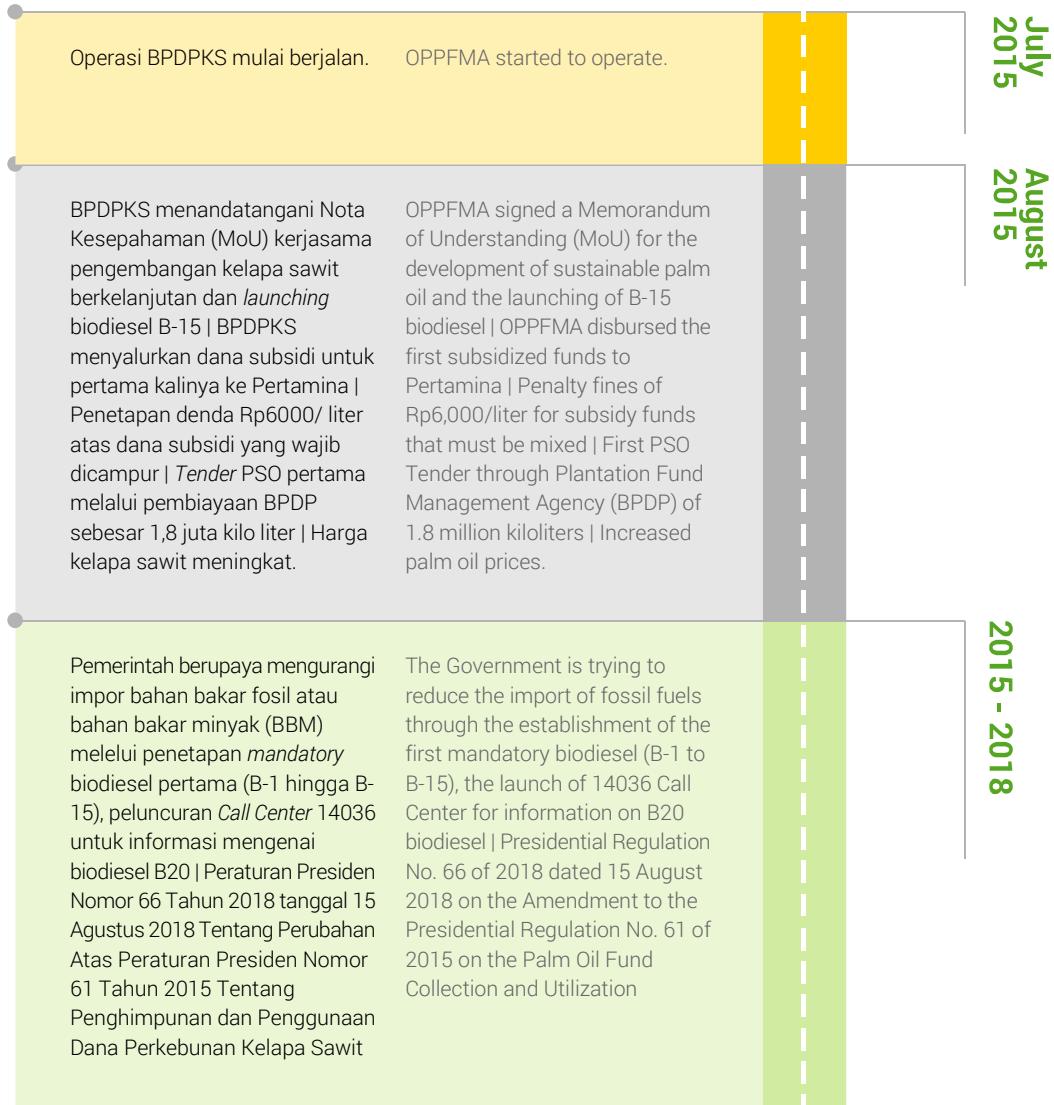

OPPFMA revenues will be recorded in the State Budget through the ratification procedure at the end of the reporting period. Accordingly, OPPFMA revenues are recognized as state revenues at the time of the ratification of such revenues. Revenues that are utilized for OPPFMA's operational cost will be recorded at State Budget's realization on the ratification of revenues. OPPFMA reports the income to the Directorate General of Treasury and the Ministry of Finance's Financial Planning Bureau.

Kesempatan yang Sama kepada Pegawai Equal Opportunities to Employees

BPDPKS senantiasa berkomitmen untuk menjunjung kesetaraan dalam menyeleksi sumber daya manusia dengan memberikan kesempatan yang sama kepada para pelamar untuk menjadi calon pegawai yang profesional tanpa membedakan suku, agama, ras, golongan, gender atau kondisi fisik mulai dari penerimaan pegawai, melaksanakan tugasnya secara profesional, dan memperoleh kompensasi. BPDPKS menjamin tidak terjadinya diskriminasi sehingga tercipta perlakuan yang adil dan jujur dalam mendorong pegawai sesuai dengan potensi, kemampuan, pengalaman dan keterampilan masing-masing untuk mencapai kinerja *excellence*. Dengan demikian BPDPKS berupaya melakukan proses pengelolaan SDM berdasarkan faktor kemampuan (*competency*) dan kinerja (*performance*) yang sejalan dengan aspek *fairness*.

OPPFMA is always committed to upholding equality in selecting human resources by providing equal opportunities to applicants to become professional candidates for employees regardless of ethnicity, religion, race, class, gender, or physical conditions, during recruitment, carrying out their duties professionally, and obtaining compensation. OPPFMA guarantees no discrimination to ensure fair and honest treatment to encourage employees in accordance with their potential, abilities, experience, and skills to achieve performance excellence. Thus, OPPFMA seeks to process HR management based on competency and performance that are in line with the fairness aspect.

Proses Rekrutmen Yang Berkualitas Quality Recruitment Process

Rekrutmen merupakan proses mendapatkan SDM terbaik sesuai dengan Rencana Jangka Pendek maupun Rencana Jangka Panjang Perusahaan. Perekutan yang dilakukan bersifat terbuka dan menjunjung tinggi profesionalisme yang dilakukan berdasarkan analisa kebutuhan pegawai. BPDPKS membuka kesempatan yang sama bagi semua kandidat tanpa membedakan suku, agama, ras maupun gender selama memenuhi persyaratan yang telah ditetapkan.

Recruitment is the process of obtaining the best human resources in accordance with the Company's Short-Term Plan and Long-Term Plan. Recruitment is open and upholds professionalism based on employee needs analysis. OPPFMA provides equal opportunities for all candidates without differentiating ethnicity, religion, race, or gender, as long as they meet the set forth requirements.

Sistem Manajemen Kinerja BPDPKS OPPFMA Performance Management System

Pengukuran kinerja di BPDPKS dilaksanakan berdasarkan prinsip obyektivitas dan keadilan. Sistem penilaian yang dibangun mampu menjadi pembeda antara pegawai berkinerja tinggi dengan pegawai berkinerja rendah. Penilaian kinerja mengukur pencapaian pekerja terhadap target individu yang merupakan turunan dari sasaran/target BPDPKS. Target individu pekerja ditetapkan dan disepakati bersama atasan di awal tahun, sebagai turunan dari target/sasaran atasannya dan sejalan dengan *Key Performance Indicator* (KPI) Direktorat.

Pelatihan dan Pengembangan Kompetensi Competency Development and Training

BPDPKS telah memiliki program pengembangan kompetensi yang terencana, sistematis dan terfokus sesuai perkembangan bisnis perusahaan. Salah satu program pengembangan kompetensi utama yang telah dilaksanakan secara konsisten adalah Program Pendidikan dan Pelatihan (Diklat) yang mendukung proses pemeliharaan dan peningkatan kualitas SDM. Setiap pegawai BPDPKS dituntut untuk memiliki kompetensi yang baik sesuai dengan kebutuhan posisi jabatannya.

In OPPFMMA, performance is measured based on the principles of objectivity and fairness. The appraisal system that was enforced was able to be a differentiator between high-performance employees and low-performance employees. Performance appraisal measures the achievement of employees' targets that are derived from OPPFMA's objectives/targets. Individual targets for the employee are set and agreed with the supervisor at the beginning of the year, as a derivative of the objectives/targets of the supervisor, and in line with the Directorate's Key Performance Indicator (KPI).

OPPFMA has a planned, systematic, and focused competency development in accordance with the company's business development. One of the main competency development programs that have been implemented consistently is the Education and Training Program (Diklat) that supports the process of maintaining and improving the quality of human resources. Each OPPFMA's employee is required to have good competence in accordance with the requirements of the position.

Analisa Pembahasan Kinerja Operasional dan Keuangan **Analysis of Discussion on Operational and Financial Performance**

Pendapatan BPDPKS dari hasil pengelolaan dana sampai dengan 31 Desember 2018 tercatat sebesar Rp1.047 miliar atau lebih besar 107% dibandingkan dengan periode sama tahun sebelumnya sebesar Rp505 miliar.

OPPFMA of income recorded Rp1,047 billion fund management up to 31 December 2018, or 107% higher compared to the same period in the previous year of Rp505 billion.

Tinjauan Ekonomi Nasional

National Economic Review

Pertumbuhan Ekonomi Economic Growth

Pertumbuhan ekonomi 2018 tercatat 5,17%, meningkat dibandingkan dengan pertumbuhan tahun sebelumnya sebesar 5,07% dan merupakan pertumbuhan tertinggi sejak 2013. Secara umum, kinerja tersebut menunjukkan perekonomian Indonesia tetap solid, mengingat pada saat bersamaan pertumbuhan ekonomi dunia 2018 dalam tren melambat dan ketidakpastian global sedang meningkat.

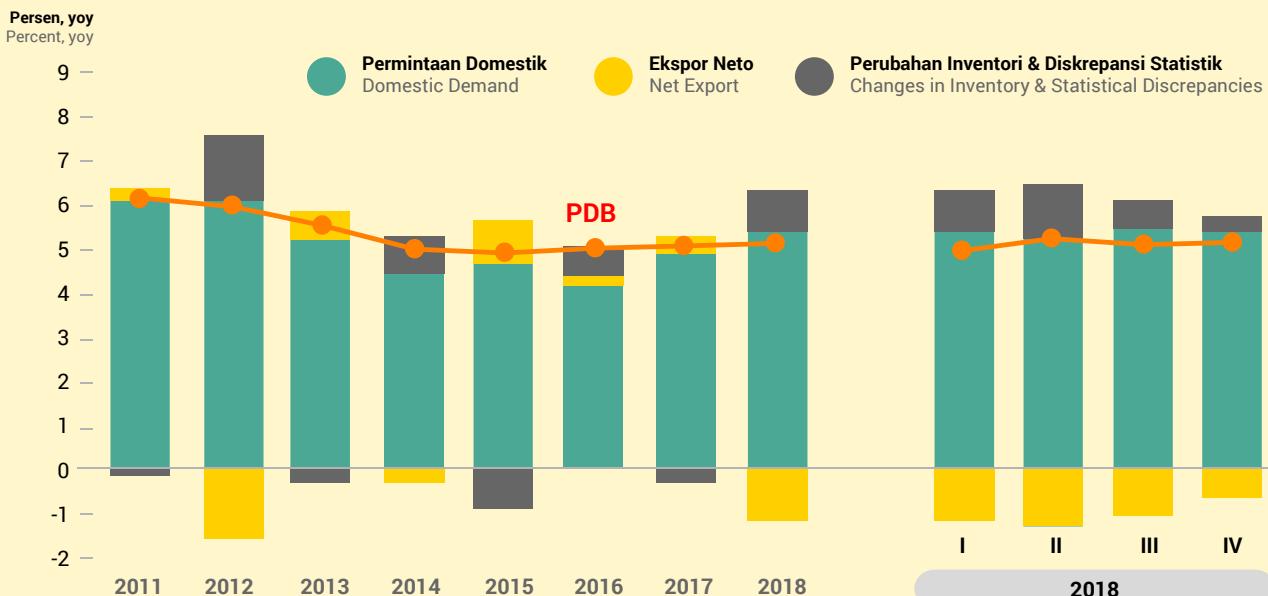

In 2018, the economic growth was recorded at 5.17%, an increase compared to the previous year's growth of 5.07%. This was the highest growth since 2013. In general, this shows that the Indonesian economy remains solid, taking into account that at the same time, the world economic growth is slowing down, and global uncertainties are on the rise.

Peningkatan pertumbuhan ekonomi 2018 tidak terlepas dari dampak positif bauran kebijakan yang diambil oleh Bank Indonesia dan Pemerintah dalam merespons ketidakpastian global. Pertumbuhan ekonomi Indonesia yang meningkat pada 2018 banyak ditopang oleh permintaan domestik. Pertumbuhan konsumsi dan investasi meningkat didukung pendapatan yang membaik, keberlanjutan pembangunan proyek infrastruktur, serta daya beli yang terjaga sejalan dengan tekanan inflasi yang rendah.

Beberapa kegiatan lain juga memengaruhi pengeluaran penyelenggaraan pemilihan kepala daerah (Pilkada), kegiatan berskala internasional, seperti di Asian Games dan pertemuan tahunan International Monetary Fund-World Bank (IMF-WB) dan aktivitas persiapan pemilihan umum (Pemilu). Sementara itu, peran ekspor neto menurun dipengaruhi kinerja ekspor yang melambat seiring pertumbuhan ekonomi dunia yang melambat, di tengah impor yang tumbuh tinggi sejalan dengan kenaikan permintaan domestik.

The increase in economic growth in 2018 is inseparable from the positive impact of the policy mix adopted by Bank Indonesia and the Government in responding to global uncertainty. Indonesia's economic growth increase in 2018 was largely supported by domestic demand. Growth in consumption and investment increased, supported by improved income, the continued development of infrastructure projects, and maintained purchasing power in line with low inflationary pressures.

Several activities also influenced the expenditure, i.e. regional head elections (Pilkada), international scale activities, such as the Asian Games the annual meeting of the International Monetary Fund-World Bank (IMF-WB), and preparatory activities for General Elections. Meanwhile, the net exports declined due to slowing export performance, in line with slowing world economic growth, amidst high growth in imports, which is in accordance with rising domestic demand.

Inflasi Inflation

Inflasi pada 2018 tetap rendah terkendali dalam rentang sasaran $3,5\pm1\%$, meskipun pada saat bersamaan Rupiah mengalami depresiasi. Inflasi IHK pada akhir 2018 tercatat $3,13\%$, sehingga membuat inflasi berada dalam kisaran sasaran dalam 4 tahun berturut-turut. Inflasi 2018 tercatat rendah, baik bila dibandingkan dengan capaian inflasi tahun 2017 ($3,61\%$) maupun dengan rerata historis empat tahun terakhir ($4,59\%$).

In 2018, the inflation remains low, within the target range of $3.5\pm1\%$ even though at the same time, Rupiah is depreciating. CPI inflation at the end of 2018 was recorded at 3.13% , thus the inflation is within the target range for 4 consecutive years. 2018 inflation was recorded low, both when compared with inflation in 2017 (3.61%), and with the historical average of the last four years (4.59%).

Nilai Tukar Mata Uang Currency Exchange Rates

Nilai tukar Rupiah pada 2018 secara rerata melemah 6,05% (yoy) ke level Rp14.246/dolar AS dari Rp13.385/dolar AS pada 2017. Secara *point-to-point* (ptp), nilai tukar Rupiah melemah 5,65% dan ditutup di level Rp14.380/dolar AS pada akhir 2018. Namun demikian, pelemahan Rupiah tersebut masih lebih rendah dibandingkan dengan depreciasi mata uang negara lain seperti rupee India, rand Afrika Selatan, real Brazil, dan lira Turki.

The Rupiah exchange rate in 2018 weakened by 6.05% (YoY) to Rp14,246/US Dollar, from Rp13,385/US Dollar in 2017. Point-to-point (ptp), the Rupiah exchange rate weakened 5.65%, and closed at Rp14,380/US Dollar at the end of 2018. However, the Rupiah weakening is still lower than the depreciation of currencies of other countries, such as Indian rupees, South African rand, Brazilian real, and Turkish lira.

Sekilas Industri Crude Palm Oil (CPO) Crude Palm Oil (CPO) Industry at a Glance

Di tengah berbagai kesulitan yang dihadapi di Tahun 2018, industri sawit Indonesia tetap berjuang dan mengokohkan kuda-kudanya untuk bertahan serta berkembang. Industri yang menjadi mesin penghasil devisa terbesar Indonesia ini, menghadapi fluktuasi harga yang menurun, produksi yang melimpah dan berbagai tekanan negatif terhadap keberadaan industri kelapa sawit.

In the midst of the difficulties encountered throughout 2018, the Indonesian palm oil industry continues to struggle and strengthen itself to survive and thrive. The industry, as the largest foreign exchange earner in Indonesia, faces declining price fluctuations, abundant production, and various negative pressures on the existence of the palm oil industry.

Ekspor minyak sawit Indonesia secara keseluruhan (CPO dan produk turunannya, biodiesel dan oleochemical) membukukan kenaikan sebesar 8% atau dari 32,18 juta ton pada 2017 meningkat menjadi 34,71 juta ton di tahun 2018. Peningkatan yang paling signifikan secara persentase dicatatkan oleh biodiesel Indonesia yaitu sebesar 851% atau dari 164 ribu ton pada 2017 meroket menjadi 1,56 juta ton di tahun 2018. Peningkatan ekspor biodiesel tersebut disebabkan Indonesia memenangkan kasus tuduhan *anti-dumping* biodiesel oleh Uni Eropa di WTO.

Peningkatan ekspor juga diikuti oleh produk turunan CPO (refine CPO dan laurif oil) sebesar 7% atau dari 23,89 juta ton pada 2017 meningkat menjadi 25,46 juta ton di tahun 2018. Ekspor Olechmical juga mencatatkan kenaikan 16% atau dari 970 ribu ton pada 2017 meningkat menjadi 1,12 juta ton di tahun 2018. Sebaliknya, untuk produk CPO membukukan penurunan sebesar 8% atau dari 7,16 juta ton pada 2017 menurun menjadi 6,56 juta ton di 2018. Penurunan ekspor CPO menunjukkan bahwa Industri hilir sawit Indonesia terus berkembang, sehingga produk dengan nilai tambah/produk turunan lebih tinggi ekspor dibandingkan dengan minyak mentah sawit (CPO).

Sementara itu harga rata-rata CPO tahun 2018 tercatat US\$595,5/metric ton atau menurun 17% dibandingkan dengan harga rata-rata tahun 2017 yaitu US\$714,3/metric ton. Penurunan harga yang cukup signifikan ini disebabkan oleh beberapa faktor antara lain melimpahnya stok minyak nabati dunia termasuk minyak sawit di Indonesia dan Malaysia, perang dagang antara China dan Amerika Serikat, daya beli yang lemah karena perlambatan pertumbuhan ekonomi di beberapa negara tujuan ekspor dan beberapa regulasi negara tujuan ekspor juga turut andil dalam penurunan harga.

Rendahnya harga minyak sawit global ikut menggerus nilai devisa yang dihasilkan meskipun secara volume ekspor meningkat. Nilai sumbangsih devisa minyak sawit Indonesia pada tahun 2018 diperkirakan mencapai US\$20,54 miliar atau menurun 11% dibandingkan dengan nilai devisa tahun 2017 yang mencapai US\$22,97 miliar.

Overall, Indonesia's palm oil exports (CPO and its derivatives, biodiesel, and oleochemicals) recorded an increase of 8%, from 32.18 million tons in 2017 to 34.71 million tons in 2018. The most significant increase in percentage is recorded by Indonesian biodiesel, i.e. 851%, from 164 thousand tons in 2017 and skyrocketed to 1.56 million tons in 2018. The increase in biodiesel exports was because Indonesia won the case against the European Union's anti-dumping biodiesel at the WTO.

The increase in exports was also followed by CPO derivative products (refine CPO and laurif oil) by 7%, from 23.89 million tons in 2017 to 25.46 million tons in 2018. Oleochemical exports also increased by 16%, from 970 thousand tons in 2017 to 1.12 million tons in 2018. On the contrary, CPO products decreased by 8%, from 7.16 million tons in 2017 to 6.56 million tons in 2018. The decline in CPO exports shows that Indonesia's downstream palm oil industry continues to grow, thus the products with added value (derivative products) attracted more exports than the crude palm oil (CPO).

Meanwhile, the average CPO price in 2018 was recorded at US\$595.5/metric ton, which decreased by 17% compared to the average price in 2017, which was US\$714.3/metric ton. This significant price decline was caused by several factors, including the abundance of world vegetable oil stocks, which include palm oil in Indonesia and Malaysia, trade wars between China and the United States, weak purchasing power due to slowing economic growth in several export destination countries, and several state regulations from export destinations.

The low price of global palm oil has eroded the value of foreign exchange even though the volume of exports increased. In 2018, Indonesia's palm oil foreign exchange contributed to US\$20.54 billion, which decreased by 11% compared to the value of foreign exchange in 2017, which reached US\$22.97 billion.

Sepanjang tahun 2018, perusahaan perkebunan sawit terus berbenah diri dan bersiaga dalam menjaga terjadinya kebakaran lahan. Hampir tidak ada kasus kebakaran di perkebunan kelapa sawit.

Sepanjang tahun 2018, perusahaan perkebunan sawit terus berbenah diri dan bersiaga dalam menjaga terjadinya kebakaran lahan. Hampir tidak ada kasus kebakaran di perkebunan kelapa sawit.

Beralih kepada ekspor minyak sawit khusus CPO dan produk turunannya ke beberapa negara tujuan utama secara *year on year* (yoY) terjadi peningkatan khususnya China, Bangladesh, Pakistan, negara-negara Afrika dan Amerika Serikat. Tahun 2018, China membukukan peningkatan impor mencapai 4,41 juta ton atau naik 18% dibandingkan dengan tahun 2017 sebesar 3,73 juta ton. Peningkatan impor diikuti Bangladesh 16%, negara-negara Afrika 13%, Pakistan 12% dan Amerika Serikat 3%. Di sisi berlawanan, penurunan impor minyak sawit Indonesia dibukukan oleh India 12% (2018 - 7,63 juta ton ; 2017 - 6,71 juta ton), negara-negara Timur Tengah 9% (2018 - 1,94 juta ton ; 2017 - 2,12 juta ton) dan Uni Eropa 5% (2018 - 4,78 juta ton ; 5,03 juta ton).

Penyebab turunnya impor India di 2018 sebagai akibat dari kebijakan pemerintah India yang menaikkan bea masuk impor CPO 44% dan *refined products* 54% yang mulai berlaku sejak 1 Maret 2018. Pemberlakuan regulasi ini telah menyebabkan impor minyak Sawit India menurun tajam, khususnya di bulan April dan Mei. Keadaan mulai membaik setelah India mengalami perselisihan dagang dengan Amerika Serikat yang berujung pada India melaporkan kasus perselisihan dagang ke WTO dan menaikkan tarif bea masuk kedelai.

In terms of export of palm oil, specifically CPO and its derivatives, there has been an increase to several major destination countries, especially in China, Bangladesh, Pakistan, African countries, and the United States on the year on year (YoY). In 2018, China's imports increased by 18%, or 4.41 million tons, compared to 2017, which amounted to 3.73 million tons. The increase in imports was followed by Bangladesh of 16%, African countries of 13%, Pakistan of 12%, and the United States of 3%. On the contrary, the decline in Indonesia's palm oil imports was recorded by India of 12% (2018 - 7.63 million tons; 2017 - 6.71 million tons), Middle Eastern countries of 9% (2018 - 1.94 million tons; 2017 - 2.12 million tons), and the European Union of 5% (2018 - 4.78 million tons; 2017 - 5.03 million tons).

The decline in Indian imports in 2018 was a result of the Indian government's policy of increasing import duties on CPO by 44% and refined products by 54%, which was enacted on 1 March 2018. The enactment of this regulation has caused India's palm oil imports to decline sharply, especially in April and May. The situation improved after India experienced a trade dispute with the United States, which led to India reporting a case of trade disputes to the WTO and raising soybean import tariffs.

Beralih ke program biodiesel *mandatory* B20, kami mengapresiasi pemerintah yang mengambil langkah tepat dengan memberlakukan perluasan *mandatory* B20 kepada Non - PSO. Program ini cukup mendukung dalam penyerapan biodiesel di dalam negeri melalui program mandatori B20 mencapai 3,8 juta ton atau naik 72% dibandingkan dengan tahun lalu yang hanya mampu mencapai 2,22 juta ton. Kinerja penyerapan biodiesel ini menunjukkan bahwa program *mandatory* B20 berjalan dengan konsisten.

Sepanjang tahun 2018, perusahaan perkebunan sawit terus berbenah diri dan bersiaga dalam menjaga terjadinya kebakaran lahan. Hampir tidak ada kasus kebakaran di perkebunan kelapa sawit. GAPKI dan perusahaan anggotanya terus meningkatkan upaya mencegah terjadinya kebakaran lahan dan hutan (karlahut) di sekitar konsesi dengan pembentukan Desa Siaga Api di berbagai daerah dengan berbagai nama. Pelatihan antisipasi dan mitigasi karlahut juga dilaksanakan di berbagai daerah. Kegiatan ini akan terus ditingkatkan dan dilanjutkan untuk ke depannya.

Di tahun 2018 sejumlah tantangan baik dalam dan luar negeri yang dihadapi industri sawit nasional adalah sebagai berikut:

1. Masih terdapat ketidakpastian hukum dalam keberlanjutan perkembangan industri sawit, antara lain karena regulasi yang kurang berpihak maupun "*conflicting regulation*";
2. Kondisi pasar global komoditi;
3. Hambatan perdagangan di sejumlah kawasan/negara tujuan ekspor;
4. Tekanan kampanye negatif yang makin gencar dan mengancam citra industri sawit;
5. Penguatan pasar domestik dan implementasi kebijakan biodiesel yang belum memuaskan.

In terms of the mandatory B20 biodiesel program, we appreciate that the government took the right step by implementing the expansion of mandatory B20 to Non-PSO. This program supports the absorption of biodiesel in the country through the mandatory B20 program, which achieved 3.8 million tons, increased by 72% compared to last year, which was 2.22 million tons. The biodiesel absorption performance shows that the mandatory B20 program is running consistently.

Throughout 2018, oil palm plantation companies continue to improve themselves and be prepared to prevent land fires. There are almost no cases of fire in oil palm plantations. IPOA and its member companies strive to increase efforts to prevent land and forest fires around the concession by establishing DesaSiagaApi (Fire Ready Village) in various regions under various names. Anticipatory training and mitigation of land and forest fires are also carried out in various regions. This activity will continue to be improved and continued in the future.

In 2018, the following are national and foreign challenges faced by the national palm oil industry:

1. There are still legal uncertainties in the sustainability of the palm oil industry development, partly because of lack of impartiality of regulations and "conflicting regulation";
2. Global commodity market conditions;
3. Trade barriers in various regions/export destination countries;
4. Negative campaign pressure that is increasingly intense and threatens the image of the palm oil industry;
5. Domestic market strengthening and unsatisfactory biodiesel policy implementation.

Dampak Penerbitan dan Perubahan Regulasi terhadap Kinerja BPDPKS Impact of Regulatory Issuance and Changes on OPPFMA's Performance

BPDPKS terus berkomitmen dalam menjalankan setiap peraturan perundang-undangan yang diterbitkan oleh regulator. Selama tahun 2018, terdapat penerbitan baru dan perubahan peraturan sebagaimana dalam tabel berikut:

Kontribusi BPDPKS kepada Negara OPPFMA Contribution to the State

Kontribusi pada Industri Sawit Kelapa Sawit Contribution to the Palm Oil Industry

Kontribusi utama BPDPKS dalam industri kelapa sawit tercermin pada kegiatan operasional yaitu meningkatkan harga, memperkuat industri hilir dan membangun komoditas kelapa sawit yang berkelanjutan.

OPPFMA's main contribution to the palm oil industry is reflected in operational activities, by increasing prices, strengthening downstream industries, and building sustainable palm oil commodities.

Pada tahun 2018, BPDPKS telah melaksanakan kegiatan-kegiatan dalam upaya meningkatkan kontribusi dalam dalam industri kelapa sawit di Indonesia. Kegiatan yang telah dilaksanakan, antara lain:

1. *Replanting* perkebunan kelapa sawit milik petani seluas 185.000 ha.
2. Menyelenggarakan Pekan Riset Sawit Indonesia (PERISAI) 2018 dengan tema "Inovasi Teknologi Mendukung Sawit Indonesia Berkelanjutan" di Bandung, Jawa Barat.
3. Menyelenggarakan Program Lomba Riset Sawit Tingkat Mahasiswa 2018.
4. Menyelenggarakan Program Grant Riset Sawit 2018 Tingkat Nasional untuk semua kalangan masyarakat.

In 2018, OPPFMA has carried out activities in an effort to increase contributions in the palm oil industry in Indonesia. The activities conducted are:

1. Replantation of palm oil plantations owned by farmers, covering an area of 185,000 ha.
2. Organized the 2018 Indonesian Palm Research Week (PERISAI) with the theme "Technology Innovation Supporting Indonesia's Sustainable Palm Oil" in Bandung, West Java.
3. Held the 2018 Palm Oil Research Competition Program for College Students.
4. Held the 2018 National Palm Research Grant Program for all members of the community.

5. Melakukan riset, pengembangan dan uji coba pemanfaatan bioavtur sebagai bahan bakar alternatif bagi armada pesawat komersial.
6. Menjadi salah satu bagian dari Tim Negosiasi yang dikirimkan Pemerintah Indonesia dalam Perundingan Pembatasan Penggunaan Produk Turunan Kelapa Sawit ke markas Uni Eropa di Brussel, Belgia.
7. Bekerjasama dengan Kementerian Luar Negeri dan Universitas Jambi menyelenggarakan *Executive Oil Palm Program for Ambassadors* di Jambi.
8. Melaksanakan program peremajaan perkebunan kelapa sawit rakyat tahap III di Kabupaten Rokan Hilir, Riau.
9. Menandatangani perjanjian dengan Badan Usaha Bahan Akar Nabati (BU BBN) dalam rangka pembiayaan pengadaan Bahan Bakar Nabati jenis biodiesel untuk periode Mei-Oktober 2018.
10. Bekerjasama dengan Kementerian Luar Negeri menyelenggarakan pembekalan bagi peserta sekolah, staf dan pemimpin dinas luar negeri (Sesparlu) Kementerian Luar Negeri RI.
11. Mengirimkan perwakilan untuk menghadiri konferensi bertema "Pengentasan Kemiskinan Melalui Industri Pertanian dan Perkebunan untuk Memperkuat Perdamaian dan Kemanusiaan" di Roma, Italia.
12. Menyelenggarakan pertemuan dengan semua pemangku kepentingan di industri kelapa sawit nasional dalam kegiatan *Stakeholders Gathering* 2018.
13. Menandatangani perjanjian pendanaan penelitian dan pengembangan sawit dengan sejumlah lembaga penelitian dan pengembangan.
14. Bekerjasama dengan Fakultas Pertanian Institut Pertanian Bogor (IPB) menggelar Pelatihan Pemahaman Peran Perkebunan dan Manajemen Teknologi *Good Agricultural Practices* Kelapa Sawit Berkelanjutan, diikuti guru SMK Pertanian se-Kalimantan Selatan.
5. Conducted research and development, and testing the use of bioavtur as an alternative fuel for commercial aircraft fleets.
6. Be a part of the Negotiation Team sent by the Indonesian Government in the Negotiation of Restrictions on the Use of Palm Oil Derived Products to the European Union headquarters in Brussels, Belgium.
7. Cooperated with the Ministry of Foreign Affairs and the University of Jambi, to hold the Executive Palm Oil Program for Ambassadors in Jambi.
8. Implemented the phase III rejuvenation program for palm oil plantation's smallholders in Rokan Hilir Regency, Riau.
9. Signed an agreement with the Business Unit for Vegetable Roots (BU BBN) to finance the procurement of biodiesel fuel for May-October 2018.
10. Cooperating with the Ministry of Foreign Affairs to organize briefing for students, staff, and foreign service leaders (Sesparlu) of the Ministry of Foreign Affairs of the Republic of Indonesia.
11. Sending representatives to attend a conference on "Poverty Alleviation through Agriculture and Plantation Industries to Strengthen Peace and Humanity" in Rome, Italy.
12. Organizing meetings with all stakeholders in the national palm oil industry in the 2018 Stakeholders Gathering.
13. Signed palm oil research and development agreements with numerous research and development institutions.
14. Collaborated with the Faculty of Agriculture, Bogor Agricultural University (IPB) to organize Training on Understanding the Role of Plantations and Management of Good Agricultural Practices of Sustainable Palm Oil Technology, attended by vocational teachers in Agriculture in South Kalimantan.

15. Menandatangani perjanjian kerja sama (PKS) bersama Bank BNI, BRI, dan sejumlah lembaga tani kelapa sawit di Jambi untuk pembiayaan program Peremajaan Sawit Rakyat (PSR).
16. Berpartisipasi sebagai salah satu pembicara dalam *The 6th International Oil Palm Conference and Exhibition* (IOPC) di Medan.
17. Menyelenggarakan Seminar Nasional Sawit Indonesia di Jakarta dengan tema "Menguatkan Pondasi Kelembagaan BPDPKS untuk Mendukung Sawit Indonesia yang Berkelaanjutan, Mengurangi Angka Kemiskinan, dan Mewujudkan Kesejahteraan".
18. Menyelenggarakan lokakarya yang diikuti oleh beberapa wartawan dari berbagai daerah di Indonesia dalam rangka meningkatkan pemahaman mengenai industri kelapa sawit berkelanjutan di Indonesia.
19. Meluncurkan layanan *Call Center* 14036 untuk informasi mengenai biodiesel B20.
20. Melakukan sosialisasi di sejumlah kota di Indonesia untuk memastikan kebijakan perluasan mandatori B20 dijalankan dengan baik.
15. Signed a cooperation agreement (CLA) with Bank BNI, BRI, and several palm oil farmer institutions in Jambi to finance the Public Palm Replantation (PSR) program.
16. Participated as one of the speakers at the 6th International Palm Oil Conference and Exhibition (IOPC) in Medan.
17. Held a National Seminar on Indonesian Palm Oil in Jakarta with the theme "Strengthening OPPFMA's Institutional Foundation to Support Indonesia's Sustainable Palm Oil, Reduce Poverty Rate, and Create Welfare".
18. Organized workshops attended by several journalists from various regions in Indonesia to increase understanding of the sustainable palm oil industry in Indonesia.
19. Launched 14036 Call Center for information on B20 biodiesel.
20. Conducted socialization in various cities in Indonesia to ensure the policy of expanding the mandatory B20 was carried out properly.

Kontribusi dalam Pembayaran Pajak Contribution to the Tax Payment

Terkait dengan hasil kinerja keuangan, BPDPKS memenuhi kewajiban melalui pembayaran pajak. BPDPKS berperan dalam melakukan pemotongan, penyetoran, dan pelaporan atas pajak-pajak seperti Pajak Penghasilan (PPh) pasal 21 atas penghasilan yang diterima wajib pajak orang pribadi, PPh pasal 23 atas penghasilan yang diterima wajib pajak badan, dan PPh pasal 22 serta Pajak Pertambahan Nilai (PPN).

Setoran pajak BPDPKS pada tahun 2018 adalah sebesar Rp558.504.297.871 menurun sebesar 41% dibandingkan tahun 2017 sebesar Rp961.560.386.576.

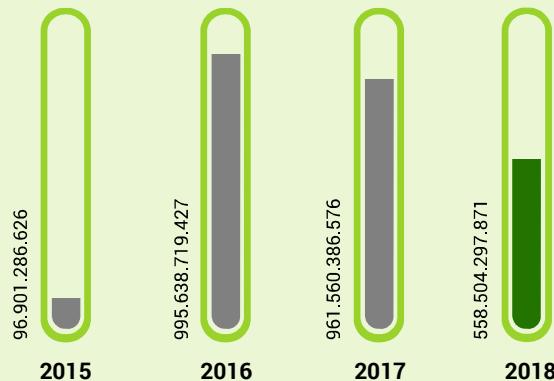

In terms of financial performance, OPPFMA fulfills obligations by paying taxes. OPPFMA has a role in deducting, depositing, and reporting taxes, such as Income Tax article 21 on income received by individual taxpayers, Income Tax article 23 on income received by corporate taxpayers, Income Tax article 22, and Value-Added Tax (PPN).

In 2018, OPPFMA deposited Rp558,504,297,871 of taxes, decreased by 41% compared to 2017, which was Rp961,560,386,576.

Terwujudnya Dana Kelapa Sawit yang *Sustainable* The Realization of Sustainable Palm Oil Funds

Percentase Dana Pendapatan yang Sesuai RBA

Percentage of Income Funds in Accordance with RBA

Target dana pendapatan yang sesuai RBA tahun 2018 terdiri dari Pendapatan Pungutan Dana Kelapa Sawit dan Turunannya sebesar Rp10.759.000.000.000 dan Pendapatan Imbalan Hasil Dana Kelolaan sebesar Rp233.000.000.000 dengan total target sebesar Rp10.992.000.000.000.

Realisasi Pendapatan sampai Desember 2018 adalah sebesar Rp15.468.775.590.532 atau sebesar 140,73% dari target tahun 2018, yang terdiri dari Pendapatan Pungutan sebesar Rp14.413.921.271.119 dan sisanya merupakan pendapatan imbal jasa hasil dana kelolaan sebesar Rp1.047.535.154.433 dan Pendapatan Lain-lain Rp7.319.165.080.

Income fund target as per 2018 RBA consists of Income from Palm Oil and Its Derivatives amounting to Rp10,759,000,000,000, and Return from the Management of Fund of Rp233,000,000,000 with a total target of Rp10,992,000,000,000.

Realized Income as of December 2018 amounted to Rp15,468,775,590,532 or 140.73% of the 2018 target, which consisted of Income from Fund Collection of Rp14,413,921,271,119, the Return of Managed Funds of Rp1,047,535,154,433, and Other Income of Rp7,319,165,080.

Dalam mencapai target tersebut, BPDPKS didukung melalui upaya-upaya yang selalu dilakukan diantaranya adalah:

1. Kontrak dengan Sucofindo telah dilakukan, atas kontrak dimaksud telah disepakati bahwa tidak ada perubahan dalam melakukan verifikasi, baik verifikasi administrasi maupun verifikasi fisik;
2. Draft Peraturan Direktur Utama yang mengatur tentang tata cara pelaksanaan rekonsiliasi data pembayaran pungutan ekspor dengan data pemberitahuan pabean ekspor dan SOP petunjuk teknis pelaksanaan rekonsiliasi data pembayaran pungutan ekspor dengan data pemberitahuan pabean ekspor, telah diajukan dan dalam proses menunggu Penetapan dari Direktur Utama;
3. Pengembangan Sistem Rekonsiliasi Data (Sired) Tahap II, dan diagendakan target penyelesaian adalah 20 januari 2019;
4. Sistem Rekonsiliasi Data Tahap II antara data Pembayaran Pungutan Ekspor dengan Data Pemberitahuan Pabean Ekspor dimaksud, dipersiapkan agar data yang diterima maupun yang dikirimkan ke DJBC melalui SITP dapat dilakukan secara *host to host*;
5. *Update* sistem juga dilakukan untuk mengakomodir perubahan pungutan berdasarkan lapisan harga referensi sebagaimana PMK 152/2018.

Deviasi Target Harga CPO

CPO Price Target Deviation

Realisasi rata-rata harga CPO (dari CIF Rotterdam Index) tahun 2018 adalah sebesar US\$497,55/ton sedangkan target rata-rata harga CPO tahun 2018 sebesar US\$750/ton, sehingga deviasi harga sebesar (33,66%).

Terjadi tren penurunan yang signifikan di Tahun 2018 dengan rata-rata harga CPO sebesar US\$596,9/ton atau mengalami penurunan sebesar 17% jika dibandingkan di tahun 2017 dengan harga CPO rata-rata US\$716/ton. Hal tersebut disebabkan oleh peningkatan produksi besar di tahun 2018 dan tidak diimbangi oleh penyerapan di pasar luar negeri. Selain itu, data statistik menunjukkan harga minyak sawit bergerak mengikuti penurunan harga minyak kedelai di pasar Rotterdam.

In achieving these targets, OPPFMA always carries out various efforts, including:

1. For contract with Sucofindo, it has been agreed that there is no change in verification, both administrative and physical;
2. The Draft President Director's Regulation, which regulates the procedures for reconciling export duties payment data with export customs and excises declaration, and SOP technical guidelines for reconciliation of export duties payment data with export customs and excises declaration, has been submitted and is in the process of awaiting the Stipulation of the President Director;
3. Development of a Phase II Data Reconciliation System (Sired), with target completion on 20 January 2019;
4. The Phase II Data Reconciliation System between the Export Duties Payment data and the Export Customs and Excises Declaration is prepared to ensure that data received or sent to DJBC through SITP can be conducted host to host;
5. A system update was also carried out to accommodate changes in duties based on the reference price layer as per PMK 152/2018.

The realization of the average CPO price (from the CIF Rotterdam Index) in 2018 was US\$497.55/ton, while the average target CPO price in 2018 was US\$750/ton. Thus, the price deviation was (33.66%).

There was a significant downward trend in 2018 with an average CPO price of US\$596.9/ton or decreased by 17% compared to 2017, which was US\$716/ton. This was caused by a large increase in production in 2018 and was not matched by absorption in foreign markets. In addition, statistics show that palm oil prices follow soybean oil prices, which declines in the Rotterdam market.

Kepuasan Pengguna Layanan yang Tinggi High Service User Satisfaction

Indeks Kepuasan Pengguna Layanan Service User Satisfaction Index

IKU Indeks kepuasan pengguna layanan diukur secara tahunan dan dilaksanakan pada Triwulan IV setiap tahunnya. Penilaian tingkat kepuasan dicapai dengan melakukan survei kepuasan atas layanan dari BPDPKS kepada *stakeholder*. Survei dilakukan dengan mekanisme melakukan kontak langsung dengan memberikan pertanyaan-pertanyaan yang telah disiapkan oleh tim BPDPKS dan konsultan. Survei dilakukan terhadap 108 stakeholder yang mewakili berbagai bidang tugas yang dilaksanakan oleh BPDPKS seperti penyaluran dana replanting, biodiesel, promosi dan penghimpunan dana.

Pada tahun 2018 indeks kepuasan pengguna layanan sebesar 3,42 meningkat 6,21% dibandingkan tahun 2017 sebesar 3,22 (Skala 4). Hal ini menunjukkan semakin puasnya *stakeholder* dengan pelayanan yang diberikan oleh BPDPKS.

KPI of service user satisfaction index is measured annually and the assessment is conducted in Q4. The assessment of the satisfaction level is performed by conducting a satisfaction survey of OPPFMA's services to stakeholders. The survey was conducted with direct contact mechanism by asking questions that have been prepared by OPPFMA's team and consultants. The survey was conducted on 108 stakeholders who represent various fields of duties carried out by OPPFMA, such as the distribution of replanting funds, biodiesel, promotion, and fundraising.

In 2018, the service user satisfaction index is 3.42, increased by 6.21% compared to 2017, which was 3.22 (out of 4). This shows the increasingly satisfied stakeholders with the services provided by OPPFMA.

Rencana Belanja Tahunan (RBT) tahun 2019 telah diselesaikan di Bulan Desember 2017 dan telah mendapatkan penetapan Komite Pengarah terkait dengan kebijakan alokasi aset. RBT tahun 2019 akan menjadi bahan pengajuan pagu indikatif TA 2019 dan RBA TA 2019.

The Annual Expenditures Plan (RBT) in 2019 was completed in December 2017 and has received the determination of the Steering Committee related to the asset allocation policy. 2019 RBT will be the submission of the indicative ceiling for the 2019 Fiscal Year and RBA.

Penyelenggaraan Penghimpunan Dana yang Optimal Optimal Fundraising Organization

Percentase Imbal Hasil Dana Kelolaan The Percentage of Return on Managed Funds

Imbal hasil dana kelolaan merupakan bagian dari kegiatan pengembangan dana sawit yang berkelanjutan meliputi pengelolaan kas dan investasi yang dilakukan BPDPKS.

Imbal hasil dihitung berdasarkan jumlah hasil dana kelolaan dibagi jumlah keseluruhan dana perkebunan kelapa sawit yang diperhitungkan secara rata-rata.

Target dana pendapatan BPDPKS dari hasil pengelolaan dana sesuai RBA tahun 2018 adalah tingkat imbal hasil atau ROI diatas 7,0% pa, sedangkan pencapaian annualized weighted average ROI sampai dengan 31 Desember 2018 adalah sebesar 6,71% dari total dana kelolaan atau sebesar Rp20,919 triliun.

Pencapaian imbal hasil dana kelolaan yaitu 95,82% dari target disebabkan sejak bulan Oktober 2018 BI menaikkan secara bertahap tingkat suku bunga acuan BI (*7 days RR Rate*) disebabkan dengan adanya tekanan mata uang USD terhadap IDR, sehingga bank buku IV menyesuaikan tingkat suku bunga secara bertahap menjadi 7,68% pada bulan Desember 2018.

Dari sisi pendapatan BPDPKS dari hasil pengelolaan dana sampai dengan 31 Desember 2018 tercatat sebesar Rp1.047 miliar atau lebih besar 107% dibandingkan dengan periode sama tahun sebelumnya sebesar Rp505 miliar. Hal ini disebabkan karena outstanding deposito sampai dengan 31 Desember 2018 lebih besar yakni Rp20,919 triliun atau rata-rata sebesar Rp15,610 triliun dibandingkan dengan tahun sebelumnya yaitu rata-rata sebesar Rp11,543 triliun untuk periode yang sama.

The return on managed funds is part of sustainable palm oil development activities, which include cash management and investment carried out by OPPFMA.

Return is calculated based on the amount of managed funds divided by the total amount of palm oil plantation funds on average.

OPPFMA's income target from the fund management in accordance with the 2018 RBA is the return or ROI above 7.0% pa, while the annualized weighted average ROI as of 31 December 2018 is 6.71% of the total managed funds or Rp20,919 trillion.

The return on managed funds was 95.82% of the target due to the gradual increase of the BI benchmark interest rate since October 2018 (7 days RR Rate), because of the pressure of the USD against IDR, thus the bank book IV adjusted the interest rate gradually to 7.68% in December 2018.

In terms of income, OPPFMA recorded Rp1,047 billion fund management up to 31 December 2018, or 107% higher compared to the same period in the previous year of Rp505 billion. This is because the outstanding deposits up to 31 December 2018 were greater, i.e. Rp20,919 trillion, or an average of Rp15,610 trillion compared to the previous year, which was an average of Rp11,543 trillion during the same period.

Penyelenggaraan Penyaluran Dana untuk Petani dan Pengembangan SDM Sawit Organizing Fund Disbursement for Farmers and Palm Oil Human Resources Development

Percentase Penyelesaian Program Replanting sesuai RBA Percentage of Replanting Program Completion in Accordance with RBA

Sesuai dengan Perpres Nomor 24 Tahun 2016 (perubahan Perpres Nomor 61 Tahun 2015), penyaluran dana *replanting* (peremajaan) kebun kelapa sawit merupakan bagian dari program sawit berkelanjutan yang bertujuan untuk meningkatkan produktivitas perkebunan kelapa sawit dan luasan lahan sawit yang diremajakan.

Target penyaluran dana peremajaan tahun 2018 sebesar Rp4.625.000.000.000 dengan target cakupan lahan seluas 20.000 ha. Realisasi Penyaluran Dana Peremajaan Sawit Rakyat s.d. Desember tahun 2018 adalah 63,11% atau Rp315.548.380.000 dengan luas lahan 12.622 Ha.

Selain itu, telah dilakukan Pembayaran Tahap I Swakelola Dukungan Kegiatan Peremajaan Perkebunan Kelapa Sawit Tahun 2018 kepada Tim Khusus Fasilitasi Peremajaan Tanaman Kelapa Sawit Pekebun, Pengembangan SDM dan Sarana dan Prasarana Direktorat Jenderal Perkebunan Kementerian Pertanian RI sebesar Rp50.546.575.600.

Tidak tercapainya target Q4 disebabkan rekomendasi teknis yang dikirimkan pada triwulan IV diterima paling banyak di akhir bulan Desember sebanyak 84 Rekomendasi. BPDPKS memerlukan waktu untuk melakukan penelitian dan menyiapkan administrasi yang dibutuhkan dalam pembayaran. Kecepatan Koperasi/Kelompok Tani/Gabungan Kelompok Tani untuk melengkapi data adminstrasi pembayaran sangat dibutuhkan.

Pada tahun 2019, BPDPKS mengusulkan agar Direktorat Jenderal Perkebunan dapat menggunakan Aplikasi PSR online yang telah dikembangkan.

In accordance with Presidential Regulation No. 24 of 2016 (Amendment to Presidential Regulation No. 61 of 2015), the disbursement of replanting funds for palm oil plantations is part of a sustainable palm oil program with the objective to increase the productivity of palm oil plantations and the area of replanted palm.

The target for the 2018 replantations fund disbursement is Rp4,625,000,000,000, under the target area of 20,000 ha. Realization of Palm Oil Replantation Fund Disbursement up to December 2018 was 63.11% or Rp315,548,380,000 with an area of 12,622 Ha.

In addition, Payment for Phase I Self-Management of the Palm Replanting Plantations in 2018 was made to the Task Force for Facilitating Rejuvenation of Palm Oil Farmers, Human Resources and Infrastructure Development of the Directorate General of Plantation of the Ministry of Agriculture, amounting to Rp50,546,575,600.

The Q4 target was not achieved because the technical recommendations sent in the fourth quarter were received at the end of December, i.e. 84 Recommendations. OPPFMA shall need time to conduct research and prepare the administration required for payment. Cooperative/Farmer Group/Combined Farmer Group will need to speed up the completion of administration data for payment.

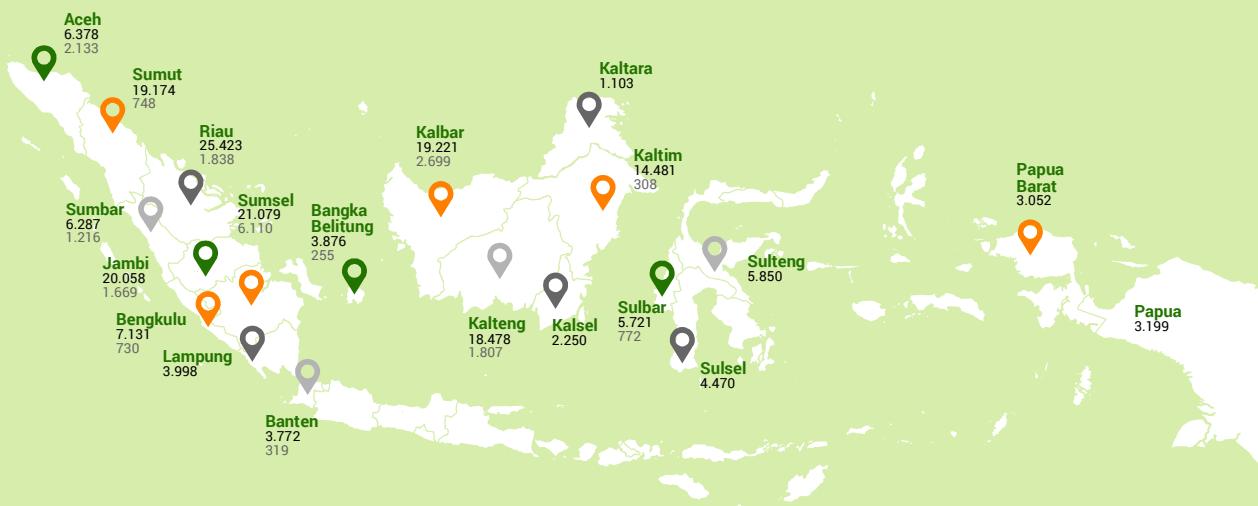

In 2019, OPPFMA proposed that the Directorate General of Plantations shall use the online PSR Application that has been developed.

Percentase Penyelesaian Program Pemenuhan Sarana dan Prasarana Perkebunan Kelapa Sawit

Percentage of Completion of Palm Oil Plantation Infrastructure Program

Peraturan Direktur Utama dan SOP Penyaluran dana Sarana dan Prasarana Perkebunan Kelapa Sawit (SPPKS) yang menjadi dasar penyaluran dana masih menunggu penetapan dari Direktur Utama.

Saat ini masih menunggu rekomendasi dari Direktur Jenderal Perkebunan terkait prioritas, alokasi dan spesifikasi teknis tahun 2019. Selanjutnya terdapat konfirmasi terkait MoU dan Surat Perjanjian Kerja dengan Dirjen Perkebunan dalam rangka penyusunan Rekomendasi Teknis (Rekomtek) sebagai dasar penyaluran dana SPPKS.

Kebutuhan Sarana dan Prasarana Perkebunan Kelapa Sawit berdasarkan hasil *Focus Group Discussion* (FGD) Penyaluran Dana Sarana dan Prasarana Perkebunan Kelapa Sawit di Riau tgl 22-24 November 2018, antara lain:

- Jalan dan Jembatan,
- Pupuk dan Bibit,
- Mobil Layanan Klinik Kelapa Sawit,
- Excavator Mini dan PKS Mini,
- Tata Kelola Air di Lahan Gambut,
- Penguatan Kelembagaan,
- ISPO, dan
- Pendampingan/Jasa Konsultan.

Alokasi anggaran untuk sarana prasarana Perkebunan Kelapa Sawit Tahun 2018 adalah sebesar Rp213.000.000.000 dengan rincian pagu dana sebagai berikut:

- a. Penyaluran dana sarana prasarana sebesar Rp188.000.000.000.
- b. Dana Pendukung sarana prasarana sebesar Rp25.000.000.000.

Realisasi penyaluran dana sarana prasarana Perkebunan Kelapa Sawit Tahun 2018 sebesar Rp873.877.039 atau 0,41% dari Total yang dianggarkan Rp213.000.000.000.

Regulation of the President Director and SOP of the Palm Oil Plantation Facilities Fund Disbursement (SPPKS), which is the basis for fund disbursement, is still awaiting the stipulation of the President Director.

Currently, it is waiting for recommendations from the Director General of Plantations regarding 2019 priorities, allocations, and technical specifications. Further, there was confirmation regarding the MoU and the Work Agreement Letter with the Director General of Plantations in terms of preparing Technical Recommendations (Rekomtek) as the basis for SPPKS fund disbursement.

The Needs for Palm Oil Plantation Facilities and Infrastructure based on the results of the Focus Group Discussion (FGD) of Palm Oil Plantation Facilities and Infrastructure Fund Disbursement in Riau on 22-24 November 2018, include:

- Roads and Bridges,
- Fertilizers and Seeds,
- Palm Oil Clinic Car Service,
- Mini Excavators and Mini VFDs,
- Water Management on Peatlands,
- Institutional Strengthening,
- ISPO, and
- Assistance/Consultation Services.

The budget allocation for the Palm Oil Plantation infrastructure in 2018 is Rp213,000,000,000 with details of the ceiling as follows:

- a. Infrastructure fund disbursement of Rp188,000,000,000.
- b. Infrastructure Supporting Funds of Rp25,000,000,000.

Realization of Palm Oil Plantation infrastructure and facilities fund disbursement in 2018 amounted to Rp887,877,039 or 0.41% of the total budget of Rp213,000,000,000.

Penyelenggaraan Penyaluran Dana untuk Biodiesel dan Pengembangan Produk Organizing Funds Disbursement for Biodiesel and Product Development

Percentase Riset yang Dibiaya Percentage of Research Funded

Total penelitian dan pengembangan yang dikelola sampai bulan September 2018 adalah sebanyak 75 penelitian, yaitu:

- a. 1 riset inisiatif mengenai mitigasi 3MCPDE dan GE dengan LPPM IPB;
- b. 32 penelitian lanjutan dari riset tahun 2015 dan 2016 (kelompok K18-1);
- c. 1 riset inisiatif dengan P3HH Kementerian LHK tentang pemanfaatan limbah sawit untuk produk perkayuan;
- d. 1 riset inisiatif tentang kajian Outlook Biodiesel dengan PT RPN dan 37 Penelitian baru dari hasil seleksi di tahun 2018 (kelompok K18-2);
- e. 1 riset inisiatif Kajian nilai densitas sebagai faktor perhitungan HIP Biodiesel oleh PPPTMGB LEMIGAS;
- f. 1 riset inisiatif Kajian Kelayakan investasi sarana dan prasarana di 10 titik pencampuran oleh PPPTMGB LEMIGAS;
- g. 1 riset inisiatif Kajian Potensi Pakistan sebagai hub pengembangan bisnis minyak sawit Indonesia di Kawasan Asia Selatan dan Timur Tengah oleh ITAPS FEM IPB.

Alokasi anggaran untuk pembayaran selisih harga biodiesel Tahun 2018 adalah sebesar Rp213.000.000.000 dengan rincian pagu dana sebagai berikut:

- a. Penyaluran dana pembayaran selisih harga biodiesel sebesar Rp208.000.000.000.
- b. Dukungan dana penyaluran Biodiesel sebesar Rp5.000.000.000.

Realisasi penyaluran Dana Program Riset Tahun 2018 sebesar Rp61.660.689.209 atau 29% dari total yang dianggarkan Rp213.000.000.000.

Total research and development managed up to September 2018 are 75 studies:

- a. 1 research on mitigating 3MCPDE and GE with LPPM IPB;
- b. 32 follow-up studies from 2015 and 2016 research (K18-1 group);
- c. 1 research with P3HH Ministry of Environment and Forestry on the use of palm oil waste for timber products;
- d. 1 research on the Biodiesel Outlook study with PT RPN and 37 new studies from the selection results in 2018 (K18-2 group);
- e. 1 research on the value of density as a calculation factor for Biodiesel HIP by PPPTMGB LEMIGAS;
- f. 1 Feasibility Study of investment in facilities and infrastructure in 10 mixing points by PPPTMGB LEMIGAS;
- g. 1 Pakistan Potential Study as a hub for the development of Indonesia's palm oil business in the South Asian and Middle East Region by ITAPS FEM IPB.

The budget allocation for biodiesel price variance in 2018 is Rp213,000,000,000 with details of the ceiling as follows:

- a. Fund disbursement for biodiesel price variance amounted to Rp208,000,000,000.
- b. Biodiesel fund disbursement support of Rp5,000,000,000.

Realization of Research Fund disbursement in 2018 amounted to Rp61,660,689,209 or 29% of the total budget of Rp213,000,000,000.

Percentase Volume Biodiesel yang Bersubsidi

Percentage of Volume of Subsidized Biodiesel

Untuk mencapai target volume biodiesel sebesar 3.220.000 KL, diperlukan penyerapan biodiesel dari sektor lain (Non-PSO). Mulai 1 September 2018 perluasan pemanfaatan biodiesel diterapkan di sektor Non-PSO dengan menyesuaikan regulasi (Perpres 66 Tahun 2018 dan Permen ESDM 41 Tahun 2018).

Perpindahan proses verifikasi yang sebelumnya dilakukan oleh Dirjen EBTKE menjadi Dirjen Migas, dan telah diputuskan *cut-off* kegiatan verifikasi oleh Dirjen EBTKE adalah penyaluran sampai dengan Agustus 2018. Perbedaan HIP Solar antara Jenis Bahan Bakar Umum (Non PSO) dan Jenis Bahan Bakar Tertentu (PSO) telah dilakukan penyamaan harga dan periode penetapannya (Permen ESDM No 45/2018).

Kondisi HIP Biodiesel *exclude* OA < HIP Solar menyebabkan dispute pada BU BBN dan BU BBM yangkut Ongkos Angkut, sehingga baru beberapa dokumen tagihan yang telah disampaikan ke BPDPKS. Realisasi Volume penyaluran Biodiesel dengan mekanisme pengadaan melalui dana pembiayaan Biodiesel sampai dengan 31 Desember 2018 sebesar 3,26 juta kL.

Alokasi anggaran untuk penyaluran dana riset Tahun 2018 adalah sebesar Rp7.467.000.000.000 dengan rincian pagu dana sebagai berikut:

- Penyaluran dana riset sebesar Rp7.463.000.000.000.
- Dukungan Dana riset sebesar Rp4.000.000.000.

Realization of 2018 Research Program Fund Disbursement amounted to Rp4,824,581,996,232 or 35% of the total budget of Rp4,467,000,000,000.

Biodiesel absorption from other sectors (Non-PSO) is required to achieve the biodiesel volume target of 3,220,000 KL. Since 1 September 2018, the expansion of biodiesel utilization will be implemented in the Non-PSO sector by adjusting regulations (Presidential Regulation 66 of 2018 and Minister of Energy and Mineral Resources Regulation 41 of 2018).

The transfer of the verification process that was previously carried out by the Director General of EBTKE, is now carried out by the Director General of Oil and Gas, and the cut-off of verification activities by the Director General of EBTKE was up to August 2018. The difference of Solar HIP between General Fuel Type (Non-PSO) and Specific Fuel Type (PSO) has been determined under the same price and period (ESDM Regulation No. 45/2018).

The Biodiesel HIP excludes OA < HIP Solar condition causes dispute on the BU BBN and BU BBM regarding Transportation Costs. Thus, there were only a few invoices that have been submitted to OPPFMA. Realization of Biodiesel distribution volume by procurement mechanism through Biodiesel financing funds up to 31 December 2018 amounted to 3.26 million kL.

The budget allocation for the research fund disbursement in 2018 is Rp7,467,000,000,000, with the details of the ceiling as follows:

- Research fund disbursement of Rp7,463,000,000,000.
- Research Fund Support in the amount of Rp4,000,000,000.

Realisasi penyaluran Dana Program Riset Tahun 2018 sebesar Rp4,824,581,996,232 atau 35% dari Total yang dianggarkan Rp4,467,000,000,000.

Penyelenggaraan Penyaluran Dana untuk Promosi dan Kemitraan

Organizing Fund Disbursement for Promotion and Partnership

Percentase Persepsi Positif dari Media Massa

Percentage of Positive Perceptions from Mass Media

Sasaran penyaluran dana promosi dan kemitraan perkebunan kelapa sawit adalah untuk menjalin kemitraan, pelaksanaan diplomasi & advokasi sawit, dan hubungan kelembagaan dengan mitra strategis. Penyaluran dana perkebunan kelapa sawit salah satu tujuannya adalah untuk meningkatkan citra nilai produk sawit. Pengukuran kinerja melalui perhitungan persentase net sentiment (positif - negatif) dari data sentiment masyarakat pada media massa dan media sosial di dalam negeri.

Target capaian promosi dan kemitraan tahun 2018 adalah peningkatan persepsi positif tentang sawit di media massa nasional. Untuk Triwulan II tahun 2018, target capaian kinerja adalah 40% , adapun realisasi s.d. triwulan II 2018 adalah sebesar 67,74% sedangkan untuk triwulan IV target capaian kinerja adalah 50% , dengan realisasi s.d. triwulan VI 2018 adalah sebesar 44,90%.

The objectives of promotional and partnership fund disbursement of palm oil plantation are to establish partnerships, and to implement palm oil diplomacy & advocacy, and institutional relationships with strategic partners. One of the objectives of palm oil plantation fund disbursement is to improve the image of the palm oil products' value. Performance is assessed through calculation of the percentage of net sentiment (positive - negative) from public sentiment data on the mass media and social media in the country.

The target of promotion and partnership in 2018 is to increase positive perceptions about palm oil in the national mass media. For Q2 2018, the performance target is 40%. The realization up to Q2 2018 is 67.74%. For Q4 2018, the performance target is 50%. The realization up to Q4 2018 is 44.90%.

Percentase Tindak Lanjut Program Kemitraan Percentage of Follow-up to the Partnership Program

Pengukuran IKU ini berdasarkan jumlah rekomendasi hasil kegiatan kemitraan yang ditindaklanjuti BPDPKS. Bentuk tindaklanjut dapat berupa kegiatan promosi sawit, kegiatan diplomasi dan advokasi sawit, pelaksanaan kajian/suvei, usulan atau konsep kebijakan/regulasi terkait sawit dan lain-lain.

The KPI assessment is based on the number of recommendations of partnership activities that are followed up by OPPFMA. The follow-up may be in the form of palm oil promotional activities, palm oil diplomacy and advocacy activities, studies/surveys, proposals or policies/regulations concept related to palm oil, etc.

Analisis Kinerja Operasional Operational Performance Analysis

Adapun rekomendasi dapat berasal dari Kementerian/Lembaga, Asosiasi Sawit, Usaha Kecil Menengah (UKM) dan Koperasi Sawit, Perusahaan Sawit, serta Lembaga Kemasyarakatan dan *Civil Society* yang berkenaan aspek promosi sawit yaitu: Peningkatan Citra Produk Sawit, Penyediaan Informasi Pasar Sawit, Perluasan Pasar Eksport Sawit, Peningkatan Investasi Perkebunan Sawit, dan Menumbuhkembangkan Pusat Pemasaran Komoditas Perkebunan Sawit.

Rekomendasi juga dapat berhubungan dengan penanganan isu-isu sawit yang mencakup: *Sustainability* produk sawit dan turunannya, Aspek Lingkungan Perkebunan Sawit, Peningkatan Produktifitas Sawit, Aspek Kesehatan dan Keamanan Pangan Produk Sawit, dan/atau Aspek Pemasaran produk Kelapa Sawit dan Turunannya.

Untuk tahun 2018, target jumlah rekomendasi yang ditindaklanjuti sebanyak 20 rekomendasi. Adapun untuk triwulan IV, target capaian IKU Persentase Tindak Lanjut Kegiatan Kemitraan sebesar 60% atau sebanyak 12 kegiatan. Adapun realisasi tindak lanjut rekomendasi s.d triwulan IV adalah sebanyak 15 rekomendasi atau persentase 75%.

Alokasi anggaran untuk penyaluran dana riset Tahun 2018 adalah sebesar Rp107.000.000.000 dengan rincian pagu dana sebagai berikut:

- Kerjasama dan Diplomasi Internasional sebesar Rp 46 miliar
- Kerjasama Pengembangan Sawit Dalam Negeri sebesar Rp 36 miliar
- Dukungan dana kemitraan sebesar Rp 22 miliar

Realisasi penyaluran Dana Program Riset Tahun 2018 sebesar Rp31.416.363.157 atau 29% dari Total yang dianggarkan Rp107.000.000.000.

The recommendations can be from Ministries/Institutions, Palm Oil Associations, Palm Oil Small and Medium Enterprises (SMEs) and Cooperatives, Palm Oil Companies, as well as Community and Civil Society Organizations with aspects of palm promotion: Palm Oil Product Image Improvement, Provision of Palm Oil Market Information, Expansion of Palm Oil Export Market, Increasing Investment in Palm Oil Plantations, and Establishing Palm Oil Commodity Marketing Centers.

Recommendations may relate to handling of palm oil issues, which include: Sustainability of palm oil products and its derivatives, Environmental Aspects of Palm Oil Plantation, Increased Productivity of Palm Oil, Health and Food Safety of Palm Products, and/or Marketing Aspects of Palm Oil Products and Its Derivatives.

In 2018, 20 recommendations were followed-up. In Q4 2018, the KPI achievement target for Follow-up of Partnership Activities is 60% or 12 activities. The realization of the follow-up recommendations in Q4 is 15 recommendations or 75%.

The budget allocation for the distribution of research funds in 2018 is Rp107,000,000,000 with the details of the ceiling of funds as follows:

- International Cooperation and Diplomacy of Rp46 billion
- Domestic Palm Oil Development Cooperation of Rp36 billion
- Partnership fund support of Rp22 billion

Realization of 2018 Research Program Fund Disbursement amounted to Rp31,416,363,157 or 29% of the total budget of Rp107,000,000,000.

Pertanggungjawaban Pengelolaan Dana yang Akuntabel Accountability to Fund Management

Indeks Ketetapan Waktu Penyusunan laporan Keuangan Timeliness of Preparation of Financial Statements

- a. IKU Indeks ketepatan waktu penyusunan laporan keuangan diukur tiap semesteran;
- b. Penyampaian laporan keuangan paling lambat tanggal 20 pada bulan berikutnya;
- a. KPI of the timeliness of financial statement preparation is measured every six months;
- b. Financial statements must be submitted no later than the 20th of the following month;

- c. Laporan keuangan BPDP Sawit berdasarkan SAP dan SAK disusun setiap bulan;
- d. Implementasi SAKTI pada penyusunan Laporan Keuangan berdasarkan SAP;
- e. Penggunaan aplikasi e-rekon untuk rekonsiliasi Laporan Keuangan SAP.
- c. OPPFMA's financial statements based on SAP and SAK are prepared monthly;
- d. SAKTI implementation in the preparation of Financial Statements based on SAP;
- e. Utilizing e-rekon application for reconciliation of SAP Financial Statements.

Percentase Rekomendasi Hasil Pemeriksaan BPK dan APIP yang telah Ditindaklanjuti

Percentage of Recommendations from BPK and APIP Audit Results that Have Been Followed-Up

- a. LHP DTT atas Pengelolaan Keuangan BPDPKS untuk tahun 2015 - 2017 baru diterima oleh BPDPKS dari BPK RI akhir Maret 2018 sehingga penyelesaian tindak lanjut atas LHP tersebut mundur 1 triwulan dari rencana semula.
- a. LHP DTT on the Financial Management of OPPFMA for 2015-2017 was received by OPPFMA from BPK RI at the end of March 2018. Therefore, the completion of the follow-up to the LHP was delayed by 1 quarter from the original plan.
- b. Penyelesaian tindak lanjut atas LHP DTT banyak bergantung dengan instansi lain di luar BPDPKS bahkan diluar Kementerian Keuangan sehingga berisiko terhadap terlambatnya penyelesaian tindak lanjut LHP DTT
- b. Follow-up completion on LHP DTT depends on external agencies outside OPPFMA, and external parties of the Ministry of Finance. Thus, there is a risk of late completion of LHP DTT
- c. Temuan yang merekomendasikan untuk pengembalian dana ke kas BPDPKS, diperlukan usaha yang maksimal bagi BPDPKS untuk menagih pihak-pihak yang terkait agar mengembalikan/menyetorkan kelebihan atas temuan dimaksud ke kas BPDPKS. Contoh: temuan pengembalian PPh 21, temuan kelebihan pembayaran perjalanan dinas luar negeri, dan temuan kelebihan pembayaran ongkos angkut biodiesel.
- c. Findings that must be followed-up by returning funds to OPPFMA need maximum effort. OPPFMA must charge the parties concerned to return/deposit the excess of such findings to OPPFMA. For example, the finding returns on Income Tax Article 21, findings on overpayment of overseas business trips, and findings on overpayment of biodiesel freight costs.

Rata-rata Hard Competency Pegawai

Average of Employees' Hard Competency

- a. Capaian IKU Rata-rata nilai *hard competency* pegawai diukur dalam periode tahunan yang dilaksanakan pada triwulan IV. Pengukuran dilakukan dengan memberikan soal untuk semua pegawai secara *online*.
- a. KPI Achievements on the Average of employees' hard competency is assessed annually, conducted in Q4. The assessment was conducted by providing questions to all employees online.

- b. Soal hard competency berupa pemahaman pegawai terhadap pelaksanaan tugas perkantoran sehari-hari, pemahaman peraturan dan *update* terkini atas tugas-tugas di BPDPKS.
 - c. Rata-rata nilai *hard competency* pegawai BPDPKS pada tahun 2018 ialah sebesar 89.
-
- b. Hard competency is in the form of employees' understanding of the daily office duties, understanding of regulations and the latest updates of their duties in OPPFMA.
 - c. The average of employees' hard competency of OPPFMA in 2018 is 89.

Organisasi yang Kondusif Conducive Organization

Percentase Kematangan Penerapan Manajemen Risiko Percentage of Risk Management Application Maturity

Dalam penilaian IKU Kematangan Penerapan Manajemen Risiko, BPDPKS menggunakan pengukuran yang ditetapkan PMK 191/PMK.09/2008 terdapat Matriks Kematangan penerapan manajemen risiko.

Kolom Vertikal mengenai Tingkat Kematangan yaitu kriteria Belum Sadar Risiko sampai dengan Dapat Menangani Risiko, sedangkan Kolom Horizontal parameter penilaian Kepemimpinan sampai dengan Hasil Penerapan Manajemen Risiko.

In the KPI assessment of the Maturity of Risk Management Application, OPPFMA uses the measurement determined by PMK 191/PMK.09/2008, which is the Maturity Matrix for the risk management application.

The Vertical Column on the Maturity Level is the assessment of Risk Awareness up to Handling the Risk. The Horizontal Column parameter is the Leadership assessment up to the Implementation of Risk Management.

Analisis Kinerja Operasional Operational Performance Analysis

Tahun 2016 usulan target IKU MR ditetapkan 35%. Realisasi 60% dikarenakan pencapaian dimulai Pembuatan Pedoman MR, training pegawai belum sadar risiko sampai pegawai sudah mendapatkan Risiko yang Ditetapkan (*Risk Defined*) pada Profil Risiko yang sudah dibuat. Pada Tahun 2017 usulan target IKU MR 75%. MR sudah dapat melakukan Aktivitas Penanganan Risiko sehingga ada peningkatan penilaian dari 60% sampai dengan 75%.

Tahun 2018 usulan target IKU MR 75% dikarenakan diawal tahun dilakukan penyempurnaan yang sudah dilakukan berupa Pedoman, Prosedur dengan konsultan external sehingga target tetap sama, sifatnya *review* penyempurnaan yang sudah ada. Peningkatan sudah dapat melakukan laporan berkala triwulanan ke Perben.

IKU Kematangan penerapan manajemen risiko dapat mencapai target apabila pelaksanaan proses pengelolaan risiko di lingkungan BPDPKS yang termasuk penyusunan Profil Risiko BPDPKS setiap tahun, implementasi Pertemuan berkala bulanan dengan komite MR dan penyusunan Laporan Pemantauan Risiko Triwulanan , penyusunan kajian pengelolaan risiko, pelaksanaan kesadaran direktorat (unit pemilik risiko) untuk mengelola risiko, dapat terlaksana dengan baik.

Pengelolaan Sarana dan TIK yang Optimal dan Modern Optimum and Modern Facilities and ICT Management

Percentase Penyediaan Sarana dan Prasarana Perkantoran Sesuai Kebutuhan Percentage of Office Infrastructure Provision as Needed

Sarana dan prasarana perkantoran yang tersedia sesuai kebutuhan akan sangat membantu kelancaran pelaksanaan tugas seluruh pegawai BPDPKS. Sarpras perkantoran tersebut berupa alat elektronik yang secara langsung membantu pelaksanaan pekerjaan pegawai seperti laptop, komputer dan printer maupun yang secara tidak langsung bisa menunjang pelaksanaan pekerjaan seperti televisi, dispenser, dan loker.

In 2016, the proposed target for Risk Management KPI is 35%. The realization is 60% because the Risk Profile has been created, Risk Management Guidelines for employees (both who are aware of risks and Risk Defined) has also been created. In 2017, the proposed target for Risk Management KPI is 75%. Risk Management has been able to carry out Risk Management Activities. Thus, there is an increase in the assessment from 60% to 75%.

In 2018, the proposed target for Risk Management KPI is 75%. This is because, at the beginning of the year, improvements have been made in the form of Guidelines and Procedures with external consultants. Therefore, the targets remain the same, and the review has the objective to refine the system. Upgrade is in the form of quarterly reports to Perben.

KPI for Risk Management Application Maturity reaches the target if the risk management process within OPPFMA includes OPPFMA's Annual Risk Profile, monthly Meeting with Risk Management Committee, Quarterly Report of Risk Monitoring, review of risk management, directorate's awareness of risk (risk owners) to manage risk, have been carried out well.

Office facilities and infrastructure availability in accordance with the needs will greatly assist the duties of all OPPFMA's employees. Office infrastructure is in the form of electronic devices that directly assist the employee's works, such as laptops, computers, and printers, or indirectly assist the employees' works, such as televisions, dispensers, and lockers.

IKU Presentase penyediaan sarana dan prasarana perkantoran sesuai kebutuhan diukur tiap triwulan. Capaian IKU pada triwulan IV tahun 2018 sebesar 100%. Hasil tersebut didapat dari realisasi pemenuhan kebutuhan sarana dan prasarana sebanyak 21 unit dari target 21 unit dalam setahun.

Percentase Modernisasi Pengelolaan BLU **Percentage of Public Service Agency Modernization Management**

IKU modernisasi pengelolaan BLU dihitung secara tahunan yang diselesaikan pada akhir tahun. Sampai dengan saat ini, di BPDPKS telah menyelesaikan seluruh tahapan pada proses modernisasi, yaitu:

- a. update data pada aplikasi BIOS;
- b. website yang up to date;
- c. database telah terpusat;
- d. adanya webservice yang terhubung dengan kantor pusat;
- e. tersedianya aplikasi pembayaran yang terintegrasi;
- f. adanya dashboard.

KPI for office facilities and infrastructure provision according to needs is measured quarterly. KPI in Q4 2018 amounted to 100%. The results were due to fulfillment of 21 units of facilities and infrastructure out of 21 target units in a year.

KPI for the modernization of public service agency management is calculated on an annual basis, which is completed at the end of the year. To date, OPPFMA has completed all stages of the modernization process:

- a. data update in the BIOS application;
- b. up to date website;
- c. centralized database;
- d. web services that are connected to the central office;
- e. availability of integrated payment applications;
- f. dashboard.

Pengelolaan Anggaran yang Optimal **Optimum Budget Management**

Pengelolaan Anggaran yang Optimal **Optimum Budget Management**

- a. Anggaran internal BPDPKS ditetapkan sebesar 1.25% dari pagu total DIPA
- b. Pagu dana untuk anggaran internal sebesar Rp177.000.000.000
- c. Kualitas pelaksanaan anggaran internal diukur melalui persentase penyerapan anggaran internal ditambah dengan persentase keluaran (output)
- d. Terdapat 2 *output* dalam anggaran internal, yaitu:
 - output 003 (layanan dukungan manajemen)
 - output 951 (layanan internal)

Sampai dengan triwulan IV tahun 2018, realisasi capaian IKU persentase kualitas pelaksanaan anggaran internal sebesar 75%.

- a. OPPFMA's internal budget is set at 1.25% of the total DIPA ceiling
- b. Fund ceiling for internal budget is Rp177,000,000,000
- c. The quality of internal budget execution is measured by the percentage of internal budget absorption and the output percentage
- d. There are 2 outputs in the internal budget:
 - output 003 (management support services)
 - output 951 (internal service)

As of Q4 2018, the realization of KPI's achievement of the quality of the internal budget execution was 75%.

Analisis Operasi Per Aktivitas Usaha

Operation Analysis Per Business Activity

Berdasarkan Peraturan Presiden No.61 Tahun 2015 Pasal 20, kegiatan operasional BPDPKS mencakup enam aktivitas yaitu melakukan perencanaan dan penganggaran, penghimpunan dana, pengelolaan dana, penyaluran penggunaan dana, penatausahaan dan pertanggungjawaban, serta pengawasan. Pelaksanaan kegiatan operasional BPDPKS tersebut di bawah tanggung jawab lima Direktorat yang berkoordinasi dengan Direktur Utama. Keenam aktivitas tersebut dilaksanakan secara maksimal oleh BPDPKS untuk mendukung pengembangan industri kelapa sawit nasional terutama sebagai upaya meningkatkan harga, memperkuat industri hilir dan membangun komoditas kelapa sawit yang berkelanjutan.

Based on Presidential Regulation No.61 of 2015 Article 20, OPPFMA's operations include six activities, i.e. planning and budgeting, fundraising, fund management, fund disbursement, administering and accountability, and monitoring. The OPPFMA's operations are under the responsibility of five Directorates, who coordinate with the President Director. The six activities are carried out optimally by OPPFMA to support the development of the national palm oil industry, especially as an effort to increase prices, strengthen downstream industries, and build sustainable palm oil commodities.

Kegiatan Operasional BPDPKS OPPFMA's Operations

Perencanaan dan Penganggaran Planning and Budgeting

Perencanaan dan penganggaran merupakan proses awal yang dibuat berdasarkan fakta dan asumsi tentang gambaran kegiatan yang akan dilakukan dalam mencapai tujuan tertentu. Kegiatan perencanaan dan penganggaran yang telah dilaksanakan oleh BPDPKS tahun 2018 adalah sebagai berikut:

1. Penyusunan Rencana Bisnis Tahunan (RBT) Tahun 2019;
2. Penyusunan Rencana Bisnis dan Anggaran (RBA) Tahun 2019;
3. Penyusunan Rencana Kerja Anggaran Kementerian/Lembaga (RKA-K/L) Tahun 2019.

Planning and budgeting is an initial process based on facts and assumptions about the description of activities to be carried out in achieving certain objectives. The planning and budgeting activities that have been carried out by OPPFMA in 2018 are as follows:

1. Preparation of the Annual Business Plan (RBT) in 2019;
2. Preparation of Business and Budget Plan (RBA) in 2019;
3. Formulation of Ministries/Institutions (RKA-K/L) Budget Work Plans in 2019.

Penghimpunan Dana Fund Raising

Sumber penghimpunan dana yang dilakukan BPDPKS terdiri dari Pelaku usaha perkebunan sawit dan turunannya, dana lembaga pembiayaan, dana masyarakat, dan/atau dana lain yang sah. Pelaku usaha perkebunan sawit dikenakan pungutan atas ekspor hasil perkebunan kelapa sawit dan iuran. Besarnya iuran ditentukan berdasarkan kesepakatan BPDPKS dengan pelaku usaha. Iuran diterapkan secara berkala atau sewaktu-waktu dan hanya dikenakan untuk perusahaan perkebunan sawit bukan pekebun. Dana lembaga pembiayaan berupa pembiayaan dari perbankan dan/atau lembaga keuangan bukan bank. Dana masyarakat berasal dari perseorangan, asosiasi, dan/atau lembaga masyarakat yang tidak mengikat. Dana yang diperoleh dari sumber lain yang sah berupa hibah, bantuan yang tidak mengikat dari pihak lainnya, dan/atau hasil pengelolaan Dana.

Pelaksanaan kegiatan penghimpunan dana BPDPKS di bawah tanggung jawab Direktorat Penghimpunan Dana yang dilaksanakan oleh Divisi Pemungutan Biaya dan Iuran *Crude Palm Oil* dan Divisi Pemungutan Biaya dan Iuran Produk Turunan. Divisi Pemungutan Biaya dan Iuran *Crude Palm Oil* mempunyai tugas memungut dan menghimpun Dana berupa biaya ekspor *Crude Palm Oil* dan iuran berkala dari pelaku usaha perkebunan kelapa sawit. Divisi Pemungutan Biaya dan Iuran Produk Turunan mempunyai tugas memungut dan menghimpun Dana berupa biaya dari ekspor produk turunan kelapa sawit dan iuran berkala dari pelaku usaha industri berbahan baku kelapa sawit.

Sampai dengan 31 Desember 2018, BPDPKS berhasil menghimpun dana sebesar Rp14.413.921.271.119 dengan volume sebanyak 40.291.489,70 ton. Jumlah penghimpunan dana ini meningkat 1,31% dibandingkan tahun 2017 sebesar Rp14.227.241.158.165.

Funding sources collected by OPPFMA consist of palm oil entrepreneurs and their derivatives, funds from funding institutions, community funds, and/or other legitimate funds. Palm oil entrepreneurs are subject to duties on exports of palm oil plantations products and contributions. The amount of contribution is determined based on the agreement of OPPFMA with the entrepreneurs. Contributions are applied periodically or at any time and are only charged to palm oil plantation companies, not farmers. Funds from funding institutions are in the form of financing from banks and/or non-bank financial institutions. Community funds come from non-binding individuals, associations and/or community institutions. Funds from other legitimate sources are in the form of grants, non-binding assistance from other parties, and/or return from Fund management.

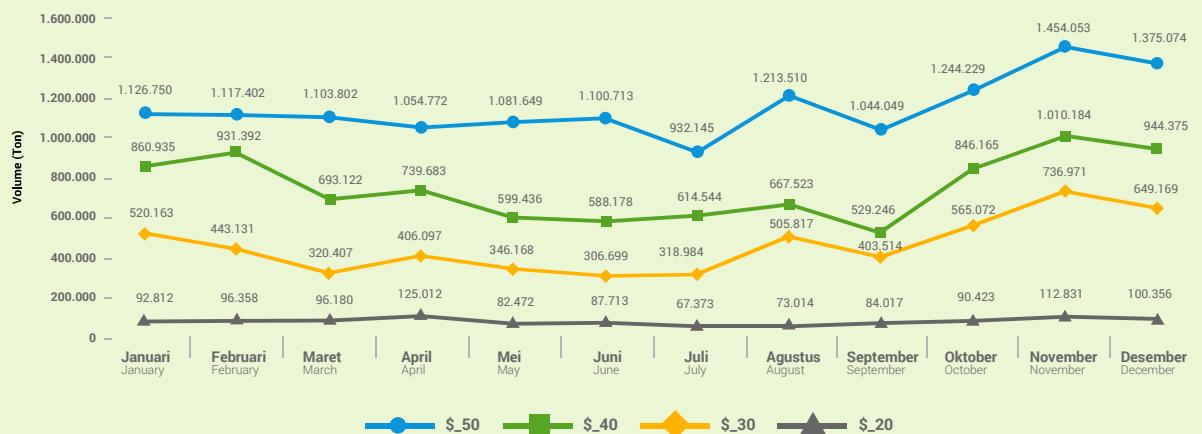

The OPPFMA fundraising is under the responsibility of the Directorate of Fund Collection, which is carried out by the Crude Palm Oil Fund Collection and Contribution, and Palm Oil Derivative Product Fund Collection and Contribution. Crude Palm Oil Fund Collection and Contribution has the duty to collect and raise Funds in the form of Crude Palm Oil export costs and periodic contributions from palm oil plantation businesses. Palm Oil Derivative Product Fund Collection and Contribution has the duty to collect and raise Funds in the form of export costs from the export of palm oil derivative products and periodic contributions from business operators of palm-based raw materials.

As of 31 December 2018, OPPFMA succeeded in raising funds amounting to Rp14,413,921,271,119, with a volume of 40,291,489.70 tons. The amount of funds collected increased by 1.31% compared to 2017, which was Rp14,227,241,158,165.

Pengelolaan Dana Fund Management

Pengelolaan atas dana yang dihimpun digunakan untuk aktivitas pengembangan sumber daya manusia perkebunan kelapa sawit, penelitian dan pengembangan perkebunan kelapa sawit, promosi perkebunan kelapa sawit, peremajaan perkebunan kelapa sawit, dan sarana dan prasarana perkebunan kelapa sawit. Kegiatan tersebut dilaksanakan oleh BPDPKS dalam rangka pengembangan perkebunan sawit dan pemenuhan hasil perkebunan kelapa sawit untuk kebutuhan pangan, hilirisasi industri perkebunan kelapa sawit, serta penyediaan dan pemanfaatan bahan bakar nabati jenis biodiesel. BPDPKS menetapkan prioritas penggunaan dana untuk masing-masing kegiatan tersebut dengan memperhatikan program Pemerintah dan kebijakan Komite Pengarah.

Pelaksanaan kegiatan pengelolaan dana BPDPKS di bawah tanggung jawab Direktorat Perencanaan dan Pengelolaan Dana yang dilaksanakan oleh Divisi Pengembangan Biodiesel, Divisi *Replanting, Reforestation* dan Promosi Perkebunan; dan Divisi Pendidikan Sumber Daya Manusia, Litbang, dan Pengembangan Sarana dan Prasarana. Divisi Pengembangan Biodiesel mempunyai tugas melaksanakan rencana pengalokasian dana, pengelolaan kerjasama pendanaan, penyusunan rencana penyaluran Dana, riset serta manajemen data terkait pengembangan biodiesel.

Divisi *Replanting, Reforestation* dan Promosi Perkebunan mempunyai tugas melaksanakan rencana pengalokasian dana, pengdalan kerjasama pendanaan, penyusunan rencana penyaluran Dana, riset serta manajemen data terkait peremajaan perkebunan, *reforestastion*, dan promosi perkebunan. Divisi Pendidikan Sumber Daya Manusia, Litbang, dan Pengembangan Sarana dan Prasarana mempunyai tugas pengalokasian Dana, pengelolaan kerjasama pendanaan, penyusunan rencana penyaluran dana, riset serta manajemen data terkait pendidikan sumber daya manusia, penelitian dan pengembangan, serta pengembangan sarana dan prasarana.

Management of funds raised is utilized for palm oil plantations human resource development, research and development of palm oil plantations, promotion of palm oil plantations, replantation of palm oil plantations, and facilities and infrastructure for palm oil plantations. OPPFMA carries out such activities to develop the palm plantations and fulfill the palm oil plantations products for food needs, downstreaming the palm oil plantation industry, and supply and utilize the biodiesel fuels. OPPFMA sets priorities for the use of funds for every activity, by taking into account the Government's programs and Steering Committee policies.

OPPFMA fund management is the responsibility of the Directorate of Fund Planning and Management, which is carried out by the Biodiesel Development Division, Replanting, Reforestation, and Plantation Promotion Division; and the Human Resources Education, Research and Development, and Facilities and Infrastructure Development. Biodiesel Development has the duties to plan fund allocation, prepare fund disbursement plans, research and manage data related to biodiesel development.

Replanting, Reforestation, and Promotional Plantations has the duties to plan fund allocation, manage funding cooperation, prepare fund disbursement plan, research and manage data related to plantation replantations, reforestation, and promotion. Human Resources Education, Research and Development, and Facilities and Infrastructure Development has the task to allocate Funds, manage funding collaboration, prepare fund disbursement plan, research and manage data related to human resource education, research and development, and development of facilities and infrastructure.

Penyaluran dan Penggunaan Dana Fund Disbursement and Utilization

Penyaluran dan penggunaan dana merupakan kegiatan yang dilaksanakan sebagaimana pengelolaan dana yang diuraikan di atas. Penggunaan dana untuk pengembangan sumber daya manusia perkebunan sawit dilakukan untuk meningkatkan pengetahuan, keterampilan, profesionalisme, kemandirian, dan berdaya saing; dan meningkatkan kemampuan teknis, manajerial dan kewirausahaan. Pengembangan sumber daya manusia dilakukan dengan penyuluhan, pendidikan, pelatihan, dan pendampingan fasilitasi. Pengembangan sumber daya manusia dilakukan oleh lembaga pendidikan formal maupun non-formal.

Penggunaan dana untuk penelitian dan pengembangan perkebunan kelapa sawit dilakukan untuk peningkatan pengetahuan tentang pemuliaan, budidaya, pasca panen dan pengolahan hasil, industri, pasar, rantai nilai produk hasil Perkebunan dari hulu ke hilir, dan potensi pengembangan usaha. Kegiatan ini dilaksanakan melalui pembentukan dan penguatan lembaga riset yang fokus pada teknologi, sektor industri, inovasi produk, skema pembiayaan, pengetahuan pasar, dan adopsi lingkungan.

Penggunaan dana untuk promosi dilakukan untuk meningkatkan pengetahuan terhadap signifikansi perkebunan sawit sebagai produk yang mempunyai nilai strategis. Pelaksanaan promosi tersebut dapat meningkatkan citra nilai produk, informasi pasar, memperluas pasar, meningkatkan investasi, menumbuhkembangkan pusat pemasaran komoditas perkebunan sawit. Penggunaan dana untuk peremajaan perkebunan sawit dilaksanakan sebagai upaya peningkatan produktivitas tanaman perkebunan sawit maupun menjaga luasan lahan perkebunan sawit agar dapat dimanfaatkan secara optimal.

The fund disbursement and utilization are carried out in the same manner as the fund management described above. The fund for the human resources development for palm oil plantations is carried out to increase knowledge, skills, professionalism, independence and competitiveness; and improve technical, managerial, and entrepreneurial skills. Human resource development is carried out through counseling, education, training, and facilitation assistance. Human resource development is carried out by formal and non-formal educational institutions.

The fund for research and development of palm oil plantations is carried out to increase knowledge about breeding, cultivation, post-harvest, and processing of products, industry, markets, value chains of plantation products from upstream to downstream, and the potential for business development. This activity is carried out through the establishment and strengthening of research institutes that focus on technology, industrial sector, product innovation, financing schemes, market knowledge, and environmental adoption.

The fund for promotion is carried out to increase knowledge of the significance of palm oil plantations as products with strategic value. Promotion improves the image of product value, market information, expands markets, increases investment, grows the marketing center of palm oil commodities. The fund for replantation of palm oil plantations is carried out as an effort to increase the productivity of palm oil plantations and maintain the area of palm oil plantations to be utilized optimally.

Penggunaan dana untuk sarana dan prasarana perkebunan sawit dilakukan untuk peningkatan produksi, produktivitas, dan mutu hasil perkebunan. Sarana dan prasarana tersebut antara lain benih; pupuk; pestisida; alat pasca panen dan pengolahan hasil; jalan kebun dan jalan akses ke jalan umum dan/atau ke pelabuhan; alat transportasi; mesin pertanian; pembentukan infrastruktur pasar; dan verifikasi atau penelusuran teknis.

Pelaksanaan kegiatan penyaluran dan penggunaan dana BPDPKS di bawah tanggung jawab Direktorat Penyaluran Dana yang dilaksanakan oleh Divisi Program Pelayanan dan Divisi Unit Penyaluran. Divisi Program Pelayanan mempunyai tugas melakukan penyusunan rencana penyaluran Dana, penilaian dan verifikasi terhadap proposal permohonan Dana, pengembangan Dana, penetapan usulan calon penerima Dana. Divisi Unit Penyaluran mempunyai tugas melakukan penyaluran Dana untuk pembiayaan pengembangan, monitoring dan evaluasi penyaluran Dana, menjalankan fungsi kustodian atas Dana termasuk pencatatan, pengawasan dan pelaporan penyimpanan Dana, dan laporan realisasi penyaluran Dana.

The fund for facilities and infrastructure for palm oil plantations is carried out to increase production, productivity, and quality of plantation products. Facilities and infrastructure consist of seeds, fertilizers, pesticides, post-harvest equipment, and processing, garden roads and access roads to public roads and/or ports, transportation equipment, agricultural machinery, the establishment of market infrastructure and verification or technical tracking.

OPPFMA's fund disbursement and utilization is the responsibility of the Directorate of Fund Disbursement, which is carried out by the Service Program Division and the Disbursement Unit Division. Service Program has the duties to compile plan for fund disbursement, evaluate and verify proposals for Fund requests, develop Funds, determine proposals of prospective Fund recipients. Disbursement Unit has the duties to conduct Fund disbursement to finance development, monitoring, and evaluation of Fund disbursement, perform custodial functions of Funds, including recording, monitoring, and reporting of Funds storage, and reports on the realization of Funds disbursement.

Penatausahaan dan Pertanggungjawaban **Administration and Accountability**

Penatausahaan dan pertanggungjawaban senantiasa dilaksanakan oleh setiap pimpinan BPDPKS dengan menerapkan prinsip koordinasi, integrasi, dan sinkronisasi baik di lingkungan maupun antar satuan organisasi di lingkungan BPDPKS serta dengan instansi lain di luar BPDPKS sesuai dengan tugas masing-masing. Setiap pimpinan satuan organisasi bertanggungjawab memimpin, berkoordinasi dengan bawahan masing-masing, dan memberikan bimbingan serta petunjuk bagi pelaksanaan tugas bawahan. Selain itu, setiap pimpinan juga wajib mematuhi petunjuk dan bertanggung jawab kepada atasan masing-masing dan menyampaikan laporan berkala tepat pada waktunya.

Administration and accountability are carried out by each OPPFMA's leader, by applying the principles of coordination, integration, and synchronization, within and between organizational units in OPPFMA, as well as with external agencies in accordance with their respective duties. Each organizational unit leader is responsible for leading, coordinating with their subordinates, and providing guidance and assistance for the subordinate tasks. In addition, each leader must also comply with instructions and be responsible to their respective superiors and submit regular reports on time.

Pertanggungjawaban diwujudkan dengan kegiatan penyampaian laporan kepada atasan yang tembusannya wajib disampaikan kepada pimpinan satuan unit organisasi lain yang secara fungsional mempunyai hubungan kerja. Laporan tersebut diolah dan digunakan sebagai bahan untuk menyusun laporan lebih lanjut sebagai petunjuk kepada bawahan. Para Direktur dan Kepala Satuan Pemeriksaan Internal menyampaikan laporan kepada Direktur Utama yang selanjutnya akan memerintahkan pejabat terkait untuk melaksanakan penatausahaan.

Pengawasan **Supervision**

BPDPKS melakukan pengawasan pelaksanaan kewajiban pungutan atas ekspor komoditas perkebunan sawit. Hasil pungutan tersebut disampaikan oleh BPDPKS kepada Menteri Keuangan yang disertai dengan rekomendasi pengenaan sanksi administratif berupa denda jika kewajiban Pungutan atas ekspor komoditas perkebunan sawit tidak dipenuhi. Besarnya denda yang dibayarkan sesuai tarif yang ditetapkan oleh Menteri Keuangan dan menggunakan mata uang Rupiah. BPDPKS juga berkoordinasi dengan Kementerian Perdagangan untuk menunjuk surveyor dalam melakukan verifikasi atau penelusuran teknis dalam pelaksanaan pembayaran pungutan tersebut agar sesuai dengan ketentuan peraturan perundang-undangan. Hasil verifikasi yang telah dilakukan oleh surveyor sebagaimana dimaksud pada dimuat dalam bentuk laporan surveyor.

Accountability is actualized by reporting activities to superiors whose copies must be submitted to the leader of other organizational units with a working relationship. The report is processed and used as material to compile further reports as a guide to subordinates. The Directors and the Head of the Internal Audit Unit submit a report to the President Director who will then instruct the relevant officials to carry out the administration.

OPPFMA supervises the implementation of mandatory levies on palm oil commodity exports. The levies obtained were submitted by OPPFMA to the Minister of Finance, accompanied by recommendations for the imposition of administrative sanctions in the form of fines in the event that the mandatory levy on palm oil plantation commodities exports were not fulfilled. The amount of the fine paid shall be in accordance with the rate set by the Minister of Finance using the Rupiah currency. OPPFMA coordinates with the Ministry of Trade to appoint surveyors in conducting verification or technical inquiry in the payment of export duties to comply with statutory provisions. The verification results that have been carried out by the surveyors as referred to are in the form of the surveyor's report.

Aset Assets

Jumlah Aset BPDPKS tahun 2018 adalah sebesar Rp20.971.433.886.205 meningkat 76,74% dibandingkan tahun 2017 sebesar Rp11.865.868.411.275. Peningkatan tersebut terutama disebabkan oleh tingginya pendapatan pungutan dan pengelolaan dana, serta berkurangnya selisih harga biodiesel yang menyebabkan beban biodiesel yang lebih kecil dari periode sebelumnya sehingga terjadi peningkatan aset yang signifikan.

In 2018, OPPFMA Total Assets amounted to Rp20,971,433,886,205, increased by 76.74% compared to 2017, which was Rp11,865,868,411,275. The increase was mainly due to high collection fees and fund management, as well as reduced biodiesel price differences which led to smaller biodiesel liabilities compared to the previous period, resulting in a significant increase in assets.

Asumsi Proyeksi Tahun 2019

Assumptions for 2019 Projections

Angka proyeksi RBA di tahun 2019 ditetapkan berdasarkan asumsi-asumsi sebagai berikut:

1. Saldo awal tahun 2019 sebesar Rp19 triliun, termasuk dana cadangan sebesar Rp748 miliar;
2. Harga CPO berkisar antara US\$650 - US\$750 per ton;
3. Volume ekspor diperkirakan menurun dari tahun 2018 sebesar 36.000.000 ton menjadi 33.000.000 ton di tahun 2019 karena peningkatan penggunaan biodiesel (yaitu menurun 3.045.000 ton yang digunakan untuk menghasilkan 3.500.000 KL biodiesel dengan BJ 0,87 Kg/liter). Di tahun 2020-2022 kinerja ekspor kembali stabil di level 37 juta MT;
4. Dana yang disediakan untuk jasa verifikasi ekspor produk kelapa sawit oleh surveyor sebesar Rp146.000.000.000. Dana tersebut terdiri atas biaya surveyor Rp107.000.000.000 untuk ekspor sebesar 33.000.000 ton dengan rincian biaya surveyor per ton sebesar Rp2.950 ditambah PPN 10%. Dana sebesar Rp39.000.000.000 digunakan sebagai dana pendukung, biaya pengembangan sistem pungutan ekspor, dan cadangan apabila terjadi kenaikan ekspor;
5. Pengelolaan dana menggunakan investasi dengan yield return rata-rata 7% p.a;
6. Penerimaan berasal dari hasil pemungutan biaya ekspor CPO dan turunannya. Dari sektor hulu tarif pungutan sebesar \$50 untuk CPO dan CPKO, \$40 untuk PFAD dan PKFAD, \$35 untuk split crude oil dan \$10 untuk cangkang. Dari sektor hilir sebesar \$30 untuk RBD palm olein, \$20 untuk RBD oil, dan \$20 untuk biodiesel (kandungan metil ester > 96,5 volume);

The projected RBA figure for 2019 is based on the following assumptions:

1. The initial balance in 2019 shall be Rp19 trillion, including reserve funds of Rp748 billion;
2. CPO price is around US\$650 - US\$750 per ton;
3. Export volume is expected to decrease from 2018 by 36,000,000 tons to 33,000,000 tons in 2019 due to increased use of biodiesel (i.e. decreased 3,045,000 tons used to produce 3,500,000 KL biodiesel with BJ 0.87 Kg/liter). In 2020-2022, export performance shall be stabilized at 37 million MT;
4. Funds provided for palm oil product export verification services by surveyors amounted to Rp146,000,000,000. The fund consists of surveyor fees of Rp107,000,000,000 for exports of 33,000,000 tons, with surveyor fees of Rp2,950 per ton plus 10% VAT. Funds of Rp39,000,000,000 are used as supporting funds, the cost of developing an export duties system, and reserves in the event of an increase in exports;
5. Fund management by investing with an average yield return of 7% p.a;
6. Revenues from the collection of CPO export costs and their derivatives. From the upstream sector, the duties are \$50 for CPO and CPKO, \$40 for PFAD and PKFAD, \$35 for split crude oil, and \$10 for shells. From the downstream sector, \$30 for RBD palm olein, \$20 for RBD oil, and \$20 for biodiesel (methyl ester content > 96.5 of volume);

7. Sesuai dengan arahan Komite Pengarah pada tanggal 20 Desember 2017, target dan persentase alokasi dana untuk penyaluran TA 2018 yang kemudian digunakan untuk alokasi TA 2019 adalah:
 - a. Peremajaan sampai dengan 22%,
 - b. Sarana Prasarana sampai dengan 2%,
 - c. Pembayaran Selisih Harga Biodiesel sampai dengan 70%,
 - d. Dukungan Riset sampai dengan 2%,
 - e. Promosi dan Kemitraan sampai dengan 2%,
 - f. Pengembangan SDM sampai dengan 2%,
 - g. Dana Cadangan sampai dengan 4%.

Namun demikian untuk alokasi 2019 akan menggunakan angka alokasi sebesar alokasi pada Tahun 2018;

8. Dana yang disediakan untuk program peremajaan perkebunan kelapa sawit sebesar Rp2,30 triliun dengan biaya program peremajaan perkebunan kelapa sawit adalah Rp25 juta/Ha dan cakupan lahan seluas 90.000 Ha. Alokasi ini merupakan alokasi awal, yang akan disesuaikan dengan progress kinerja 2019. Hal ini dilakukan melihat capaian kinerja 2018 yang rendah yaitu sampai dengan Juli 2018 sebanyak 9.576 Ha;
9. Dana yang disediakan untuk program sarana prasarana sebesar Rp214 miliar.
10. Dana yang disediakan untuk program riset sebesar Rp214 miliar dengan rata-rata pembiayaan sebesar Rp1.500.000.000/riset;
11. Dana yang disediakan untuk program pengembangan SDM Sawit sebesar Rp214 miliar yang terdiri atas program beasiswa diploma 1 dan 3 dengan biaya sebesar Rp50.000.000/orang per tahun dan pelatihan petani kelapa sawit. Peningkatan jumlah peserta setiap tahun meningkat sebesar 5% per tahun;

7. In accordance with the direction of the Steering Committee on 20 December 2017, the target and percentage of funds allocated for the 2018 fiscal year disbursement, which will then be used for the allocation of 2019 fiscal year are:
 - a. Replanting up to 22%,
 - b. Infrastructure up to 2%,
 - c. Payment of Biodiesel Price Difference up to 70%,
 - d. Research support up to 2%,
 - e. Promotion and Partnership up to 2%,
 - f. HR Development up to 2%,
 - g. Reserve funds up to 4%.

However, the allocation for 2019 will use the same allocation as per the allocation in 2018;

8. The funds provided for the palm oil plantation replantation program amounted to Rp2.30 trillion with the cost of the palm oil plantation replantation program of Rp25 million/Ha and an area of 90,000 Ha. This is the initial allocation, which will be adjusted to the progress of 2019 performance. This is based on the 2018 low performance, up to July 2018, which was 9,576 Ha;
9. Funds provided for the infrastructure program amounted to Rp214 billion.
10. Funds provided for the research program are Rp214 billion, with average financing of Rp1,500,000,000/research;
11. Funds provided for the Palm Oil HR development program amounted to Rp214 billion, consisting of Young Bachelor (D1 and D3) scholarship programs of Rp50,000,000/person per year, and training of palm oil farmers. Increase in the number of participants of 5% per year;

-
12. Dana yang disediakan untuk program promosi dan kemitraan adalah Rp214 miliar;
-
13. Dukungan Manajemen, pengeluaran ini untuk membiayai seluruh kegiatan yang berhubungan dengan operasional BPDPKS. Anggaran Dukungan Manajemen adalah maksimal sebesar 1,25% dari total dana penyaluran. Sementara dialokasikan sebesar Rp141 miliar;
-
14. Batas atas penggunaan dana penghimpunan untuk dukungan pelaksanaan mandatori B-20 (biodiesel 20%) adalah 70%. Dengan target volume sebanyak 6.000.000 KL baik PSO maupun Non PSO;
-
15. Untuk setiap penggunaan 1 KL Biodiesel, membutuhkan dana pembiayaan selisih harga HIP BBN jenis biodiesel dengan HIP minyak jenis solar dengan target tahun 2019 sebesar 6 juta KL. Namun demikian alokasi anggaran untuk 2019 dilalokasikan sebesar anggaran tahun 2018 karena selisih harga solar dan biodiesel mengecil.
-
12. Funds provided for promotion and partnership program amounted to Rp214 billion;
-
13. Management's Support Fund, the expenditure is to finance all activities related to OPPFMA's operations. Management's Support Budget amounted to at most 1.25% of total fund disbursement. The Management's Support Fund is budgeted at Rp141 billion;
-
14. The ceiling for the use of collection funds to support the mandatory B-20 (biodiesel 20%) is 70%. The volume is targeted at 6,000,000 KL for both PSO and non-PSO;
-
15. For the use of 1 KL Biodiesel, funding is necessary for the difference in the price of biodiesel HIP and diesel oil HIP. The 2019 target is at 6 million KL. However, in 2019, the budget is allocated as per the 2018 budget due to the lower difference in the prices of diesel and biodiesel.

Business Prospects and Strategies

Prospek Usaha Business Prospect

Prospek Perekonomian Economical Prospect

Prospek perekonomian domestik 2019 akan tetap kuat ditandai dengan pertumbuhan ekonomi yang lebih baik dan stabilitas yang terjaga ditengah kondisi perekonomian global yang belum kondusif. Pertumbuhan ekonomi Indonesia pada 2019 diprakirakan tetap solid pada kisaran 5,0% - 5,4% ditunjang oleh permintaan domestik yang tetap kuat, baik konsumsi maupun investasi. Sementara itu, kinerja ekspor neto belum banyak dapat menopang peningkatan pertumbuhan ekonomi 2019 sejalan dengan pertumbuhan perekonomian dunia yang melanda.

In 2019, the domestic economy is projected to remain strong, which shall be marked by better and more stable economic growth amidst the not conducive global economic conditions. Indonesia's economic growth in 2019 is predicted to remain solid at 5.0% - 5.4%, supported by strong domestic demand, both consumption and investment. Meanwhile, the net export performance was unable to sustain an increase in economic growth in 2019, in line with sluggish world economic growth.

Konsumsi swasta diperkirakan tumbuh kuat, sehingga dapat menopang pertumbuhan ekonomi 2019. Konsumsi swasta diprakirakan tumbuh dalam kisaran 5,2% - 5,6% pada 2019 dipengaruhi tingginya konsumsi rumah tangga dan konsumsi lembaga nonprofit yang melayani rumah tangga (LNPRT). Pertumbuhan konsumsi rumah tangga diperkirakan tetap kuat didukung daya beli masyarakat yang terjaga, seiring dengan pendapatan yang membaik disertai inflasi yang rendah, serta dampak positif dari penyelenggaraan pemilihan umum (Pemilu).

Peran stimulus fiskal pemerintah baik melalui bantuan sosial maupun instrumen fiskal lainnya juga berperan menopang kinerja konsumsi rumah tangga. Kinerja konsumsi swasta juga bersumber dari peningkatan kinerja konsumsi LNPRT sebagai dampak positif dari pengeluaran terkait penyelenggaraan Pemilu 2019.

Prospek Industri Crude Palm Oil (CPO)

Crude Palm Oil (CPO) Industry Prospect

Prospek industri kepala sawit diperkirakan lebih cerah pada tahun 2019. Kinerja akan ditopang oleh pelaksanaan mandatori kebijakan biodiesel 20 persen (B20). Di tengah kondisi ekonomi global yang belum sepenuhnya stabil, ditambah beragam hambatan aturan dagang sejumlah negara, tak membuat pamor kelapa sawit sebagai komoditas andalan untuk devisa negara meredup. Prospek bisnis kelapa sawit masih sangat menjanjikan, tak lain karena kontribusi ekspor minyak sawit mentah (CPO) dan turunannya masih besar. Belum termasuk ke pasar non tradisional di luar Eropa yang masih terbuka lebar, mengingat kawasan seperti Timur Tengah dan Asia Selatan belum tergarap optimal.

Sejak berkembangnya sektor perkebunan di Indonesia, kelapa sawit merupakan komoditas yang digadang-gadang sebagai primadona sektor pertanian khususnya perkebunan. Selain itu, komoditas ini termasuk memiliki prospek yang paling cerah dibandingkan komoditas perkebunan lainnya, seperti kakao, karet, kopi, dan lain-lain.

Private consumption is expected to grow strongly, to sustain economic growth in 2019. Private consumption is predicted to grow by 5.2% - 5.6% in 2019 due to high household consumption and consumption of nonprofit institutions serving households (LNPRT). Growth in household consumption is expected to remain strong, supported by maintained public' purchasing power, in line with improved income accompanied by low inflation, as well as the positive impact of General Election (Pemilu).

The government fiscal stimulus through social assistance and other fiscal instruments plays a role in sustaining the performance of household consumption. The private consumption performance is also influenced by an increase in LNPRT consumption performance as a positive impact of expenditure related to the 2019 General Election.

The palm oil industry is expected to perform better in 2019. The performance will be supported by the implementation of a mandatory 20 percent biodiesel policy (B20). In the midst of global economic conditions that are not yet stable, and various barriers to trade rules in numerous countries, the palm oil prestige as the mainstay commodity for foreign exchange has faded. The prospect of the palm oil business is still very promising, because the contribution of exports of crude palm oil (CPO) and its derivatives are still high. This does not include the non-traditional markets outside Europe that are still wide open, taking into account that regions such as the Middle East and South Asia have not been optimally exploited.

Since the development of the plantation sector in Indonesia, palm oil is the flagship commodity in the agriculture sector, especially plantations. In addition, this commodity has the brightest prospect compared to other plantation commodities, such as cocoa, rubber, coffee, etc.

Sejak berkembangnya sektor perkebunan di Indonesia, kelapa sawit merupakan komoditas yang digadang-gadang sebagai primadona sektor pertanian khususnya perkebunan. Selain itu, komoditas ini termasuk memiliki prospek yang paling cerah dibandingkan komoditas perkebunan lainnya, seperti kakao, karet, kopi, dan lain-lain.

Since the development of the plantation sector in Indonesia, palm oil is the flagship commodity in the agriculture sector, especially plantations. In addition, this commodity has the brightest prospect compared to other plantation commodities, such as cocoa, rubber, coffee, etc.

Hal ini dapat dilihat dari perkembangan luas areal/tanaman menghasilkan yang selalu meningkat setiap tahun dan kebijakan pemerintah yang selalu mengupayakan komoditas ini tetap eksis di pasar domestik maupun internasional. Minyak sawit diproduksi dalam jumlah besar berupa minyak mentah sawit (CPO) dan minyak kernel sawit (PKO). Di Indonesia sendiri, minyak sawit tersebut diproduksi oleh produsen dengan luas lahan yang diusahakan adalah 40,59% oleh perkebunan rakyat; 54,43% oleh perkebunan besar swasta; dan 4,98% oleh perkebunan besar negara dari 14,03 juta ha total lahan sawit di Indonesia.

Bisnis minyak kelapa sawit menguntungkan produsennya dengan beberapa alasan, di antaranya adalah margin laba yang besar, permintaan internasional yang besar yang diikuti dengan bertambahnya jumlah penduduk dunia sebesar 9,6 miliar pada tahun 2050, tingkat produktivitas yang lebih tinggi dibanding minyak nabati yang lain, dan gencarnya kampanye penggunaan biofuel secara global.

This is reflected in the area/crop yields development which increases every year, and government policies that strive to ensure these commodities' existence in the domestic and international markets. Palm oil is produced in large quantities in the form of crude palm oil (CPO) and palm kernel oil (PKO). In Indonesia, palm oil is produced by producers in the area of 40.59% managed by smallholder plantations; 54.43% by large private plantations; and 4.98% by state-owned plantations, with a total of 14.03 million ha of palm oil land in Indonesia.

The palm oil business benefits its producers from its large profit margins, large international demand, and an increase in the world population to 9.6 billion in 2050, higher levels of productivity compared to other vegetable oils, and the incessant campaign to use biofuels globally.

Selain itu, hasil penelitian Suharyono Turnip dan Marhadi tahun 2016 dengan menggunakan Teori Diamond Porter menyatakan faktor produksi, industri pendukung, peran pemerintah, dan kesempatan merupakan faktor yang mempengaruhi CPO sehingga memiliki daya saing di pasar Internasional. Apalagi dengan adanya diversifikasi produk CPO atau mandatori B20 oleh pemerintah akan berdampak pada permintaan CPO sekitar 4,1 juta ton (14% dari total ekspor CPO Indonesia).

Kemampuan Indonesia memenuhi permintaan ekspor CPO dalam jumlah banyak seperti ke India yaitu sebesar 6,714 ribu ton tahun 2018, menunjukkan bahwa komoditas ini layak untuk diperjuangkan. Faktor-faktor yang mempengaruhi permintaan ekspor CPO dari Indonesia beberapa bulan terakhir ini adalah tren harga CPO internasional naik 0,44%; tren harga minyak kedelai internasional meningkat 0,90%; dan stok persediaan CPO di Malaysia yang turun hingga 80%.

Produksi CPO juga menjadi salah satu faktor penting yang mempengaruhi jumlah CPO yang diekspor. Data Badan Pusat Statistik, Ditjenbun, dan GAPKI menunjukkan pertumbuhan produksi CPO tahun 2018 adalah 11,28% dari tahun sebelumnya, dengan total produksi 47,39 juta ton. Seiring dengan hal tersebut, pertumbuhan eksportnya juga meningkat sebesar 3,02% dengan total ekspor 32,02 juta ton tahun 2018.

Data GAPKI meramalkan hasil produksi kelapa sawit pada rentang waktu 2019-2025 akan terus meningkat seiring dengan permintaan domestik dalam bentuk makanan, biodiesel, biohidrocarbon, dan tenaga listrik (PLN) yang juga meningkat. Disisi lain, International Monetary Fund (IMF) mengoreksi pertumbuhan ekonomi global yang melambat dari 3,5% menjadi 3,3%. Dalam situasi pelambatan ekonomi global, harga komoditas seperti sawit, apalagi karet dan kopi cenderung relatif rendah atau mengalami penurunan.

In addition, the results of Suharyono Turnip and Marhadi's study in 2016 using Diamond Porter's Theory stated that production, supporting industries, the role of government, and opportunities are factors that influence CPO to have its competitiveness in the international market. Under the diversification of CPO products or the mandatory B20 by the government, CPO demand will be impacted at around 4.1 million tons (14% of Indonesia's total CPO exports).

Indonesia's ability to meet the demand for CPO exports in large quantities, for example, to India, of 6,714 thousand tons in 2018, shows that this commodity is worth fighting for. Factors that have influenced the demand for CPO exports from Indonesia in the past few months are the increase of international CPO prices by 0.44%; increase of international soybean oil price by 0.90%; and decrease of CPO inventory in Malaysia by 80%.

CPO production is also one of the important factors that affects the amount of CPO exported. Data from Statistics Indonesia, the Directorate General of Plantations, and IPOA, show that CPO production growth in 2018 was 11.28% from the previous year, with a total production of 47.39 million tons. In line with this, export growth also increased by 3.02% with a total export of 32.02 million tons in 2018.

IPOA data predicts that palm oil production in 2019-2025 will continue to increase along with domestic demand for food, biodiesel, biohydrocarbons, and electric power (PLN), which also increases. On the other hand, the International Monetary Fund (IMF) corrected global economic growth, which slowed from 3.5% to 3.3%. In such a global economic slowdown, the prices of commodities (for example, palm oil), especially rubber and coffee tend to be relatively low or decline.

Berdasarkan tabel diatas dapat disimpulkan bahwa produksi minyak sawit Indonesia mengalami peningkatan. Penggunaan minyak sawit domestik terutama digunakan untuk memenuhi kebutuhan biodiesel. Minyak sawit yang dieksport terutama untuk memenuhi kebutuhan pangan seperti minyak goreng, margarin, shortening, dan RBD oil sebagai bahan baku penting dalam pembuatan sabun mandi, sabun cuci, dan produk kebersihan dan perawatan diri lainnya.

Sampai dengan tahun 2020 luas area lahan perkebunan kelapa sawit diperkirakan juga akan mengalami peningkatan sebesar 5% setiap tahun. Lahan perkebunan kelapa sawit tersebut diperkirakan akan dikuasai terutama oleh rakyat dengan penguasaan terhadap lahan meningkat ±7% setiap tahun sehingga berkontribusi sebesar 50,61%. Hal ini mengindikasikan bahwa kesejahteraan rakyat akan meningkat seiring dengan peran rakyat dalam pengembangan perkebunan kelapa sawit ke depan. Proyeksi pengembangan perkebunan kelapa sawit dalam lima tahun ke depan ditunjukkan dalam tabel berikut.

Based on the table above, it can be concluded that Indonesia's palm oil production has increased. The domestic palm oil is mainly used to meet biodiesel needs. Palm oil is exported mainly to meet food needs, such as cooking oil, margarine, shortening, and RBD oil, as important raw materials in the manufacture of bath soap, laundry soap, and other hygiene and personal care products.

Until 2020, the area of palm oil plantations is estimated to increase by 5% every year. The palm oil plantation land is estimated to be controlled mainly by the people, and control of the land will increase by ±7% every year, therefore contributing to 50.61%. This indicates that people's welfare will increase along with the people's role in the development of palm oil plantations in the future. The forecast for palm oil plantations development in the next five years are shown in the following table.

Pelaku usaha industri minyak sawit Indonesia khususnya GAPKI tetap optimis pada tahun 2019 industri sawit Indonesia tetap memiliki prospek yang baik. Hal ini didukung dengan pertumbuhan ekonomi Indonesia yang semakin membaik.

Sesuai dengan kebijakan Pemerintah untuk meningkatkan investasi, meningkatkan ekspor khususnya ke pasar non tradisional, meningkatkan produktivitas nasional dan pengurangan kemiskinan serta kesenjangan ekonomi maka program kerja 2019 akan di fokuskan pada:

1. Melakukan perbaikan iklim usaha dalam negeri melalui advokasi sinkronisasi kebijakan dan regulasi pemerintah;
2. Melakukan advokasi atas berbagai regulasi di daerah;
3. Mendorong percepatan implementasi Sustainability/SPO;
4. Mendorong peningkatan/pengembangan ekspor dan penangangan berbagai hambatan perdagangan di pasar global;
5. Memperluas kampanye positif sawit, baik di dalam negeri maupun di berbagai Negara tujuan ekspor utama.
6. Mendorong dan ikut menukseskan program Replanting atau peremajaan sawit rakyat (PSR) yang dicanangkan oleh pemerintah dengan mendorong para anggota melakukan replanting serta turut aktif membina swadaya melakukan PSR.

Indonesian palm oil industry entrepreneurs, especially IPOA, remain optimistic, that in 2019 the Indonesian palm oil industry will have good prospects. This is supported by Indonesia's improving economic growth.

In accordance with the Government's policy to increase investment, increase exports especially to non-traditional markets, increase national productivity, and reduce poverty and economic inequality, the 2019 work program will focus on:

1. Improving the domestic business climate by advocating government policies and regulations synchronization;
2. Advocating for various regulations in the regions;
3. Encouraging the acceleration of the Sustainability/SPO implementation;
4. Encouraging the increase/development of exports and handling various trade barriers in the global market;
5. Expanding positive palm campaigns, both domestically and in various major export destination countries.
6. Encouraging and participating in the success of the Replanting of palmoil (PSR) program launched by the government by encouraging members to carry out replanting and actively fostering self-help in carrying out PSR.

Dengan memperhatikan berbagai tantangan yang dihadapi pada tahun 2018 serta berbagai langkah yang telah dilakukan, ke depan khususnya implementasi B20 dan ada kemungkinan akselerasi B30 di 2019 maka GAPKI optimis tahun 2019 industri kelapa sawit akan lebih baik dari tahun 2018.

Taking into account the various challenges faced in 2018 and the various steps that have been taken, in the future, the B20 implementation will be particularly specific and there is a possibility of B30 acceleration in 2019. Therefore, IPOA is optimistic that in 2019 the palm oil industry will perform better than in 2018.

Strategi Usaha Business Strategy

BPDPKS melakukan analisis kondisi internal dan eksternal sebagai upaya mengidentifikasi tantangan yang dihadapi dalam melaksanakan pengelolaan Dana Perkebunan Kelapa Sawit (DPKS) dalam 5 tahun ke depan. Tantangan-tantangan tersebut terdiri dari:

- Memastikan terbitnya peraturan-peraturan sebagai landasan untuk memberikan layanan yang prima dalam rangka pencapaian visi dan misi;
- Membangun komitmen dengan para pihak yang memiliki hubungan (termasuk semua pemangku kepentingan) dalam pemungutan biaya, pengalokasian, dan pengelolaan DPKS;
- Menerapkan standar pelayanan yang terukur dengan memperhatikan profesionalisme pelaksanaan tugas dan fungsi;
- Meningkatkan kualitas dan kuantitas sumber daya manusia serta mempersiapkan sistem pemberian *reward* dan *punishment* yang kewenangan dalam pengelolaan DPKS;
- Mengembangkan kebijakan-kebijakan untuk memperkuat dan memperluas kewenangan dalam pengelolaan DPKS;
- Meningkatkan koordinasi sinergi dan membangun kemitraan jangka panjang dengan para pemangku kepentingan dan badan pengelolaan dana sejenis; dan
- Membangun sistem pelaksanaan tugas dan fungsi berbasiskan teknologi.

OPPFMA analyzes the internal and external conditions as an effort to identify challenges faced in managing the Oil Palm Plantation Fund (DPKS) in the next 5 years. These challenges consist of:

- Ensuring the issuance of regulations as a basis for providing excellent service to achieve the vision and mission;
- Building commitments with parties involved (including all stakeholders) in the collection, allocation, and management of DPKS;
- Implementing measurable service standards by taking into account the professionalism in carrying out their duties and functions;
- Improving the quality and quantity of human resources and preparing a reward and punishment system under the authority of DPKS management;
- Developing policies to strengthen and expand authority in managing DPKS;
- Improving synergies and building long-term partnerships with stakeholders and similar fund management bodies; and
- Establishing systems for implementing tasks and functions based on technology.

Strategi usaha BPDPKS dalam rangka menghadapi tantangan dan menangkap peluang pada industri kelapa sawit mengacu pada Rencana Strategis Kementerian Keuangan, Rencana Strategis Kementerian pertanian dan Rencana Strategis Kementerian Perindustrian yang disusun dalam Rencana Strategis Bisnis BPDPKS Tahun 2015-2019. Rencana Strategis BPPDPKS Tahun 2019 yaitu:

- a) Menyiapkan tata kelola, tegulasi eksternal maupun internal (SOP dan *manual*) untuk setiap aktivitas;
- b) Melakukan komunikasi, koordinasi dan kerja sama dengan seluruh *stakeholders*;
- c) Melakukan pemilihan pola investasi dengan hasil pengembalian yang maksimal;
- d) Penggunaan saldo awal mencukupi kebutuhan dana penyaluran;
- e) Mengusulkan kepada Komite Pengarah agar penetapan alokasi dana berdasarkan kebutuhan setiap layanan penyaluran dan bukan berdasarkan proporsi dana.

In order to face challenges and seize opportunities in the palm oil industry, OPPFMA's business strategy refers to the Ministry of Finance's Strategic Plan, the Ministry of Agriculture's Strategic Plan, and the Ministry of Industry's Strategic Plan, formulated in the 2015-2019 OPPFMA's Strategic Business Plan. OPPFMA's 2019 Strategic Business Plans are:

- a) Preparing governance, both external and internal regulation (SOP and manual) for each activity;
- b) Conducting communication, coordination, and cooperation with all stakeholders;
- c) Selecting investment patterns with the maximum return;
- d) Managing initial balance to be sufficient for the fund disbursement;
- e) Proposing to the Steering Committee that the fund allocation is determined based on the needs of each disbursement service, and not based on the proportion of funds.

Tata Kelola BPDPKS OPPFMA'S Corporate Governance

Sebagai wujud tanggungjawab BPDPKS kepada stakeholder maupun Komite Pengarah, BPDPKS senantiasa menerapkan Tata Kelola Badan yang Baik (*Good Governance*) dalam setiap kegiatan usahanya, dalam rangka meningkatkan nilai BPDPKS jangka panjang, baik bagi seluruh *stakeholder* maupun Komite Pengarah

As a form of OPPFMA's responsibility to stakeholders and the Steering Committee, OPPFMA implements Good Governance in every business activity in order to enhance the long-term OPPFMA's value, for all stakeholders and the Steering Committee

Tata Kelola BPDPKS

OPPFMA'S Corporate Governance

Pendahuluan

Introduction

BPDPKS selalu berupaya untuk dapat menerapkan implementasi *Good Governance* pada setiap lini bisnisnya dengan berlandaskan pada prinsip-prinsip *Good Governance* (transparansi, akuntabilitas, kewajaran, independensi dan tanggung jawab) guna mempertahankan eksistensi BPDPKS dalam menghadapi tantangan dan persaingan usaha di masa-masa mendatang.

OPPFMA strives to implement Good Governance in every business line based on the Good Governance principles (transparency, accountability, fairness, independence, and responsibility) in order to maintain the OPPFMA in facing challenges and business competition in the future.

Struktur Tata Kelola BPDPKS

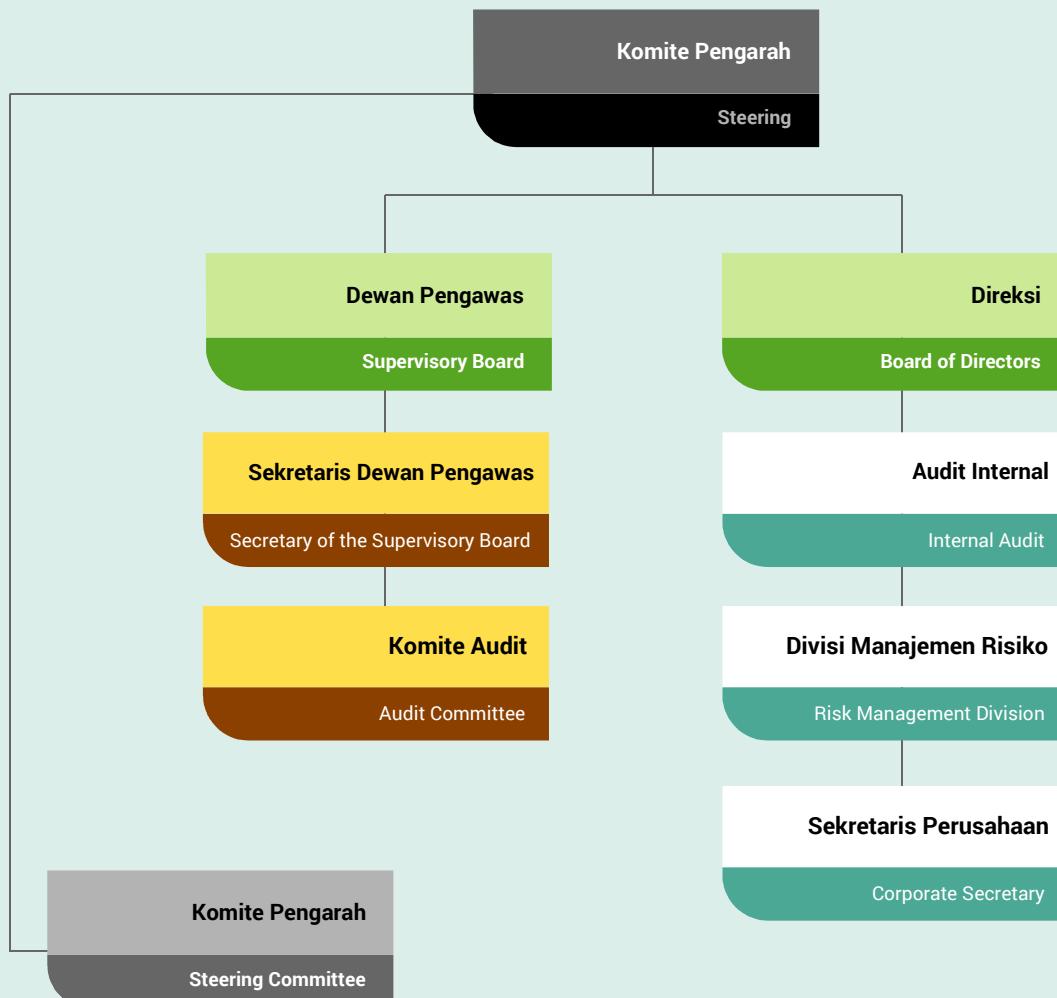

OPPFMA'S Governance Structure

Organ tata kelola BPDPKS dibangun untuk menjamin pelaksanaan prinsip-prinsip tata kelola BPDPKS dapat berjalan dengan efektif dengan peran dan tanggung jawab yang jelas sehingga tercipta mekanisme kontrol check and balance. Untuk membantu pelaksanaan tugas Dewan Pengawas, telah dibentuk satu Komite yaitu Komite Audit dan Sekretaris Dewan Pengawas. Sedangkan organ pendukung Direksi terdiri dari Sekretaris BPDPKS, Divisi Pengawasan Internal Audit, Divisi Manajemen Risiko serta Divisi lainnya.

The OPPFMA's corporate governance is formed to ensure that the implementation of OPPFMA's governance principles shall be done effectively with clear roles and responsibilities to create check and balance control mechanism. To assist the execution of the Supervisory Board's duties, the Audit Committee and the Supervisory Board's Secretary have been established. The Board of Directors' supporting organs consist of the OPPFMA's Secretary, Internal Audit Monitoring, Risk Management, and other Divisions.

Jumlah dan komposisi tersebut telah disesuaikan dengan kebutuhan BPDPKS serta diharapkan dapat melakukan fungsi pengawasan secara efektif, obyektif dan independen serta tidak memiliki benturan kepentingan yang dapat menganggu kemampuannya untuk melaksanakan tugas dan tanggung jawabnya.

The number and composition are adjusted to OPPFMA's needs so that the supervisory activity can be conducted effectively, objectively, and independently, and it does not have conflict of interest that could interfere with the ability to carry out their duties and responsibilities.

Dewan Pengawas Independen dan Independensi Dewan Pengawas Independence of the Supervisory Board and Independent Supervisory Board

Dewan Pengawas Independen merupakan anggota Dewan Pengawas yang tidak memiliki hubungan keuangan, kepengurusan, kepemilikan saham dan/atau hubungan keluarga dengan anggota Dewan Pengawas lainnya dan/atau dengan Komite Pengarah atau hubungan lainnya dengan BPDPKS yang dapat mempengaruhi kemampuannya bertindak independen.

The Independent Supervisory Board is a member of the Supervisory Board that has no financial, management, share ownership and/or familial relationship with other fellow members of the Supervisory Board and/or with the Steering Committee, or other relationship with OPPFMA that may affect his/her ability to act independently.

Keberadaan Dewan Pengawas Independen dimaksudkan untuk menciptakan iklim yang lebih obyektif dan independen, dan juga untuk menjaga "fairness" serta mampu memberikan keseimbangan antara kepentingan berbagai *stakeholder*.

Pada praktiknya BPDPKS telah memiliki Dewan Pengawas Independen yang dijabat oleh Sdr. Joko Supriyono, sehingga Jumlah Pengawas Independen Perusahaan adalah sebanyak 1 (satu) orang dari total jumlah Dewan Pengawas sebanyak 9 orang atau sebesar 11,11% dari jumlah Dewan Pengawas.

Kriteria Dewan Pengawas Independen sebagai berikut:

1. Bukan Anggota Manajemen BPDPKS;
2. Bebas dari hubungan usaha dan hubungan lainnya yang dapat mempengaruhi pengambilan keputusan;
3. Bukan penasihat atau konsultan utama profesional yang material bagi BPDPKS atau perusahaan afiliasi, atau pegawai yang berhubungan langsung dengan penyedia jasa, setidaknya 3 (tiga) tahun sebelum menjadi anggota Dewan Pengawas;
4. Bukan pemasok atau pelanggan utama dari BPDPKS atau perusahaan afiliasi atau pegawai dari/atau yang berhubungan langsung atau tidak langsung dengan pemasok atau pelanggan utama.
5. Tidak memiliki hubungan perjanjian dengan BPDPKS atau perusahaan afiliasi.

The Independent Supervisory Board is intended to create a more objective and independent climate, maintain fairness, and provide balance between the interests of various stakeholders.

In practice, OPPFMA has an Independent Supervisory Board, i.e. Mr. Joko Supriyono. Thus, the Company has one (1) member of Independent Supervisory Board out of nine (9) members of the Supervisory Board, or equal to 11.11% of the Supervisory Board.

Criteria for the Independent Supervisory Board are as follows:

1. Shall not be a Member of OPPFMA's Management;
2. Shall be free from business and other relationships that can influence decision making;
3. Shall not be a professional principal advisor or consultant for OPPFMA or affiliates, or an employee who deals directly with service providers, at least three (3) years before becoming a member of the Supervisory Board;
4. Shall not be a supplier or main customer of OPPFMA or affiliates or an employee of/or who has direct or indirect contact with the main supplier or customer.
5. Shall not have an agreement with OPPFMA or affiliates.

Hubungan Afiliasi dan Kepengurusan di Badan Lain

Affiliation and Management in Other Institutions

Hubungan afiliasi Dewan Pengawas dilihat dari sifat hubungan keluarga, keuangan, kepemilikan saham dan kepengurusan di Badan lain (rangkap jabatan) yang menimbulkan benturan kepentingan

The affiliation of the Supervisory Board is considered in terms of familial, family, financial, share ownership, and management in other institutions (concurrent positions) that may lead to a conflict of interest.

Penilaian Kinerja Dewan Pengawas

Supervisory Board's Performance Assessment

Sejalan dengan Keputusan Menteri Keuangan Nomor 714/ KMK.05/ 2015 tanggal 26 Juni 2015 Dewan Pengawas melaporkan pelaksanaan tugasnya kepada Menteri Perindustrian dan Menteri Keuangan secara berkala paling sedikit 1 (satu) kali dalam satu semester dan sewaktu-waktu apabila diperlukan. Selama tahun 2018, Dewan Pengawas telah menyusun Laporan Tugas Pengawasan Tahunan 2018.

In line with the Minister of Finance's Decree No. 714/KMK.05/2015 dated 26 June 2015, the Supervisory Board reports directly to the Minister of Industry and the Minister of Finance periodically, at least once in one semester, and at any time if deemed necessary. During 2018, the Supervisory Board has prepared the 2018 Annual Supervisory Task Report.

Laporan Pelaksanaan Tugas dan Tanggungjawab Dewan Pengawas Tahun Buku 2018

Report on the Implementation of Duties and Responsibilities of the Supervisory Board for Fiscal Year 2018

Dewan Pengawas BPDPKS secara proaktif melakukan pengawasan dan memberikan masukan kepada Direksi. Pengawasan dilakukan secara langsung termasuk memantau tindak lanjut atas rekomendasi Dewan Pengawas kepada Direksi. Selama tahun 2018, Dewan Pengawas BPDPKS telah melakukan fungsi, tugas, peran dan tanggung jawabnya sebagai berikut:

- Rapat Bulanan Dewan Pengawas dengan Direksi
- Rapat Dewan Pengawas dengan Direksi dilaksanakan secara rutin setiap bulan.

OPPFMA's Supervisory Board proactively supervises and provides advice to the Board of Directors. Supervision is carried out directly, including monitoring the follow-up on the recommendations of the Supervisory Board to the Board of Directors. In 2018, OPPFMA's Supervisory Board has carried out its functions, duties, roles, and responsibilities as follows:

- Monthly Meeting of the Supervisory Board and the Board of Directors
- Meeting of the Supervisory Board with the Board of Directors is held regularly every month.

Dalam rapat bulanan tersebut umumnya dibahas tindak lanjut arahan Komite Pengarah, pencapaian target indikator kinerja utama, program-program yang belum berjalan/belum optimal seperti program peremajaan kebun kelapa sawit, program bantuan sarana dan prasarana, temuan audit auditor eksternal seperti BPK RI dan Kantor Akuntan Publik serta monitoring atas tindak lanjut temuan tersebut juga aspek tata kelola yang membutuhkan perbaikan baik terkait struktur dan pengisian jabatan anggota Direksi maupun *Standard Operational Procedure* (SOP). Sebelum rapat dengan Direksi, Dewan Pengawas mengadakan rapat internal yang dihadiri oleh Komite Audit yang sebelumnya mengadakan rapat dengan manajemen untuk membahas laporan kinerja operasional dan laporan kinerja keuangan serta hal-hal yang material lainnya untuk disampaikan kepada Dewan Pengawas.

- Rapat Dewan Pengawas di Luar Rapat Bulanan
- Selain rapat rutin setiap bulan, Dewan Pengawas juga mengadakan rapat untuk memfasilitasi dan mendorong pencapaian program-program tertentu. Beberapa hal yang dibahas antara lain upaya sinkronisasi data bea cukai dengan data surveyor terkait pungutan eksport CPO, persiapan perubahan kebijakan B20 menjadi B30 serta perubahan kebijakan terkait pungutan eksport CPO.
- Pemantauan dan tinjauan lapangan serta partisipasi pada kegiatan BPDPKS dalam rangka melakukan pengawasan dan pembinaan atas pelaksanaan tugas pejabat pengelola maka untuk kegiatan tertentu yang dilakukan BPDPKS, Ketua dan atau anggota Dewan Pengawas juga melakukan peninjauan dan evaluasi ke lapangan, seperti mengikuti kegiatan *launching* program peremajaan kebun kelapa sawit, kegiatan kemitraan, sosialisasi sawit, serta sebagai nara sumber dalam pembentukan forum kelapa sawit berkelanjutan dan penyusunan rencana aksi provinsi. Dewan Pengawas juga berpartisipasi dalam promosi sawit di dalam dan beberapa di luar negeri, seperti mengikuti kegiatan ke Pakistan dan India serta ikut sebagai bagian dari delegasi Indonesia pada Kunjungan Kerja Menteri Perdagangan ke Swiss dalam rangka negosiasi Indonesia *European Free Trade Association* (EFTA) - *Comprehensive Economic Partnership Agreement* (CEPA).

The monthly meeting discusses the follow-up of the Steering Committee's directives, the achievement of the key performance indicator targets, programs that were not yet running/not optimal, such as the palm oil plantation replanting program, facilities and infrastructure programs, external auditor's audit findings, such as BPK RI and the Public Accountant Office, as well as monitoring of the follow-up of the findings. The meeting also discusses aspects of governance that require improvements, both related to the structure and filling the positions of members of the Board of Directors, as well as standard operating procedures (SOP). Before the meeting with the Board of Directors, the Supervisory Board held an internal meeting that was attended by the Audit Committee. Prior to that, the Audit Committee held a meeting with management to discuss operational performance reports and financial statements, as well as other material matters to be submitted to the Supervisory Board.

- Additional Supervisory Board's Meeting
- In addition to regular monthly meetings, the Supervisory Board also holds meetings to facilitate and encourage the achievement of certain programs. Several matters that were discussed include efforts to synchronize customs data with surveyor data related to CPO export duties, preparations to amend B20 to B30 policies, and changes in policies related to CPO export duties.
- Monitoring and site visitation, as well as participation in OPPFMA's activities in terms of conducting supervision and fostering the duties of the Management Officers are important. Thus, for certain OPPFMA's activities, the Chairman and/or members of the Supervisory Board conduct a review and evaluation to the field, such as attending the launching of the palm oil plantation replantation program, partnership activities, palm oil socialization, as well as being the speaker in the establishment of sustainable palm oil forums and the preparation of provincial action plans. The Supervisory Board also participates in the promotion of palm oil domestically and abroad, by participating in activities to Pakistan and India, and being the Indonesian delegation during the Minister of Trade's Working Visit to Switzerland to negotiate the European Free Trade Association (EFTA) - Comprehensive Economic Partnership Agreement (CEPA) for Indonesia.

Direksi BPDPKS telah mengikuti kegiatan pelatihan dan seminar untuk meningkatkan kompetensi selama tahun 2018 sebagaimana telah dijelaskan pada Bab Profil uraian Pendidikan dan/atau pelatihan Dewan Pengawas, Direksi, Komite-komite, Kepala Divisi Perusahaan, Unit Audit Internal dan Unit/Divisi Manajemen Risiko.

OPPFMA facilitates competency development for the Board of Directors to enhance development and competence through activities in the form of training and seminars. The OPPFMA's Board of Directors has participated in training activities and seminars to improve competence during 2018, as explained in the Profile, Education and/or Training of the Supervisory Board, Board of Directors, Committees, Heads of Corporate Divisions, Internal Audit Unit, and Risk Management Unit/Division.

Kebijakan Remunerasi Dewan Pengawas dan Direksi

Remuneration Policy of the Supervisory Board and Board of Directors

BPDPKS dalam menentukan Remunerasi Bagi Dewan Pengawas dan Direksi mengacu pada Salinan Peraturan Menteri Keuangan No.10/PMK.02/2006 tentang Pedoman Penetapan Remunerasi bagi Pejabat Pengelola Dewan Pengawas dan Pegawai Badan Layanan Umum tanggal 16 Februari 2006.

In determining remuneration for the Supervisory Board and Board of Directors, OPPFMA refers to the Minister of Finance Regulation No. 10/PMK.02/2006 on the Remuneration Determination for Managing Officers, Supervisory Board, and Employees of Public Service Agencies dated 16 February 2006.

Besaran remunerasi untuk Dewan Pengawas dan Direksi diusulkan oleh Menteri/Pimpinan Lembaga kepada Menteri Keuangan cq. Direktur Jenderal Anggaran dan Perimbangan Keuangan yang selanjutnya Menteri Keuangan menetapkan Peraturan Menteri Keuangan mengenai besaran remunerasi untuk Dewan Pengawas dan Direksi.

The amount of remuneration for the Supervisory Board and Board of Directors is proposed by the Minister/Institution Chairman to the Minister of Finance cq. Director General of Budget and Fiscal Balance. Afterward, the Minister of Finance shall stipulate Minister of Finance Regulation on the amount of remuneration for the Supervisory Board and the Board of Directors.

Kebijakan Keberagaman Komposisi Dewan Pengawas dan Direksi

Diversity Policy for The Composition of The Supervisory Board and Board of Directors

Anggota Dewan Pengawas dan anggota Direksi BPDPKS diangkat dengan pertimbangan aspek keberagaman pendidikan, pengalaman kerja, gender, usia dan keahlian. Sampai dengan tahun 31 Desember 2018, BPDPKS belum memiliki kebijakan keberagaman Dewan Pengawas dan Direksi secara khusus karena penetapan Dewan Pengawas dan Direksi menjadi hak mutlak Kementerian. Komposisi Dewan Pengawas dan Direksi harus memungkinkan pengambilan keputusan secara efektif, tepat dan cepat, serta dapat bertindak independen.

Members of BPDPKS's Supervisory Board and Board of Directors are appointed with consideration for diversity in education, work experience, gender, age, and expertise. As of 31 December 2018, BPDPKS did not yet have a policy on diversity of the Supervisory Board and the Board of Directors specifically, because the establishment of the Supervisory Board and the Board of Directors was an absolute right of the Ministry. The composition of the Supervisory Board and the Board of Directors must enable effective, appropriate, and quick decision making, and the ability to act independently.

Selain itu, Komposisi anggota Dewan Pengawas BPDPKS yang berjumlah sembilan orang berasal dari unsur pejabat Kementerian Negara/Lembaga/Dewan Kawasan dan satu orang berasal dari unsur tenaga ahli sebagaimana diatur dalam Peraturan Menteri Keuangan Nomor 95/PMK.05/2016 Tentang Dewan Pengawas Badan Layanan Umum.

In addition, the Composition of the members of OPPFMA's Supervisory Board consists of nine people from the State Ministry/Institution/Regional Council officials; and one from the expert element as regulated in the Minister of Finance Regulation No. 95/PMK.05/2016 on the Supervisory Board of the Public Service Agencies.

Komposisi Dewan Pengawas dan Direksi yang beragam diharapkan dapat memberikan alternatif pemecahan masalah dan mendorong pengambilan keputusan yang lebih objektif dan komprehensif. Oleh karena itu, diperlukan pendekatan dari berbagai bidang keilmuan dan kompetensi yang dimiliki oleh masing-masing anggota Dewan Pengawas dan Direksi agar paradigma dalam pengambilan keputusan menjadi lebih luas. Keberagaman komposisi Dewan Pengawas dan Direksi BPDPKS telah mempertimbangkan unsur keberagaman dari sisi pendidikan, keahlian, pengalaman kerja, jenis kelamin dan usia. Keberagaman komposisi Dewan Komisaris dan Direksi BPDPKS Tahun 2018 dijelaskan pada tabel sebagai berikut:

Keberagaman Komposisi Dewan Pengawas **Diversity of the Supervisory Board**

The diverse composition of the Supervisory Board and Board of Directors is expected to provide alternative solutions to problems and encourage more objective and comprehensive decision making. Therefore, various scientific fields approach is necessary based on the competencies of each member of the Supervisory Board and Board of Directors to make decision in a broader sense. The diversity of the composition of OPPFMA's Supervisory Board and Board of Directors has taken into account the diversity element in education, expertise, work experience, gender, and age. The diversity of the Board of Commissioners and Board of Directors composition of OPPFMA is as follows:

Realisasi Program Kerja Divisi Manajemen Risiko **Realization of the Risk Management Work Program**

Selama tahun 2018, Divisi Manajemen Risiko telah melakukan tugas dan tanggung jawabnya sesuai dengan program kerja yang direncanakan. Realisasi atas Program Kerja Divisi Kepatuhan dan Manajemen Risiko adalah sebagai berikut:

- Membuat Profil Risiko sesuai ketentuan Kementerian Keuangan, Peraturan Direktur Utama (manajemen) dan Peraturan Direktorat masing-masing sesuai sasaran pada kontrak kerja;
- Meningkatkan budaya risiko pada seluruh Direktorat di BPDPKS dengan melakukan Peningkatan *Capacity Building* Karyawan khusus Divisi Kepatuhan dan Manajemen Risiko;
- Melakukan monitoring atas kinerja seluruh Direktorat pada sasaran kinerja profil risiko;
- Melakukan kajian atas kinerja masing-masing Direktorat sesuai sasaran yang telah ditetapkan pada Profil Risiko;
- Monitoring semua kegiatan divisi melalui kajian-kajian, sehingga dapat meminimalisir temuan-temuan BPK, Itjen dan Pembina Teknis;
- Progress pengajuan Komite Pemantau Risiko;
- Progress pengajuan Aplikasi Manajemen Risiko.

During 2018, Risk Management has carried out its duties and responsibilities in accordance with the planned work program. Realization of the Work Program for Compliance and Risk Management Division is as follows:

- Regulations of the President Director (management), and Regulations of each Directorate according to the targets in the work contract;
- Improving risk culture in all OPPFMA's Directorates by Capacity Building for employees, especially in the Compliance and Risk Management Division;
- Monitoring the performance of all Directorates on the risk profile performance targets;
- Reviewing the performance of each Directorate in accordance with the predetermined targets in the Risk Profile;
- Monitoring all divisions' activities through review to minimize findings of BPK, the Inspector General, and the Technical Advisor;
- Submission progress of the Risk Monitoring Committee;
- Submission progress of the Risk Management Application.

Profil-Profil Risiko BPDPKS dan Mitigasi Risiko

OPPFMA's Risk Profiles and Mitigation

Pada tahun 2018, Divisi Kepatuhan dan Manajemen Risiko BPDPKS memfokuskan pengelolaan kualitas perbaikan dan mitigasi dari profil risiko tahun 2018 yang mengakibatkan potensi risiko-risiko yang bisa merugikan BPDPKS baik di bidang Keuangan, Kebijakan, Kepatuhan, Fraud, Operasional dan Reputasi. Jenis risiko (Profil Risiko) yang dihadapi Badan dan Upaya Pengelolaan Risiko (mitigasi) dapat dilihat pada tabel berikut:

In 2018, OPPFMA's Compliance and Risk Management focused on managing the quality of improvements and mitigation of the 2018 risk profile, which resulted in potential risks that could harm OPPFMA in Finance, Policy, Compliance, Fraud, Operations, and Reputation. Sistem Pengendalian Internal

Internal Control

Sistem Pengendalian Intern merupakan suatu mekanisme proses pengawasan yang ditetapkan oleh Manajemen BPDPKS secara berkesinambungan (*on going basis*) yang kualitas desain dan pelaksanaannya dipengaruhi oleh Dewan Pengawas, Direksi serta seluruh pejabat dan Pegawai BPDPKS.

The Internal Control System is a monitoring process mechanism established by the OPPFMA's Management on an ongoing basis. The quality of design and implementation is influenced by the Supervisory Board, Board of Directors, and all OPPFMA's officials and Employees.

Penerapan sistem pengendalian internal yang dilakukan oleh BPDPKS mengacu pada Peraturan Pemerintah Republik Indonesia Nomor 60 Tahun 2008 tentang Sistem Pengendalian Intern Pemerintah Pasal 53. Sistem Pengendalian Internal merupakan serangkaian proses pengendalian terhadap kegiatan BPDPKS pada setiap tingkat dan unit dalam struktur organisasi.

Sistem Pengendalian Internal yang efektif merupakan komponen penting dalam manajemen BPDPKS dan menjadi dasar bagi kegiatan operasional yang sehat dan aman.

The internal control system carried out by OPPFMA refers to Government Regulation of the Republic of Indonesia No. 60 of 2008 on the Government's Internal Control System Article 53. The Internal Control System is a series of control processes for OPPFMA's activities at every level and unit in the organizational structure.

An effective Internal Control System is an important component in OPPFMA's management and forms the basis for healthy and safe operations.

Sistem Pengendalian Internal yang efektif dapat membantu menjaga aset BPDPKS, menjamin tersedianya pelaporan keuangan dan managerial yang dapat dipercaya, meningkatkan kepatuhan BPDPKS terhadap ketentuan dan peraturan perundang-undangan yang berlaku, serta mengurangi risiko terjadinya kerugian, penyimpangan dan pelanggaran aspek kehati-hatian. Dalam upaya meningkatkan kepatuhan Perusahaan terhadap ketentuan dan peraturan perundang-undangan yang berlaku. Satuan Pemeriksa Internal berupaya untuk memastikan bahwa kebijakan, keputusan BPDPKS dan seluruh aktivitas bisnis dilakukan sesuai dengan ketentuan hukum dan peraturan perundang-undangan yang berlaku.

Direksi BPDPKS menerapkan sistem pengendalian internal melalui penerapan kebijakan dan prosedur secara konsisten, baik terkait dengan kegiatan usaha BPDPKS, manajemen risiko, perencanaan strategis yang akurat, pembagian tugas dan pendeklegasian wewenang yang jelas, serta kebijakan akuntansi yang memadai. Sedangkan Dewan Pengawas mengawasi kecukupan dan kewajaran dalam penyusunan laporan keuangan, pengelolaan risiko dengan memperhatikan prinsip kehati-hatian yang dibantu oleh Komite Audit.

Sejalan dengan penerapan Sistem Pengendalian Internal yang efektif, BPDPKS memiliki Fungsi Internal Audit sebagai bagian yang tidak terpisahkan dalam pengendalian Internal Audit secara keseluruhan. Konsep Sistem Pengendalian Internal sejalan dengan kerangka Sistem Pengendalian Internal dari *Committee of Sponsoring Organizations of the Treadway Commission* COSO dimana di dalamnya terdiri dari lima elemen utama yang satu sama lain saling berkaitan, yaitu:

1. Lingkungan Pengendalian

Lingkungan pengendalian yang efektif diperlukan dalam mendukung seluruh organ BPDPKS dapat menjalankan semua aktivitasnya, mengerti mengenai tugas dan tanggung jawab, memiliki pengetahuan yang memadai dan mengerti serta berkomitmen untuk melakukan aktivitas yang benar dengan cara yang benar.

An effective Internal Control System safeguards OPPFMA's assets, ensure the availability of reliable financial and managerial reporting, increase OPPFMA's compliance with prevailing laws and regulations, and reduce the risk of loss, deviation, and breach of prudential aspects. Effective Internal Control System improves the Company's compliance with the prevailing rules and regulations. The Internal Audit Unit strives to ensure that OPPFMA's policies, decisions, and all business activities are carried out in accordance with applicable laws and regulations.

The OPPFMA's Board of Directors applies the internal control system through consistent implementation of policy and procedures, in relation to OPPFMA's business activity, risk management, strategic planning, segregation of duties, and clear authority delegation, as well as adequate accounting policy. Whereas the Supervisory Board, assisted by the Audit Committee, monitors the adequacy and fairness in the preparation of financial statements, risk management, by taking into account the prudential principles.

In line with the effective implementation of the Internal Control System, OPPFMA has an Internal Audit Function as an integral part of Internal Audit control. The Internal Control System is in line with the COSO (Committee of Sponsoring Organizations of the Treadway Commission) framework, which consists of interrelated five main elements:

1. Control Environment

An effective control environment is necessary for supporting all OPPFMA's organs, to be able to carry out all their activities, understand their duties and responsibilities, have adequate knowledge and understanding, and commit to doing the right activities in the right way.

Lingkungan pengendalian BPDPKS tergambaran secara jelas melalui pembentukan Struktur Organisasi yang menggambarkan pemisahan fungsi dan tugas dari masing-masing organ.

OPPFMA's control environment is clearly illustrated through the establishment of an Organizational Structure that depicts the segregation of duties of each organ.

2. Identifikasi dan Penilaian Risiko

Identifikasi dan penilaian risiko merupakan proses identifikasi dan analisa risiko yang relevan terkait pencapaian tujuan PDPKS dan menentukan respon yang tepat dalam menghilangkan, meminimalisasi, atau menentukan risiko yang dapat diterima. Pada tahun 2017 BPDPKS telah melakukan pengelolaan manajemen risiko. Sistem Pengendalian Internal yang efektif mengharuskan BPDPKS secara terus menerus mengidentifikasi dan menilai risiko yang dapat mempengaruhi pencapaian sasaran. Penilaian risiko harus dilakukan oleh auditor intern melalui cakupan audit yang dilakukan lebih luas dan menyeluruh. (Dapat dilihat pada Bab Tata Kelola BPDPKS bagian Manajemen Risiko pada Laporan Tahunan ini).

2. Risk Assessment and Identification

Risk assessment and identification is the process of identifying and analyzing relevant risks related to achieving the objectives of OPPFMA and determining the appropriate response in eliminating, minimizing, or determining the acceptable risk. In 2017, OPPFMA has carried out risk management. An effective Internal Control System requires OPPFMA to continuously identify and assess risks that can affect the achievement of targets. Risk assessments must be carried out by internal auditors through a wider and more comprehensive audit scope. (Can be seen in detail in OPPFMA's Governance in the Risk Management section of this Annual Report).

3. Kegiatan Pengendalian

Dalam rangka menciptakan pengendalian yang efektif BPDPKS melibatkan seluruh pegawai termasuk Direksi dalam kegiatan BPDPKS sehari-hari dan risiko yang telah teridentifikasi serta memiliki kebijakan dan prosedur pengendalian serta dilakukan proses verifikasi lebih dini untuk memastikan kebijakan dan prosedur secara konsisten dipatuhi. Kegiatan pengendalian BPDPKS meliputi kebijakan, prosedur dan praktik yang memberi keyakinan pegawai BPDPKS bahwa arahan Dewan Pengawas dan Direksi BPDPKS secara efektif.

3. Control Activities

In creating effective control, OPPFMA involves all OPPFMA's personnel, including the Directors in the daily activities, identifies risks, and has control policies and procedures as well as an early verification process to ensure policies and procedures are consistently adhered to. OPPFMA control activities include policies, procedures, and practices that provide confidence to the OPPFMA's employees that the directives from the Supervisory Board and the Board of Directors are effective.

4. Informasi dan Komunikasi

Komunikasi atas informasi telah dilakukan secara efektif baik dalam komunikasi di lingkungan BPDPKS maupun komunikasi dengan pihak luar yang terkait dalam program, proyek, dan kegiatan lainnya termasuk penganggaran. Tahun 2017, BPDPKS telah melakukan forum komunikasi internal antara lain melalui Rapat Dewan Pengawas, Rapat Direksi, Rapat Komite Audit, Rapat Manajemen dan rapat-rapat lainnya atau melalui pelaporan formal.

4. Information and Communication

Communication of information has been carried out effectively both within the OPPFMA environment and outside parties involved in programs, projects, and other activities, including budgeting. In 2017, OPPFMA held an internal communication forum, through the Supervisory Board's Meeting, Board of Directors' Meeting, Audit Committee's Meeting, Management Meeting, and other meetings, or through formal reporting.

5. Pemantauan

Pemantauan dilakukan untuk mengetahui bahwa sistem pengendalian intern telah dilakukan sebagaimana yang telah direncanakan dan kelemahan-kelemahan yang telah diidentifikasi sudah dibuatkan rencana perbaikan. BPDPKS melakukan monitoring secara terus menerus terhadap efektivitas keseluruhan pelaksanaan pengendalian internal. Monitoring dilakukan terhadap seluruh fungsi yang merupakan bagian dari kegiatan operasional BPDPKS. Proses monitoring ini dilakukan oleh Fungsi Internal Audit yang dilaksanakan melalui kegiatan Audit maupun kegiatan Non Audit. Pelaksanaan monitoring selain dilakukan oleh Fungsi Internal Audit, dapat juga dilakukan oleh KAP yang ditunjuk dan ditetapkan oleh BPDPKS, serta juga dapat dilakukan oleh lembaga tertentu sesuai dengan peraturan perundang-undangan yang berlaku.

5. Monitoring

Monitoring is carried out to assess that the internal control system has been carried out as planned and that identified weaknesses have been planned to be improved. OPPFMA continuously monitors the effectiveness of internal control. Monitoring is carried out on all functions that are part of OPPFMA's operations. This monitoring process is carried out by the Internal Audit Function, which is carried out through Audit activities and Non-Audit activities. Monitoring is carried out not only by the Internal Audit Function, but also by KAP appointed and determined by OPPFMA. Monitoring can also be carried out by certain institutions in accordance with prevailing regulations.

Kode Etik BPDPKS

OPPFMA's Code of Conduct

Kode Etik BPDPKS terdiri dari Etika Bisnis dan Etika Kerja yang merupakan tanggung jawab seluruh manajemen BPDPKS mencakup pegawai, Direksi, Dewan Pengawas dan Komite di bawah Dewan Pengawas untuk bertingkah laku sesuai dengan budaya BPDPKS.

OPPFMA's Code of Conduct consists of Business Ethics and Work Ethics, as the responsibility of all OPPFMA's management, which includes employees, the Board of Directors, the Supervisory Board, and Committees reporting directly to the Supervisory Board, to behave in accordance with OPPFMA's culture.

Dalam menjalankan usahanya, BPDPKS menerapkan etika bisnis/usaha dan etika kerja, dimana etika bisnis menjadi acuan bagi BPDPKS dalam melaksanakan kegiatan usaha termasuk berinteraksi dengan *stakeholder*. Sementara etika kerja merupakan sistem yang dianut oleh setiap Pimpinan dan Pegawai dalam melaksanakan tugasnya termasuk etika hubungan antar Pegawai dan BPDPKS.

Penerapan Etika Bisnis dan Etika Kerja secara konsisten diharapkan dapat meningkatkan sikap disiplin Pegawai serta dapat mendorong terwujudnya perilaku yang profesional, bertanggungjawab, wajar, patut dan dipercaya dalam melakukan hubungan bisnis dengan rekan sekerja maupun para mitra kerja.

In conducting its business, OPPFMA applies business and work ethics, in which business ethics become references for OPPFMA in carrying out business activities, including interacting with stakeholders. Work ethic is a system adopted by every Leader and Employee in carrying out their duties, including the relations between employees and OPPFMA.

The consistent implementation of Business and Work Ethics is expected to increase employees' discipline and encourage professional, responsible, reasonable, appropriate, and trustworthy conduct in engaging the colleagues and partners in conducting business.

Kode Etik BPDPKS OPPFMA's Code of Conduct

Kode Etik menuntun pegawai dalam bersikap dan berperilaku. Pegawai dapat dikenakan sanksi moral apabila melanggar kode etik yang penyampaiannya dilakukan secara tertutup atau terbuka. Untuk itu telah ditetapkan Keputusan Menteri Keuangan No.293/KMK.01/2007 Tentang Pendeklegasian Wewenang Kepada Para Pejabat di lingkungan Kementerian Keuangan Untuk Memberikan Sanksi Moral Atas Pelanggaran Kode Etik Pegawai Negeri Sipil di lingkungan Kementerian Keuangan termasuk di dalamnya BPDPKS. Selama tahun 2018, tidak terdapat pelanggaran kode etik, sehingga tidak ada informasi sanksi yang diberikan.

Dalam menjalankan tugas dan tanggungjawabnya, Insan BPDPKS berlandaskan pada nilai-nilai dan budaya BPDPKS yaitu: Integritas, Profesionalisme, Sinergi, Pelayanan dan Kesempurnaan. Uraian lebih lengkap mengenai Budaya BPDPKS telah diuraikan pada Bab Profil BPDPKS bagian Nilai-Nilai dan Budaya BPDPKS.

Dalam rangka penegakan kode etik, BPDPKS membangun budaya kepatuhan di seluruh lini organisasi dengan melakukan sosialisasi Nilai-Nilai Budaya BPDPKS pada Pegawai BPDPKS melalui acara-acara besar BPDPKS seperti *Employee Gathering* yang secara rutin dilakukan oleh BPDPKS dalam rangka membangun menambah semangat dan kekompakkan dalam berkerja.

The Code of Conduct guides how employees behave. Employees may be subject to moral sanctions if they violate a code of conduct openly or confidentially. Therefore, the Ministry of Finance stipulated the Minister of Finance's Decree No.293/KMK.01/2007 on the Delegation of Authority to Officials within the Ministry of Finance to Impose Moral Sanctions for Violations of the Civil Servants to the Code of Conduct within the Ministry of Finance including OPPFMA. During 2018, there were no violations of the code of conduct. Thus, there was no information related to sanctions.

In carrying out their duties and responsibilities, OPPFMA's Personnel has OPPFMA's values and culture as the basis: Integrity, Professionalism, Synergy, Service, and Perfection. Description of OPPFMA's Culture has been detailed in the OPPFMA's Profile in the OPPFMA's Values and Culture section.

In terms of upholding the code of conduct, OPPFMA develops a culture of compliance across all levels of the organization by disseminating OPPFMA's Cultural Values to the Employees through major events, such as Employee Gathering, which is regularly carried out by OPPFMA to build more enthusiasm and solidarity in work.

Perkara Hukum

Legal Cases

Perkara penting yang dimaksud adalah permasalahan hukum yang sedang dihadapi oleh BPDPKS, serta anggota Dewan Pengawas dan anggota Direksi yang menjabat. BPDPKS berupaya meminimalisir potensi munculnya permasalahan hukum serta menyelesaikan setiap permasalahan hukum yang dihadapi BPDPKS.

Berikut perkara yang dihadapi oleh BPDPKS, Dewan Pengawas dan Direksi baik pidana maupun perdata selama tahun 2016 sampai 2018:

Important cases are defined as the litigation case faced by OPPFMA, as well as member the Supervisory Board and the Board of Directors. OPPFMA strives to minimize the potential for any legal problems and resolve any legal problems faced by OPPFMA.

The cases faced by the OPPFMA, the Supervisory Board, and the Board of Directors, for both criminal and civil cases during 2016-2018:

Sistem Pelaporan Pelanggaran

Whistleblowing Reporting Mechanism

Salah satu perwujudan dari komitmen BPDPKS dalam upaya pengendalian internal adalah dijalankannya kebijakan mengenai sistem pelaporan pelanggaran (*Whistleblowing system*). Sistem pelaporan pelanggaran BPDPKS mengacu pada *Whistleblowing System* Kementerian Keuangan. *Whistleblowing System* Kementerian Keuangan adalah aplikasi yang disediakan oleh Kementerian Keuangan bagi individu yang memiliki informasi dan ingin melaporkan suatu perbuatan berindikasi pelanggaran yang terjadi di lingkungan Kementerian Keuangan Republik Indonesia.

One manifestation of OPPFMA's commitment to internal control is the Whistleblowing system policy implementation. OPPFMA's violation reporting system refers to the Ministry of Finance's Whistleblowing System. The Ministry of Finance's Whistleblowing System is an application provided by the Ministry of Finance for individuals who have information and want to report an act that indicates violations that occur within the Ministry of Finance of the Republic of Indonesia.

Sistem pelaporan pelanggaran adalah sistem yang mengelola pengaduan, penyingkapan mengenai korupsi, kecurangan (*fraud*), pencurian, menuap dan atau menerima suap, gratifikasi, benturan kepentingan, pembocoran rahasia BPDPKS, pelanggaran etika, penggelapan aset, penipuan, pemerasan, tindakan melanggar hukum dan kebijakan prosedur perilaku melawan hukum, perbuatan tidak etis/tidak semestinya secara rahasia, anonim dan mandiri yang digunakan untuk mengoptimalkan peran serta Insan BPDPKS dan pihak lainnya dalam mengungkapkan pelanggaran yang terjadi di lingkungan BPDPKS.

Pelapor dapat melaporkan pelanggaran yang terjadi melalui alamat:

Sistem Pelaporan Pelanggaran Whistleblowing Reporting Mechanism

Perlindungan Bagi Pelapor Whistleblower's Protection

Proses tindak lanjut atas setiap pengaduan/penyikapan wajib mengedepankan kerahasiaan, asas praduga tidak bersalah dan profesionalisme, oleh karenanya BPDPKS mengatur kebijakan perlindungan terhadap pelapor yang meliputi aspek sebagai berikut:

1. Menjamin perlindungan kerahasiaan atas identitas dari pelapor dan akan menggunakan berbagai cara untuk menjaga kerahasiaan identitas pelapor. Hal ini dimaksudkan untuk mendorong pelaporan pelanggaran yang terjadi di BPDPKS dan menjamin keamanan pelapor maupun keluarganya.
2. Semua laporan pelanggaran akan dijamin kerahasiaan dan keamanannya oleh BPDPKS. Bila pelapor menyertakan identitasnya secara jelas ia juga dijamin haknya untuk memperoleh informasi mengenai tindak lanjut atas laporannya. Hal ini sebagai bukti komitmen BPDPKS dalam melindungi pelapor.
3. Perlindungan catatan yang merugikan dalam file data pribadinya
4. Pemecatan yang dilakukan secara tidak adil;
5. Penurunan jabatan atau pangkat;
6. Pelecehan atau diskriminasi dalam segala bentuk;
7. Catatan yang merugikan dalam dokumen data pribadi pelapor (*personal file record*).

Selain itu, mengacu pada Pasal 5 PP No.57 tahun 2003 tentang Tata Cara Perlindungan Khusus bagi Pelapor dan Saksi dalam Tindak Pidana Pencucian Uang, perlindungan diberikan kepada pelapor berupa:

1. Perlindungan dari tuntutan pidana dan/atau perdata.
2. Perlindungan atas keamanan pribadi, dan/atau keluarga Pelapor dari ancaman fisik dan/atau mental.
3. Perlindungan terhadap harta Pelapor.
4. Perahasiaan dan penyamaran identitas Pelapor.
5. Pemberian keterangan tanpa bertatap.

Pelapor juga dapat meminta bantuan pada Lembaga Perlindungan Saksi dan Korban (LPSK), sesuai UU No.13 tahun 2006.

The follow-up process for each complaint prioritizes confidentiality, the presumption of innocence, and professionalism. Therefore, OPPFMA regulates the whistleblower's protection policy, which includes the following aspects:

1. Ensuring the confidentiality of the whistleblower's identity and use various methods to maintain the said confidentiality. This is carried out to encourage reporting of violations that occur at OPPFMA and ensure the safety of the whistleblower and the whistleblower's family.
2. All reports of violations will be confidential and secure, guaranteed by OPPFMA. If the whistleblower provides his clear identity, he has the right to obtain information about the follow-up to his report. This is OPPFMA's commitment to protecting the whistleblower.
3. Protection of adverse records in his personal data file
4. Firing the whistleblower unfairly;
5. Demotion of rank;
6. Harassment or discrimination in all forms;
7. An adverse record in the personal file record of the whistleblower.

In addition, referring to Article 5 PP No. 57 of 2003 on the Special Protection Procedures for Whistleblower and Witnesses in the Criminal Act of Money Laundering, protection is provided to the whistleblower in the form of:

1. Protection from criminal and/or civil charges.
2. Protection for the whistleblower and/or whistleblower's family from physical and/or mental threats.
3. Protection of Whistleblower's assets.
4. Confidentiality and disguising the Whistleblower's identity.
5. Provision of information without having to meet.

Whistleblower can also request assistance from the Witness and Victim Protection Agency (LPSK), in accordance with Law No. 13 of 2006.

Kebijakan perlindungan dan jaminan kerahasiaan tidak diberikan kepada Pelapor yang terbukti melakukan pelaporan palsu dan/atau fitnah. Apabila hasil investigasi menyimpulkan Pelaporan Pelanggaran yang disampaikan merupakan laporan palsu, fitnah, tanpa dasar yang jelas, maka Pelapor dapat digugat balik atau dikenai sanksi sesuai dengan peraturan perundang-undangan yang berlaku atau peraturan internal BPDPKS.

Protection and confidentiality policy is not provided for Whistleblowers who are proven to provide false information. If the investigation concludes that the Whistleblower's Report is false, without a clear basis, then the Whistleblower may be sued back or subject to sanctions in accordance with the applicable laws and regulations or internal regulations of OPPFMA.

Pihak Pengelola Pengaduan **Reporting Management**

Pengelolaan pelaporan tindak kejahatan dan pelanggaran ditangani oleh unit yang telah ditunjuk dan Deloitte sebagai mitra BPDPKS dalam menerapkan Sistem Pelaporan Pelanggaran.

Management of crime and violation reporting is handled by the designated unit and Deloitte as OPPFMA's partner in implementing the Whistleblowing System.

Pelaksanaan Penanganan Pengaduan **Complaint Handling**

Selama tahun 2018, tidak terdapat pelaporan pelanggaran sehingga tidak ada informasi terkait dengan Sanksi/tindak lanjut atas pengaduan yang telah selesai.

During 2018, there were no reports of violations. Thus, there was no information related to sanctions/follow-up on complaints that have been completed.

Monitoring dan Evaluasi Pelaksanaan Whistleblowing System **Monitoring and Evaluation of Whistleblowing System**

BPDPKS melakukan monitoring dan evaluasi Sistem Pelaporan Pelanggaran secara berkala minimal satu tahun sekali. Hal ini dilakukan untuk memastikan efektivitas penerapan WBS. Monitoring dan evaluasi dilakukan oleh Direksi melalui Satuan Pengawasan Intern atau dapat menggunakan pihak luar yang independen. Monitoring dan evaluasi diharapkan dapat meningkatkan implementasi WBS di lingkungan BPDPKS. Hasil monitoring dan evaluasi dituangkan dalam bentuk laporan kepada Direksi.

OPPFMA monitors and evaluates the Whistleblowing System regularly, at least once a year. This is done to ensure the effectiveness of WBS implementation. Monitoring and evaluation are carried out by the Board of Directors through the Internal Audit Unit, or it can be carried out independently by external parties. The monitoring and evaluation shall improve the WBS implementation within OPPFMA. The report of the results of monitoring and evaluation is delivered to the Board of Directors.

- f. Penyaluran Dana Sarana dan Prasarana Perkebunan;
- g. Penyaluran Dana Pembiayaan Biodiesel; dan
- h. Pelaksanaan Urusan Umum dan Kerumahtanggaan.

Tujuan Sistem Pelayanan Minimum BPDPKS, antara lain:

1. Menjamin terlaksananya prosedur pelaksanaan atas pengelolaan Dana Perkebunan Kelapa Sawit sesuai dengan ketentuan yang berlaku;
2. Menjamin terpenuhinya kualitas pelayanan dalam pelaksanaan pengelolaan dana pengembangan kelapa sawit berkelanjutan; dan
3. Menjamin konsistensi perencanaan, pelaksanaan, monitoring, dan evaluasi atas pelaksanaan pengelolaan dana pengembangan kelapa sawit berkelanjutan.

SPM is a guideline in providing minimum services to the community on the implementation of sustainable palm oil development fund management by OPPFMA. In its implementation, the Supervisory Board supervises OPPFMA's management, conducted by the Board of Directors.

Policies related to the OPPFMA's Minimum Service System include:

- a. Fund Management;
- b. Fund Disbursement for Human Resources Development
- c. Fund Disbursement for Research and Development;
- d. Fund Disbursement for Promotion of Oil Palm and Its Derivatives;
- e. Fund Disbursement for Replantations;
- f. Fund Disbursement for Plantation Facilities and Infrastructure;
- g. Fund Disbursement for Biodiesel Financing; and
- h. General Affairs and Housekeeping.

The objectives of OPPFMA's Minimum Service System include:

1. Guaranteeing the procedure implementation for the management of the Oil Palm Plantation Fund in accordance with applicable regulations;
2. Ensuring the service quality in the management of sustainable palm oil development funds; and
3. Ensuring the consistency of planning, implementation, monitoring, and evaluation of the sustainable palm oil development fund management.

Further, in order to improve the OPPFMA's performance and to observe the achievements and impacts of the program that was carried out based on the monitoring, evaluation was carried out regularly by site visitations, interviews, observations, and studies. The evaluation results are used as input to improve the performance of OPPFMA's services.

Akuntan Publik

Public Accountant

BPDPKS menyadari bahwa akuntabilitas informasi yang dihasilkan dari pelaksanaan Audit sangat penting bagi keberlanjutan usaha. Untuk memberikan keyakinan yang memadai akan laporan keuangan dan operasional BPDPKS, BPDPKS secara rutin menunjuk pihak eksternal (independen) untuk melakukan audit terkait laporan tersebut. Upaya tersebut dilakukan BPDPKS dalam rangka menunjang sistem pengendalian internal BPDPKS dan untuk memperoleh informasi yang memadai sebagai pertimbangan dalam menyusun strategi pengembangan Perusahaan kedepan.

BPDPKS menunjuk akuntan publik sebagai auditor eksternal untuk memastikan bahwa pencatatan akuntansi BPDPKS sesuai dengan ketentuan Pernyataan Standar Akuntansi dan Keuangan (PSAK). Selain itu, laporan yang disusun menyajikan informasi terkait posisi keuangan dan hasil usaha secara wajar serta operasional usaha yang dijalankan BPDPKS tidak menyalahi ketentuan Regulasi yang berlaku. Auditor eksternal juga diberikan wewenang dalam melakukan penilaian yang dianggap penting.

Pemilihan auditor eksternal telah memenuhi ketentuan Peraturan Menteri Keuangan No.17/PMK.01/2008 tentang Jasa Akuntan Publik dan dilakukan melalui mekanisme tender pengadaan jasa audit, dengan peserta tender sesuai dengan kualifikasi yang telah ditetapkan oleh BPDPKS. Dimana Kantor Akuntan Publik (KAP) hanya boleh melakukan audit paling lama 6 (enam) tahun buku berturut-turut dan oleh seorang Akuntan Publik maksimal 3 (tiga) tahun buku berturut-turut.

Dari hasil pemilihan KAP yang telah dilakukan pada tahun 2018, telah ditetapkan KAP Tanudiredja, Wibisana, Rintis & Rekan untuk melakukan audit keuangan untuk Tahun Buku 2018 dengan *fee audit* sebesar Rp191.510.000,- Informasi Akuntan Publik terkait Nama Akuntan, Nama Kantor Akuntan Publik, dan Jasa Lain yang Diberikan selama kurun waktu 2015 - 2018 dapat dilihat pada tabel sebagai berikut:

OPPFMA realizes that information accountability resulted from the audits is essential for business continuity. OPPFMA regularly appoints an external (independent) party to conduct audits related to the OPPFMA's financial and statements and operational reports to provide adequate confidence. OPPFMA carries out the activity to support the OPPFMA's internal control system and to obtain adequate information as consideration in developing the Company's future development strategy.

OPPFMA shall appoint public accountant as external auditors to ensure that OPPFMA's accounting reports are in accordance with the Statements of Financial Accounting Standards (SFAS). In addition, the report compiled presents information related to the financial position, results of operations in a reasonable manner, and informed that business operations carried out by OPPFMA do not violate the prevailing regulations. External auditors are also given the authority to provide important assessments.

The selection of external auditors has fulfilled the provisions of Minister of Finance Regulation No. 17/PMK.01/2008 on the Public Accountant Services and was conducted through a tender for procurement of audit services, with tender participants in accordance with the qualifications set by OPPFMA. Public Accountant Firm (KAP) may only perform audit for a maximum of 6 (six) consecutive fiscal years, and Public Accountant may only perform audit for a maximum of 3 (three) consecutive fiscal years.

From the results of the KAP selection in 2018, KAP Tanudiredja, Wibisana, Rintis & Rekan is selected to conduct financial audits for Fiscal Year 2018 with an audit fee of Rp191,510,000. Tanggung Jawab Sosial BPDPKS OPPFMA Social Responsibility

Bagi BPDPKS, tanggung jawab sosial merupakan perwujudan komitmen BPDPKS untuk mendukung terciptanya pembangunan berkelanjutan (*sustainable development*).

Oleh karena itu konsep tanggung jawab sosial dimaknai sebagai sebagai bentuk tanggung jawab BPDPKS untuk menciptakan hubungan yang serasi, seimbang dan sesuai dengan lingkungan, nilai, norma dan budaya masyarakat setempat.

For OPPFMA, social responsibility is a manifestation of OPPFMA's commitment to supporting the creation of sustainable development. Therefore, the concept of social responsibility is interpreted as a form of OPPFMA's responsibility to create a harmonious, balanced, and proper relationship with the environment, values, norms, and culture of the local community.

Tata Kelola Tanggung Jawab Sosial

Corporate Social Responsibility

Komitmen Penerapan Tanggung Jawab Sosial Perusahaan Commitment to Implementing Corporate Social Responsibility

Salah satu cara sebuah lembaga membangun reputasi serta image yang baik dapat dilakukan melalui program Tanggung Jawab Sosial Perusahaan atau *Corporate Social Responsibility*. Selain dapat meningkatkan citra positif di mata masyarakat juga dapat memberikan image positif di mata pemerintah. Manfaat tanggung jawab sosial bagi masyarakat, selain kepentingan masyarakat terakomodasi, hubungan masyarakat dengan suatu lembaga akan lebih erat. Adapun manfaat bagi pemerintah adalah pemerintah akan merasa memiliki *partner* dalam menjalankan misi sosialnya dalam hal tanggung jawab sosial.

One of the measures of how an institution builds a good reputation and image is by its Corporate Social Responsibility program. The program shall enhance positive image in the public's perspective and the government. For the community, the benefits of social responsibility for is the fulfillment of the community's interest and the improvement of relationship between the community and an institution. The benefit for the government is the government will have a partner in carrying out its social mission in terms of social responsibility.

Bagi BPDPKS, tanggung jawab sosial merupakan perwujudan komitmen BPDPKS untuk mendukung terciptanya pembangunan berkelanjutan (sustainable development). Oleh karena itu konsep tanggung jawab sosial dimaknai sebagai sebagai bentuk tanggung jawab BPDPKS untuk menciptakan hubungan yang serasi, seimbang dan sesuai dengan lingkungan, nilai, norma dan budaya masyarakat setempat. Hal ini sejalan dengan ketentuan dalam Pasal 74 Undang-undang No. 40 Tahun 2007 tentang Perseroan Terbatas.

For OPPFMA, social responsibility is a manifestation of OPPFMA's commitment to supporting the creation of sustainable development. Therefore, the concept of social responsibility is interpreted as a form of OPPFMA's responsibility to create a harmonious, balanced, and proper relationship with the environment, values, norms, and culture of the local community. This is in line with the provisions in Article 74 of Law No. 40 of 2007 on Limited Liability Company.

Tata Kelola Tanggung Jawab Sosial OPPFMA's Social Responsibility

Saat ini, BPDPKS tengah membangun pondasi tata kelola BPDPKS termasuk juga aspek tanggung jawab sosial yang menjadi perannya. Komitmen BPDPKS dalam melaksanakan program tanggung jawab sosial dan lingkungan ini sejalan dengan nilai-nilai dan budaya BPDPKS yaitu: Integritas, Profesionalisme, Sinergi, Pelayanan dan Kesempurnaan. Pelaksanaan kegiatan tanggung jawab sosial merupakan bentuk tanggung jawab BPDPKS terhadap segenap *stakeholder* BPDPKS.

Stakeholder adalah pihak pemangku kepentingan atau beberapa kelompok orang yang memiliki kepentingan terhadap BPDPKS yang dikelompokkan menjadi dua yaitu *stakeholder* internal dan *stakeholder* eksternal. *Stakeholder* internal meliputi Dewan Pengawas, Direksi dan Pegawai BPDPKS. Sedangkan *stakeholder* eksternal BPDPKS merupakan bagian yang paling berperan dalam perumusan kebijakan tentang dana perkebunan kelapa sawit serta memiliki peranan yang cukup besar terhadap penggunaan dana sawit. Para pihak tersebut berasal dari berbagai sektor diantaranya yaitu pemerintah, swasta, asosiasi, masyarakat dan lembaga swadaya masyarakat.

To date, OPPFMA is building a foundation for corporate governance, including social responsibility as part of its role. OPPFMA's commitment to implementing social and environmental responsibility programs is in accordance with OPPFMA's values and culture: Integrity, Professionalism, Synergy, Service, and Perfection. The social responsibility activities are OPPFMA's responsibility towards all the stakeholders.

Stakeholders are groups of people who have an interest in OPPFMA, divided into two categories, i.e. internal and external stakeholders. Internal stakeholders include the Supervisory Board, Board of Directors, and OPPFMA's Employees. OPPFMA's external stakeholders are the most instrumental part in the formulation of policies regarding palm oil plantation funds and have significant roles in the utilization of palm oil funds. The stakeholders came from various sectors, including government, private sector, associations, communities, and non-governmental organizations.

Tanggung Jawab Sosial Dalam Penerapan Hak Asasi Manusia (HAM)

Social Responsibility in Human Rights (HAM) Implementation

BPDPKS terus mengembangkan dan memastikan bahwa aktivitas operasional yang dijalankan telah memenuhi aspek perlindungan Hak Asasi Manusia (HAM), yang diwujudkan melalui pelaksanaan praktik ketenagakerjaan yang memperhatikan prinsip kemanusiaan, memastikan tidak terjadi pelanggaran hak asasi manusia termasuk tindakan diskriminasi. Ketentuan tersebut tercantum dalam Pedoman Tata Kelola (*Good Governance Code*) BPDPKS, Kode Etik (*Code Of Conduct*) dan kebijakan pengelolaan SDM di lingkungan BPDPKS.

OPPFMA strives to develop and ensure that operations that are carried out fulfill human rights protection aspects, which is realized through the implementation of labor practices with due regards to humanitarian principles, thereby ensuring there are no human rights violations, including acts of discrimination. These provisions are listed in OPPFMA's Good Governance Code, the Code of Conduct, and HR management policies within OPPFMA.

Dalam berinteraksi dengan pegawai, BPDPKS mengedepankan prinsip menghormati hak asasi manusia, memberikan kesempatan yang sama kepada seluruh pegawai serta menghindari intimidasi dan diskriminasi. Isu pengelolaan Sumber Daya Manusia (SDM) dalam rangka perlindungan hak pegawai, mencakup namun tidak terbatas pada aspek jenjang karir dan penilaian kinerja, anti praktik diskriminasi; kesejahteraan pegawai beserta keluarga terjamin; serta suasana kerja yan kondusif, sehat, dan aman. Oleh karena itu, program tanggung jawab sosial bidang HAM yang direncanakan oleh BPDPKS diantaranya kesetaraan dalam kesempatan kerja dan pengembangan kompetensi, keadilan dalam pengupahan dan penghapusan diskriminasi, serta perlindungan penyaluran aspirasi dan pengaduan pegawai, sosialisasi kebijakan baik *Code of Conduct* secara berkala.

In interacting with employees, OPPFMA promotes the principle of respecting human rights, providing equal opportunities to all employees, and avoiding intimidation and discrimination. In protecting employee rights, issues in the Human Resources (HR) management include, but not limited to career path and performance appraisal, anti-discrimination practices; secure employee and family welfare; and a conducive, healthy, and safe working environment. Therefore, OPPFMA plans social responsibility program in human rights that includes equal opportunities and competency development, fairness in wages, elimination of discrimination, protection of channeling aspirations and complaints of employees, and dissemination of policies (Code of Conduct) regularly.

Program tanggung jawab sosial bidang HAM yang telah direncanakan menjadi upaya BPDPKS untuk mengantisipasi dampak dan risiko berupa pelanggaran HAM yang dapat dilakukan oleh BPDPKS. BPDPKS telah menerapkan aspek HAM terutama pada program tanggung jawab sosial kepada pegawai melalui kegiatan sebagai berikut:

The program of social responsibility in human rights that has been planned is OPPFMA's effort to anticipate the impacts and risks of human rights violations that may be carried out. OPPFMA has implemented aspects of human rights, especially in the social responsibility program for employees through the following activities:

1

Penghormatan Hak Dasar Pegawai (Penghapusan Diskriminasi, Standar Pengupahan, Kesehatan dan Keselamatan Kerja serta Pengembangan Kompetensi)

Respect for Employees Rights (Elimination of Discrimination, Standard of Wages, Occupational Health and Safety, and Competence Development)

BPDPKS melaksanakan sejumlah praktik ketenagakerjaan yang menjadi bagian tanggung jawab kepada pegawai, yaitu menghormati keberagaman dan melarang segala bentuk diskriminasi karena gender, usia, suku, ras, agama, asal-usul, dan hambatan fisik sebagaimana diatur dalam *Code Of Conduct* maupun mematuhi ketentuan Undang Undang Nomor 13 Tahun 2003 tentang Ketenagakerjaan. Upaya ini diharapkan dapat menciptakan lingkungan kerja yang harmonis dan insan BPDPKS dapat berinteraksi dengan adil, sopan, dan penuh rasa hormat. Prinsip kesetaraan pun diterapkan dalam pemberian kompensasi sesuai dengan kompetensi individu, tanggung jawab dalam jabatan dan prestasi kerja. Selain itu, setiap pegawai memiliki kesempatan yang setara untuk mengembangkan kemampuannya melalui program pendidikan dan pelatihan yang diselenggarakan. Program tanggung jawab sosial terhadap pegawai dalam bidang HAM merupakan wujud peran dan kontribusi BPDPKS dalam mencapai tujuan pembangunan berkelanjutan berupa pekerjaan yang layak dan pertumbuhan ekonomi, serta kesehatan dan kesejahteraan yang baik.

OPPFMA carries out various labor practices as a part of its responsibilities to employees, i.e. respecting diversity and prohibiting all forms of discrimination based on gender, age, ethnicity, race, religion, origin, and physical disabilities, as regulated in the Code of Conduct, and in compliance with the provisions of the Law No. 13 of 2003 on Employment. This effort is expected to create a harmonious work environment and OPPFMA's personnel can interact fairly, politely, and with respect. The equality principle is also applied in the provision of compensation, in accordance with individual competence, position's responsibilities, and work performance. In addition, every employee has an equal opportunity to develop his/her abilities through an organized education and training program. The social responsibility program to employees in human rights is a form of OPPFMA's role and contribution in achieving the sustainable development goal of decent work and economic growth, as well as health and welfare.

2

Larangan Tenaga Kerja Anak dan Kerja Paksa Prohibition of Child Labor and Forced Labor

BPDPKS melaksanakan proses rekrutmen dengan persyaratan kandidat pegawai minimal lulusan SLTA dengan usia di atas 17 tahun sehingga tidak terdapat praktik pekerja anak di bawah umur. Hal tersebut menjadi bukti komitmen BPDPKS dalam memenuhi Pasal 68 dan Pasal 69 Undang-Undang Nomor 13 tentang Ketenagakerjaan yang mengatur larangan mempekerjakan anak yaitu setiap orang yang berumur di bawah 18 tahun.

OPPFMA carries out the recruitment process, requiring all employee candidates to be at least of high school graduates, older than 17 years old. Thus, there is no practice of underage employees. This is evidence of OPPFMA's commitment to fulfilling Article 68 and Article 69 of Law No. 13 on Employment, which regulates the prohibition of child labor, i.e. anyone below the age of 18.

3

Sosialisasi Terhadap Kode Etik Kepada Insan BPDPKS Dissemination of the Code of Conduct to OPPFMA's Employees.

BPDPKS mengadakan sosialisasi kepada seluruh insan BPDPKS terhadap Code of Conduct yang berlaku. Sosialisasi ini turut memuat aspek Etika Bekerja Insan BPDPKS yang mencakup komitmen pengembangan diri, kemajuan dan perkembangan perusahaan, serta komitmen anti diskriminasi. *Code of Conduct* disosialisasikan melalui kegiatan pembagian buku saku. Untuk tahun 2018, ada/tidak pelanggaran terkait dengan *Code of Conduct* sebagai bentuk dipahami dan dipatuhiinya ketentuan tersebut secara efektif.

OPPFMA conducts dissemination of the Code of Conduct to all OPPFMA's personnel. This socialization also included aspects of the OPPFMA's Work Ethics that included commitments for personal development, company progress and development, and anti-discrimination. Code of Conduct is disseminated through the distribution of pocket books. In 2018, the existence of violations related to the Code of Conduct is a form of effective understanding and compliance with these provisions.

Selama tahun 2018 tidak terdapat terkait pelanggaran hak asasi manusia di lingkungan BPDPKS, baik terkait dengan tindakan diskriminasi, insiden pelanggaran maupun insiden kerja paksa yang dialami pegawai. Hal ini dipengaruhi oleh upaya penerapan dan pengawasan terhadap praktik ketenagakerjaan telah dijalankan dengan baik oleh seluruh jajaran insan BPDPKS.

During 2018, there were no complaints related to human rights violations within OPPFMA in terms of acts of discrimination, incidents of violations, or incidents of forced labor experienced by employees. This is influenced by the efforts to implement and monitor labor practices that have been carried out well by all OPPFMA's personnel.

Tanggung Jawab Sosial Dalam Penerapan Hak Asasi Manusia (HAM) Social Responsibility in Human Rights (HAM) Implementation

Penerapan keseluruhan program tersebut telah memberikan manfaat bagi segenap Insan BPDPKS diantaranya terciptanya lingkungan kerja yang kondusif, aman, dan nyaman sehingga meningkatkan loyalitas pegawai dan membentuk citra positif BPDPKS sebagai BLU yang turut serta mendukung tujuan pembangunan berkelanjutan yaitu menyediakan pekerjaan yang layak dan pertumbuhan ekonomi.

The implementation of the program has benefited all OPPFMA's personnel, including the creation of a conducive, safe, and comfortable working environment, which increases employee loyalty and form OPPFMA's positive image as a BLU that participates in supporting sustainable development goals, i.e. providing decent work and economic growth.

Tanggung Jawab Sosial Terhadap Operasi yang Adil Social Responsibility to Fair Operations

Praktik operasi yang adil menunjukkan bahwa dalam berinteraksi dengan organisasi lainnya, BPDPKS menerapkan etika dan perilaku yang etis dengan memperhatikan hak para pemangku kepentingan agar tercipta keseimbangan atas kepentingan seluruh stakeholder. Beberapa pemangku kepentingan yang relevan dengan praktik operasi yang adil adalah pengusaha, petani, pemerintah/sektor industri. Wujud kegiatan operasional yang adil di BPDPKS yaitu praktik bebas dari korupsi dan suap, netralitas dalam isu-isu politik, menghormati kekayaan intelektual, berkompetisi dengan adil serta patuh pada hukum dan regulasi.

Fair operations show that in interacting with other organizations, OPPFMA applies ethics and ethical behavior with due regard to the stakeholders' rights to create balance for the interests of all stakeholders. Some relevant stakeholders in fair operations are entrepreneurs, farmers, government/industrial sectors. The form of fair operations in OPPFMA includes the free from corruption and bribery practices, neutrality in political issues, respects for intellectual property, fair competition, and compliance with laws and regulations.

Tanggung Jawab Sosial Terhadap Lingkungan Social Responsibility to the Environment

Adapun implementasi kegiatan tanggung jawab sosial lingkungan hidup diuraikan sebagai berikut:

The environmental social responsibility activities are described as follows:

1

Upaya Mitigasi Emisi Karbon Carbon Emissions Mitigation

BPDPKS melakukan serangkaian inisiatif secara konsisten dan terarah untuk mengurangi pemakaian energi listrik dalam operasional dengan mengimplementasikan peralatan dengan efisiensi tinggi dan teknologi baru yang lebih ramah lingkungan, antara lain penggunaan AC berteknologi inverter, mengganti lampu TL dengan lampu LED yang memiliki tingkat efisiensi rendah, mematikan lampu dan Komputer pada jam istirahat maupun sepulang kerja bila tidak diperlukan. Selain mendukung upaya mitigasi emisi karbon, berbagai inisiatif program di atas juga berhasil menghemat pemakaian energi listrik tersebut juga telah berdampak pada penghematan biaya operasional dan beban pemeliharaan, serta mengurangi *down time* perangkat akibat kegagalan sistem pendingin udara.

OPPFMA conducts a series of initiatives that are consistent and directed to reduce the use of electrical energy in operations by implementing equipment with high efficiency and new technologies that are more environmentally friendly, including the use of AC inverter technology, replacing TL lamps with LED lamps that have low-efficiency levels, turning off lights and Computers during recess or after work when not needed. In addition to supporting efforts to mitigate carbon emissions, the various program initiatives have also succeeded in saving electricity consumption, which also saved operational and maintenance costs, as well as reducing device down-time due to the failure of the air conditioning system.

2

Efisiensi Energi Gedung Kantor **Office Building Energy Efficiency**

Sistem energi di gedung kantor BPDPKS telah dibuat sedemikian rupa sehingga menjadi lebih efisien. Berbagai langkah strategis yang diterapkan antara lain:

- a. Penerapan secara ketat dan tepat, tanpa mengganggu kenyamanan dan keamanan penghuni gedung, jadwal pengoperasian penerangan maupun perangkat guna menekan pemborosan pemakaian listrik.
- b. Memberikan sosialisasi yang berkelanjutan dan berkesinambungan kepada seluruh penghuni gedung mengenai penghematan energi, termasuk penempatan papan peringatan dan stiker di berbagai lokasi yang strategis guna mengingatkan pegawai untuk menghemat listrik dan air.

3

Pengelolaan Sampah dan Limbah Bahan Berbahaya dan Beracun (B3) **Hazardous and Toxic (B3) Waste and Waste Management**

Pengelolaan sampah dilakukan bersama Dinas Kebersihan setempat. Pengawasan rutin diterapkan guna menekan jumlah sampah yang tercecer. Kami juga melakukan pengelolaan sampah dan pembuangan secara bertanggung jawab di seluruh kantor operasional.

4

Earth Hour **Earth Hour**

Secara rutin setiap tahunnya BPDPKS berpartisipasi dalam kegiatan "Earth Hour" yang diadakan oleh WWF, bertujuan melestarikan lingkungan hidup dengan mengurangi konsumsi energi listrik. Kegiatan ini dilakukan dengan melakukan pemadaman listrik selama 1 jam pada hari Sabtu, minggu keempat bulan Maret setiap tahun pada pukul 20.30 sampai dengan 21.30.

OPPFMA's energy system in the office building has been arranged to ensure the energy to be more efficient. Various strategic steps implemented include:

- a. Strict and precise lighting operation schedules, without disrupting the comfort and safety of building occupants, equipped with devices to reduce electricity usage.
- b. Providing ongoing and continuous socialization to all building occupants on energy savings, including placing bulletin boards and stickers in various strategic locations to remind employees to save electricity and water.

Waste management is carried out in collaboration with the local Sanitation Department. Routine supervision is implemented to reduce the amount of scattered waste. BAKTI also carries out responsible waste management and disposal in all operational offices.

Every year, OPPFMA participates in "Earth Hour" activities organized by WWF, with the objective to preserve the environment by reducing electricity consumption. This activity is carried out by 1-hour power outage on Saturday, the fourth week of March, annually, from 8.30-9.30PM.

Tanggung Jawab Sosial Terhadap Pegawai, Keselamatan dan Kesehatan Kerja

Social Responsibility to Employees, Occupational Health and Safety

BPDPKS terus berupaya mengarahkan pengelolaan SDM untuk mencapai visi, misi dan sasaran BLU serta sasaran pengelolaan SDM untuk membentuk pegawai dengan produktivitas di atas standar produktivitas di industri sejenis serta tingkat keterikatan (*engagement*) yang tinggi dalam menjalankan layanan yang menjadi amanahnya.

OPPFMA strives to direct HR management to achieve BLU's vision, mission, and objectives, as well as HR management goals to establish employees with above-standard productivity in the industry, equipped with high level of engagement in carrying out services that are mandated.

Kegiatan tanggung jawab sosial terhadap pegawai dilaksanakan melalui kegiatan operasional BPDPKS secara rutin sehari-hari dan juga program khusus, sebagaimana dijelaskan sebagai berikut:

Social responsibility to employees is carried out through OPPFMA's daily routine operations, and special programs, as follows:

1

Peningkatan Kesejahteraan Pegawai Employee Welfare Improvement

Program peningkatan kesejahteraan pegawai yang telah dilaksanakan pada tahun 2018, antara lain melalui pemberian fasilitas kepada pegawai berupa kompensasi, seperti uang transport, uang makan, uang pensiun, tunjangan hari raya, uang jabatan, bonus, uang pendidikan, uang pengobatan, pakaian dinas, uang cuti, dan uang kematian.

Employee welfare improvement programs that have been implemented in 2018 include the provision of facilities to employees in the form of compensation, such as transportation allowances, food allowances, pensions, holiday allowances, position allowances, bonuses, education fees, medical allowances, official clothing, leave allowances, and death insurance.

2

Persamaan Hak Kerja Equal Work Rights

BPDPKS senantiasa memberikan kesempatan yang sama bagi semua orang, baik pria atau wanita tanpa memandang perbedaan etnik agama, ras, gender ataupun kondisi fisik untuk mengikuti rekrutmen pekerja. Pengangkatan calon pekerja di lingkungan BPDPKS didasarkan atas hasil seleksi, evaluasi pada masa percobaan dan orientasi pekerja.

OPPFMA provides equal opportunity for all people, both men and women, regardless of ethnicity, religion, race, class, gender, or physical condition to participate in its employee recruitment. The appointment of candidates within OPPFMA is based on the results of the selection, evaluation results on probation and employee orientation.

3

Pengembangan Pegawai Berkelanjutan Sustainable Employee Development

Terkait dengan pengembangan karir, BPDPKS memberikan kesempatan yang sama kepada pegawai pria dan wanita. BPDPKS membuat sistem jenjang karir (*career path*) yang didasarkan pada kualifikasi jabatan dan kompetensi pegawai yang terintegrasi dengan sistem penilaian kinerja. BPDPKS secara konsisten berupaya mengembangkan kompetensi pegawai melalui berbagai program pendidikan dan pelatihan, training, maupun studi banding serta pelatihan manajemen dan teknis yang disesuaikan dengan kebutuhan BPDPKS.

In terms of career development, OPPFMA provides equal opportunities for male and female employees. OPPFMA has a career path based on job qualifications and employee competencies integrated with the performance appraisal system. OPPFMA strives to develop employee competencies through various education and training programs, as well as comparative studies and management and technical training tailored to the needs of OPPFMA.

4

Program Kesehatan Health Program

Demi terwujudnya tenaga kerja yang kuat dan produktif serta dan menjaga agar kondisi pegawai selalu dalam kondisi terpantau kesehatannya, BPDPKS menyediakan dan memberikan fasilitas kesehatan kepada pegawainya. BPDPKS mengikutsertakan seluruh pekerja dalam program BPJS Ketenagakerjaan untuk memberikan jaminan kepada seluruh pekerja berupa Jaminan Hari Tua, Jaminan Kecelakaan Kerja, Jaminan Kematian, dan Jaminan Pensiun.

For the actualization of a strong and productive workforce, as well as to maintain the employees' health condition, OPPFMA provides and facilitates health facilities to their employees. OPPFMA ensures that all employees participate in the BPJS Ketenagakerjaan (BPJS Employment) program to provide guarantees to all employees in the form of Old Age Insurance, Work Accident Insurance, Death Insurance, and Pension Insurance.

Tanggung Jawab Sosial Terkait Pengembangan Sosial dan Kemasyarakatan

Social Responsibility to Social and Community Development

BPDPKS meyakini bahwa kinerja lembaganya harus memiliki dampak positif terhadap masyarakat dan diharapkan akan memberikan dampak yang positif pula untuk pengembangan bisnis BPDPKS secara berkelanjutan. Masyarakat merupakan salah satu pemangku kepentingan yang berperan besar dalam menjamin kelangsungan usaha BPDPKS dalam jangka panjang.

OPPFMA believes that the institution's performance shall have a positive impact on society and the sustainable development of OPPFMA's business. The community is one of the stakeholders who play a major role in ensuring the long-term sustainability of OPPFMA's business.

INDEPENDENT AUDITORS' REPORT TO
THE BOARD OF SUPERVISORS

BADAN PENGELOLA DANA PERKEBUNAN KELAPA SAWIT

Kami telah mengaudit laporan keuangan Badan Pengelola Dana Perkebunan Kelapa Sawit terlampir, yang terdiri dari laporan posisi keuangan tanggal 31 Desember 2018, serta laporan aktivitas dan laporan arus kas untuk tahun yang berakhir pada tanggal tersebut, dan suatu ikhtisar kebijakan akuntansi signifikan dan informasi penjelasan lainnya.

Tanggung jawab manajemen atas laporan keuangan

Manajemen bertanggung jawab atas penyusunan dan penyajian wajar laporan keuangan ini sesuai dengan Standar Akuntansi Keuangan di Indonesia, dan atas pengendalian internal yang dianggap perlu oleh manajemen untuk memungkinkan penyusunan laporan keuangan yang bebas dari kesalahan penyajian material, baik yang disebabkan oleh kecurangan maupun kesalahan.

Tanggung jawab Auditor

Tanggung jawab kami adalah untuk menyatakan suatu opini atas laporan keuangan ini berdasarkan audit kami. Kami melaksanakan audit kami berdasarkan Standar Audit yang ditetapkan oleh Institut Akuntan Publik Indonesia. Standar tersebut mengharuskan kami untuk mematuhi ketentuan etika serta merencanakan dan melaksanakan audit untuk memperoleh keyakinan memadai tentang apakah laporan keuangan bebas dari kesalahan penyajian material.

Suatu audit melibatkan pelaksanaan prosedur untuk memperoleh bukti audit tentang angka-angka dan pengungkapan dalam laporan keuangan. Prosedur yang dipilih bergantung pada pertimbangan auditor, termasuk penilaian atas risiko kesalahan penyajian material dalam laporan keuangan, baik yang disebabkan oleh kecurangan maupun kesalahan. Dalam melakukan penilaian risiko tersebut, auditor mempertimbangkan pengendalian internal yang relevan dengan penyusunan dan penyajian wajar laporan keuangan entitas untuk merancang prosedur audit yang tepat sesuai dengan kondisinya, tetapi bukan untuk tujuan menyatakan opini atas keefektivitasan pengendalian internal entitas. Suatu audit juga mencakup pengevaluasian atas ketepatan kebijakan akuntansi yang digunakan dan kewajaran estimasi akuntansi yang dibuat oleh manajemen, serta pengevaluasian atas penyajian laporan keuangan secara keseluruhan.

We have audited the accompanying financial statements of Badan Pengelola Dana Perkebunan Kelapa Sawit, which comprise the statement of financial position as at 31 December 2018, and the statement of activities and statement of cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's responsibility for the financial statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with Indonesian Financial Accounting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Standards on Auditing established by the Indonesian Institute of Certified Public Accountants. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

2. IKHTISAR KEBIJAKAN AKUNTANSI PENTING

Laporan keuangan BPDPKS diselesaikan dan diotorisasi oleh Dewan Direksi pada 25 Maret 2019.

Kebijakan akuntansi utama yang diterapkan dalam penyusunan laporan keuangan adalah seperti yang dijabarkan di bawah ini:

a. Dasar penyusunan laporan keuangan

Laporan keuangan BPDPKS telah disusun sesuai dengan Standar Akuntansi Keuangan di Indonesia.

Laporan keuangan disusun berdasarkan konsep harga perolehan dan konsep akrual kecuali untuk laporan arus kas. Laporan arus kas disusun dengan menggunakan metode langsung dengan mengelompokkan arus kas dalam aktivitas operasi, investasi dan pendanaan. Untuk tujuan laporan arus kas, kas dan setara kas mencakup kas di bank serta deposito berjangka yang jatuh tempo dalam waktu tiga bulan atau kurang.

Mata uang pelaporan yang digunakan dalam laporan keuangan adalah Rupiah, yang merupakan mata uang fungsional BPDPKS.

1. GENERAL INFORMATION (continued)

The composition of BPDPKS' Audit Committee as at 31 December 2018 and 2017 are as follows:

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the BPDPKS were prepared and authorised by the Board of Directors on 25 March 2019.

The principal accounting policies adopted in the preparation of these financial statements are set out below:

a. Basis of preparation of the financial statements

The financial statements of the BPDPKS have been prepared in accordance with the Indonesian Financial Accounting Standards.

The financial statements have been prepared on the basis of the historical cost concept and the accrual concept, except for the statements of cash flows. The statements of cash flows have been prepared using the direct method by classifying cash flows on the basis of operating, investing and financing activities. For the purpose of the statements of cash flows, cash and cash equivalents include cash in banks and time deposits with a maturity of three months or less.

The presentation currency used in the financial statements is Rupiah, which is the BPDPKS' functional currency.

2. IKHTISAR KEBIJAKAN AKUNTANSI PENTING (lanjutan)

b. Perubahan pada Pernyataan Standar Akuntansi Keuangan ("PSAK") dan Interpretasi Standar Akuntansi Keuangan ("ISAK")

Penerapan dari standar baru, amandemen dan interpretasi berikut yang berlaku efektif mulai 1 Januari 2018 dan relevan, namun tidak menimbulkan dampak terhadap jumlah yang dilaporkan atas tahun berjalan atau tahun sebelumnya.

- Amandemen PSAK 2, "Laporan arus kas"
- Amandemen PSAK 16, "Aset tetap"

Sampai dengan tanggal penyelesaian laporan keuangan ini, BPDPKS sedang mempelajari dampak dari standar baru dan amandemen berikut, yang berlaku efektif untuk tahun buku yang dimulai atau setelah tanggal 1 Januari 2020 dan relevan bagi BPDPKS, terhadap laporan keuangan BPDPKS:

- PSAK 71, "Instrumen keuangan"
- PSAK 72, "Pendapatan dari kontrak dengan pelanggan"
- PSAK 73, "Sewa"

c. Instrumen keuangan

BPDPKS mengklasifikasikan instrumen keuangan dalam bentuk aset keuangan dan liabilitas keuangan.

Aset keuangan

Pada tanggal 31 Desember 2018, BPDPKS hanya memiliki aset keuangan dalam bentuk pinjaman yang diberikan dan piutang.

Pinjaman yang diberikan dan piutang adalah aset keuangan non-derivatif dengan pembayaran yang tetap atau dapat ditentukan dan tidak mempunyai kuotasi harga di pasar aktif. Pinjaman yang diberikan dan piutang dimasukkan sebagai aset lancar; kecuali jika jatuh temponya melebihi 12 bulan setelah akhir periode pelaporan, pinjaman yang diberikan dan piutang ini dimasukkan sebagai aset tidak lancar. Pinjaman yang diberikan dan piutang BPDPKS terdiri dari kas dan setara kas dan piutang dalam laporan posisi keuangan.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

b. Changes to the Statements of Financial Accounting Standards ("SFAS") and Interpretations of Statement of Financial Accounting Standards ("IFAS")

The adoption of these new and amended standards and interpretations that are effective beginning 1 January 2018 and relevant, but did not result in substantial changes to the BPDPKS' accounting policies and had not material effect on the amount reported for the current or prior financial years:

- Amendment to PSAK 2, "Statements of cash flows"
- Amendment to PSAK 16, "Fixed assets"

As at the authorisation date of these financial statements, BPDPKS is assessing the impact of the following new standards and amendments, which are effective for the financial year beginning on or after 1 January 2020 and relevant to BPDPKS operations, on BPDPKS' financial statements:

- PSAK 71, "Financial instruments"
- PSAK 72, "Revenue from contract with customers"
- PSAK 73, "Leases"

c. Financial instruments

BPDPKS classifies its financial instruments into financial assets and financial liabilities.

Financial assets

As at 31 December 2018, BPDPKS only has financial assets classified as loans and receivables.

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They are included in current assets for maturities shorter than 12 months after the end of reporting period; otherwise, they are classified as non-current assets. BPDPKS' loans and receivables comprise of cash and cash equivalents and receivables in the statement of financial position.

2. IKHTISAR KEBIJAKAN AKUNTANSI PENTING (lanjutan)

c. Instrumen keuangan (lanjutan)

Aset keuangan (lanjutan)

Pinjaman yang diberikan dan piutang pada awalnya diukur pada nilai wajar ditambah dengan biaya transaksi dan selanjutnya dicatat sebesar biaya perolehan diamortisasi dengan menggunakan metode suku bunga efektif. Aset keuangan dihentikan pengakuannya ketika hak untuk menerima arus kas dari aset tersebut telah jatuh tempo atau telah ditransfer dan BPDPKS telah mentransfer secara substansial seluruh risiko dan manfaat atas kepemilikan aset.

Liabilitas keuangan

Pada tanggal 31 Desember 2018, BPDPKS hanya memiliki liabilitas keuangan yang diukur pada biaya perolehan diamortisasi yang terdiri dari akrual dan utang lainnya. Setelah pengakuan awal sebesar nilai wajarnya ditambah biaya transaksi, BPDPKS mengukur seluruh liabilitas keuangan dengan biaya perolehan diamortisasi yang menggunakan metode suku bunga efektif. Liabilitas keuangan dihentikan pengakuannya ketika sudah ditebus, dibatalkan atau telah dibayar.

Penurunan nilai dari aset keuangan

Pada setiap tanggal pelaporan, BPDPKS mengevaluasi apakah terdapat bukti yang objektif bahwa aset keuangan atau kelompok aset keuangan mengalami penurunan nilai. Kerugian penurunan nilai terjadi jika terdapat bukti yang objektif mengenai penurunan nilai tersebut sebagai akibat dari satu atau lebih peristiwa yang terjadi setelah pengakuan awal aset tersebut ("peristiwa yang merugikan") dan peristiwa yang merugikan tersebut berdampak pada estimasi arus kas masa depan atas aset keuangan atau kelompok aset keuangan yang dapat diestimasi secara handal.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

c. *Financial instruments* (continued)

Financial assets (continued)

Loans and receivables are initially recognised at fair value plus transaction costs and subsequently measured at amortised cost using the effective interest rate method. Financial assets are derecognised when the rights to receive cash flows from the assets have ceased to exist or have been transferred and BPDPKS has transferred substantially all risks and rewards of ownership.

Financial liabilities

As at 31 December 2018, BPDPKS only has financial liabilities measured at amortised cost that comprise of accruals and other payables. After initial recognition which is at fair value plus transaction costs, BPDPKS measures all financial liabilities at amortised cost using effective interest rates method. Financial liabilities are derecognised when they have been redeemed, cancelled or otherwise extinguished.

Impairment of financial assets

At each reporting date, BPDPKS assesses whether there is objective evidence that a financial asset or group of financial assets is impaired. Impairment losses are incurred only if there is objective evidence of impairment as a result of one or more events that occurred after the initial recognition of the asset (a "loss event") and that loss event has an impact on the estimated future cash flows of the financial asset or group of financial assets that can be reliably estimated.

Instrumen keuangan saling hapus

Aset keuangan dan liabilitas keuangan disalinghapuskan dan jumlah bersihnya dilaporkan pada laporan posisi keuangan ketika terdapat hak yang berkekuatan hukum untuk melakukan saling hapus atas jumlah yang telah diakui tersebut dan adanya niat untuk menyelesaikan secara neto, atau untuk merealisasikan aset dan menyelesaikan liabilitas secara bersamaan.

d. Kas dan setara kas

Kas dan setara kas terdiri dari saldo kas, kas pada bank dan deposito berjangka yang jatuh tempo dalam waktu tiga bulan atau kurang sejak tanggal perolehan.

e. Aset tetap

Aset tetap dinyatakan sebesar biaya perolehan dikurangi akumulasi penyusutan dan penurunan nilai, jika ada.

f. Pengakuan pendapatan

Pendapatan BPDPKS terdiri dari pendapatan pungutan dana perkebunan kelapa sawit dan pendapatan atas pengelolaan dana. BPDPKS mengakui pendapatan pada saat jumlah pendapatan dapat diukur dengan andal dan besar kemungkinan bahwa manfaat ekonomi masa depan akan mengalir kepada BPDPKS.

g. Pengakuan beban

Beban diakui pada saat terjadi dengan menggunakan dasar akrual.

h. Transaksi dengan pihak-pihak berelasi

Perusahaan melakukan transaksi dengan pihak-pihak berelasi sebagaimana didefinisikan dalam PSAK 7 (revisi 2015) "Pengungkapan pihak-pihak berelasi".

Jenis transaksi dan saldo dengan pihak-pihak berelasi diungkapkan dalam catatan atas laporan keuangan.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

c. *Financial instruments* (continued)

Offsetting financial instruments

Financial assets and liabilities are offset and the net amount reported in the statements of financial position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis, or realise the asset and settle the liability simultaneously.

d. *Cash and cash equivalents*

Cash and cash equivalents include cash on hand, cash in banks and time deposits with original maturity of three months or less.

e. *Fixed assets*

Fixed assets are stated at cost less accumulated depreciation and impairment, if any.

f. *Income recognition*

BPDPKS' income consist of income from fund collection of oil palm plantations and income from fund management. BPDPKS recognises income when the amount of income can be reliably measured and it is probable that future economic benefits will flow to BPDPKS.

g. *Expenses recognition*

Expenses are recognised when they are incurred on an accrual basis.

h. *Transactions with related parties*

The Company enters into transactions with related parties as defined in PSAK 7 (revised 2015) "Related party disclosures".

The nature of transactions and balances of accounts with related parties are disclosed in the notes to the financial statements.

3. ESTIMASI DAN PERTIMBANGAN AKUNTANSI YANG PENTING

Estimasi dan pertimbangan yang digunakan dalam mempersiapkan laporan keuangan dievaluasi secara berkala berdasarkan pengalaman historis dan faktor-faktor lain, termasuk ekspektasi dari kejadian-kejadian di masa depan yang mungkin terjadi. Hasil aktual dapat berbeda dengan jumlah yang diestimasi. Estimasi dan pertimbangan akuntansi yang penting yang memiliki dampak yang signifikan terhadap jumlah aset dan liabilitas adalah sehubungan dengan akrual.

Pertimbangan yang signifikan terutama diperlukan untuk menentukan akrual peremajaan kebun kelapa sawit, akrual selisih harga biodiesel, akrual pengembalian pungutan dana perkebunan kelapa sawit, dan akrual lainnya. Akrual diakui ketika BPDPKS memiliki kewajiban masa kini (baik bersifat hukum maupun bersifat konstruktif) sebagai akibat peristiwa masa lalu dan kemungkinan besar penyelesaian kewajiban tersebut mengakibatkan arus keluar sumber daya yang mengandung manfaat ekonomi serta estimasi yang handal mengenai akrual tersebut dapat dibuat. BPDPKS memperkirakan jumlah akrual dengan mempertimbangkan peraturan yang mengatur dan data yang diperoleh dari pihak terkait yang dapat diandalkan.

3. CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS

Estimates and judgments used in preparing the financial statements are periodically evaluated based on historical experience and other factors, including expectations of future events that may occur. Actual results may differ from these estimates. Significant estimates and assumptions that have significant effect on the amounts of assets and liabilities is related to accruals.

Significant judgment is required mainly in determining the accruals for palm oil plantation replanting, accruals for biodiesel price variance, accruals for restitution of fund collection of oil palm plantation and other accruals. Accruals are recognised when BPDPKS has a present obligation (legal as well as constructive) as a result of past events and it is more likely than not that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate of the amount of the obligation can be made. BPDPKS estimates accrual with consideration of governing regulations and reliable data obtained from respective parties.

13. MANAJEMEN RISIKO KEUANGAN

13. FINANCIAL RISK MANAGEMENT

Faktor risiko keuangan

Financial risk factors

Risiko-risiko utama yang timbul dari instrumen keuangan BPDPKS adalah risiko tingkat suku bunga, risiko kredit dan risiko likuiditas. Manajemen menelaah dan menetapkan kebijakan untuk mengelola masing-masing risiko. BPDPKS menerapkan kebijakan manajemen risiko keuangan yang bertujuan untuk meminimalkan pengaruh ketidakpastian pasar keuangan terhadap kinerja keuangan BPDPKS. Berikut ini ringkasan kebijakan manajemen risiko tersebut:

The main risks arising from the BPDPKS' financial instruments are interest rate risk, credit risk and liquidity risk. Management review and determine policies for managing each of these risks. BPDPKS applies financial risk management policies to minimise impact of unpredictability financial markets on BPDPKS' financial performance. Summary of financial risk management policies are as follows:

(1) Risiko tingkat suku bunga

(1) Interest rate risk

Pada tanggal 31 Desember 2018, BPDPKS tidak memiliki risiko tingkat suku bunga yang signifikan. Aset keuangan BPDPKS yang terekspos dengan risiko suku bunga adalah investasi. Investasi BPDPKS terdiri dari deposito berjangka dengan pendapatan tetap.

As at 31 December 2018, BPDPKS has no significant interest rate risk. BPDPKS' financial assets which are exposed to interest rate risk are investments. BPDPKS' investments consist of time deposits with fixed income.

NOTES TO THE FINANCIAL STATEMENTS 31 DECEMBER 2018 (Expressed in Rupiah, unless otherwise stated)

13. MANAJEMEN RISIKO KEUANGAN (lanjutan)

Faktor risiko keuangan (lanjutan)

(2) Risiko kredit

BPDPKS tidak mempunyai risiko kredit yang signifikan karena dalam tahun berjalan piutang BPDPKS berasal dari pendapatan bunga dari penempatan deposito berjangka.

Deposito berjangka dan kas di bank ditempatkan pada bank Badan Usaha Milik Negara (BUMN) yang memiliki penilaian peringkat komposit bank yang sehat.

Semua aset keuangan BPDPKS pada tanggal 31 Desember 2018 belum jatuh tempo dan tidak mengalami penurunan nilai sehingga cadangan kerugian penurunan nilai tidak diperlukan.

(3) Risiko likuiditas

BPDPKS tidak mempunyai risiko likuiditas yang signifikan. Risiko likuiditas timbul ketika BPDPKS mengalami kesulitan dalam memperoleh pendanaan. Manajemen pengelolaan risiko likuiditas termasuk dalamnya menjaga kecukupan kas dan setara kas. BPDPKS mengelola risiko likuiditas dengan memantau arus kas perkiraan dan aktual dan menyesuaikan profil tanggal jatuh tempo dari aset keuangan dan liabilitas keuangan.

Pada tanggal 31 Desember 2018, liabilitas keuangan BPDPKS terutama terdiri dari akrual dan utang lainnya yang jumlahnya tidak signifikan terhadap aset likuid BPDPKS. BPDPKS memiliki likuiditas aset yang tinggi dalam bentuk kas dan setara kas.

(4) Estimasi nilai wajar

Nilai tercatat aset keuangan seperti kas dan setara kas, piutang, serta liabilitas keuangan seperti akrual dan utang lainnya mendekati nilai wajarnya karena jatuh tempo dalam jangka waktu yang pendek dan dampak dari diskonto yang tidak signifikan.

13. FINANCIAL RISK MANAGEMENT (continued)

Financial risk factors (continued)

(2) Credit risk

BPDPKS has no significant credit risk because in the current year BPDPKS' receivables arise from interest income from placement of time deposits.

Time deposits and cash in banks are placed in Government Banks that has a healthy bank composite rating.

All of BPDPKS' financial assets as at 31 December 2018 are neither past due nor impaired, therefore, no allowance for impairment loss is needed.

(3) Liquidity risk

BPDPKS has no significant liquidity risk. Liquidity risk arises in situations where BPDPKS has difficulties in obtaining funding. Prudent liquidity risk management implies maintaining sufficient cash and cash equivalents. BPDPKS manages liquidity risk by continuously monitoring forecast and actual cash flows and matching the maturity profiles of financial assets and liabilities.

As at 31 December 2018, BPDPKS' financial liability is mainly accruals and other payables which are insignificant to the total BPDPKS' liquid assets. BPDPKS' assets are highly liquid in form of cash and cash equivalents.

(4) Fair value estimation

The carrying amount of financial assets such as cash and cash equivalents, receivables, and financial liabilities such as accruals and other payables approximate their fair value due to their short-term maturity and the impact of discounting is not significant.
